Track-Record Factory Control & Efficiency

▶ *The Right Ingredients & Recipes Processed - ALWAYS* ▶ *No Risk of Cross Contamination*

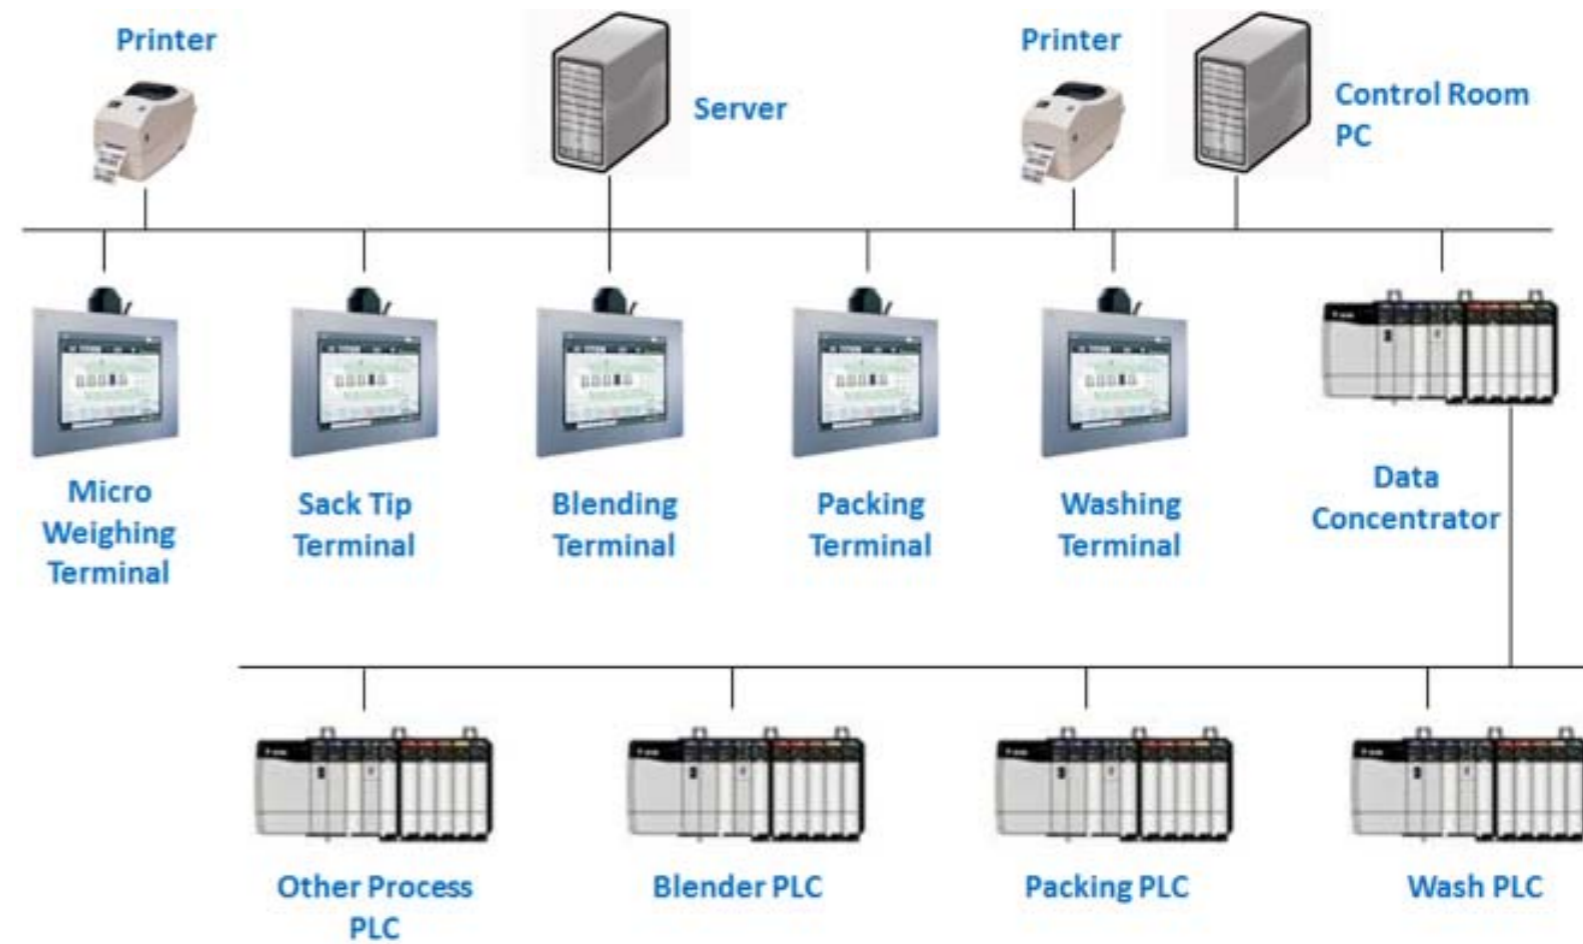

www.matconibc.com

Track-Record...

...A fully integrated IBC Tracking and Recipe Controls Solution which removes the risk of human error - always right first time.

The Goals of Lean Powder Processing

- Reduce the cost per kilogram manufactured
- Maximise plant flexibility - make to order
- Enable rapid product change-over
- Optimise flow manufacturing
- Reduce inventory – improve cash utilisation

Key Benefits

- ▶ Real-time traceability of all ingredients throughout the process
- ▶ Accuracy in stock - based on actual ingredient usages
- ▶ Step by step mapping and validation of the manufacturing process
- ▶ Deskilled operations - no human error - unique operator identification
- ▶ Consistency in product quality
- ▶ Right first time - every time
- ▶ Brand security - customer satisfaction
