## The Goals of Lean Powder Processing

- Reduce the cost per kilogram manufactured
- Maximise plant flexibility - make to order
- Enable rapid product change-over
- Optimise flow manufacturing
- Reduce inventory – improve cash utilisation

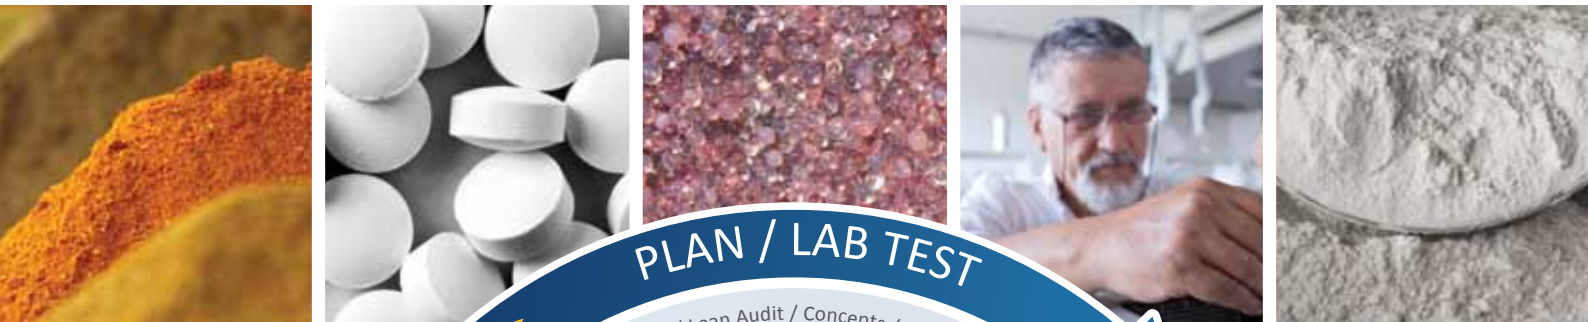

### Key Benefits

- ▶ System is always Blending - Filling, Emptying and Cleaning are Done Offline
- ▶ Instant Recipe Changes without Risk of Contamination
- ▶ Wide Range of Batch Sizes for Further Flexibility
- ▶ Intensifier Package expands Blending Capability including Liquid Addition
- ▶ Stand-alone / decoupled operation – maximum flexibility
- ▶ Modular solution – factory assembled – proven design – low risk
