## ENVIRONMENTALLY FRIENDLY PRODUCTS THAT WORK

The Capital Green range has been specifically designed to balance the needs of the modern cleaning industry with the ever-growing awareness of the need to limit the impact of cleaning procedures on our environment.

Each product has been carefully selected for its chemical constituents, biodegradability profile and speed of degradation. Every consideration has been made to reduce the effect of the cleaning process by using this range of products, whilst delivering effective cleaning action.

The range makes use of detergents and other base materials which are biodegradable to the latest EU standards. The products have been formulated without the use of chlorine and bleaching agents, phosphates, enzymes, caustic soda and petroleum solvents.

The products have been produced to a concentrated standard to maximise their dilution rate, thus eliminating wasted transportation costs and fuel. Where possible the products should be used in conjunction with a pelican pump to control dilution and to eliminate the over-use of product, which is one of the greatest costs to our environment.

In an industrial marketplace, where awareness to the environmental impact of a business is becoming ever more important, Capital Green can help to reduce the impact of the cleaning process.

CG01	Washroom Cleaner	2 x 5 ltr	A thick and fragrant, bactericidal cleaner descaler for all surfaces in the washroom.
CG02	Toilet Cleaner	12 x 1 ltr	A thick clinging, pleasantly fragranced, bactericidal liquid for cleaning and descaling toilets and urinals which is also safe on stainless steel.
CG03	Lotion Soap	2 x 5 ltr	A fragrant, mild, white pearlised liquid soap that creates a rich foam and gently cleanses the skin.
CG04	Floor Cleaner/Maintainer	2 x 5 ltr	A concentrated daily floor cleaner and maintainer for polished and unpolished hard floors which can be buffed to a shine or left to dry naturally.
CG05	Heavy Duty Cleaner	2 x 5 ltr	A versatile multi-surface citrus cleaner for smooth and textured surfaces, with ultimate performance in use.
CG06	Washing Up Liquid	2 x 5 ltr	
CG07	Washing Up Liquid	12 x 1 ltr	This mild and concentrated lemon washing up liquid quickly produces a long lasting foam that is free-rinsing.
CG08	Multi Surface Cleaner	2 x 5 ltr	
CG09	Multi Surface Cleaner	6 x 750 ml	A fresh fragranced multi-surface cleaner for daily use, leaving a satin finish on all surfaces.
CG10	Carpet Cleaner	2 x 5 ltr	A concentrated non foaming cleaner which is neutral, enzyme and phosphate free.

# The Capital Housekeeper Range

Our new extended range of HOUSEKEEPER products come highly recommended to meet all of your daily cleaning needs. The colour coding of labels provides a simple means of identification and most of the sprays can be filled directly from a five litre bottle to eliminate incorrect dilution.

LOOBRITE is a concentrated liquid lavatory cleaner which kills germs, removes limescale and organic deposits and leaves toilets, urinals and sanitary ware clean and fresh. Use neat to clean and descale toilets and urinals or dilute 1 part to 40 parts hand hot or cold water to clean hard surfaces.

1001 Loobrite 12 x 1 ltr 1002 Loobrite 2 x 5 ltr

FLOOR CLEANER is versatile and heavy duty, it is ideal for cleaning a wide range of floorings, safety floors, epoxy resin, concrete, quarry tiles and other alkali resistant surfaces. FLOOR CLEANER is suitable for use with mops, scrubber driers, hot water extraction machines and cylindrical brush machines. Ideal for use on textured, porous and anti-slip floors.

HK075 Floor Cleaner 2 x 5 ltr

SPRAY & WIPE is a bactericidal multi surface cleaner, it is safe to use on all washable surfaces. SPRAY & WIPE contains an effective bactericide and a fresh fragrance oil.

Spray on to the surface to be cleaned agitate and wipe or rinse away. For telephone sanitizing, spray on to paper or cloth and wipe over the equipment then wipe dry.

HK01750 Spray & Wipe 6 x 750 ml HK015 Spray & Wipe 2 x 5 ltr

BATHROOM CLEANER is a total washroom cleaner, which cleans and brightens, descales and disinfects creating a pleasant aroma in use.

Ideal for toilets, urinals, sinks, showers, tiles and all washroom fixtures and fittings. Apply BATHROOM CLEANER to the surface, agitate and rinse or wipe away for a sparkling, streak free finish.

HK02750 Bathroom Cleaner 6 x 750 ml HK025 Bathroom Cleaner 2 x 5 ltr

KITCHEN CLEANER is a bactericidal cleaner degreaser for use in kitchens, bakeries, restaurants and all food production areas. KITCHEN CLEANER cleans and kills in one operation and can be used on all hard surfaces. Simply spray KITCHEN CLEANER onto food preparation surfaces, table tops etc. and wipe away with a cloth or paper towel. KITCHEN CLEANER can be sprayed onto surfaces at the end of a shift.

HK03750 Kitchen Cleaner 6 x 750 ml HK035 Kitchen Cleaner 2 x 5 ltr

FURNITURE POLISH is a cleaner polish, which cleans furniture and fittings quickly and effortlessly. A strong cleaning action ensures this is the product of choice for professional cleaners.

Spray FURNITURE POLISH lightly onto the surface and polish out using a clean cloth. For difficult areas spray onto a cloth and wipe over the surface.

HK04750 Furniture Polish 6 x 750 ml HK045 Furniture Polish 2 x 5 ltr

GLASS CLEANER cleans windows, mirrors, VDU screens and keyboards. GLASS CLEANER cuts through dirt leaving a streak free and smear free, sparkling clean surface.

Spray onto the surface and wipe with absorbent paper or cloth. Alternatively wet paper, a cotton bud or other lint free material with GLASS CLEANER and clean the soiled area then wipe to a clean dry finish.

HK05750 Glass Cleaner 6 x 750 ml HK055 Glass Cleaner 2 x 5 ltr

AIR FRESHENER is safe to use and economical, it neutralizes bad odours and leaves a fresh and pleasant atmosphere.

Spray AIR FRESHENER into the corners of the room to freshen and condition the air. Spray AIR FRESHENER onto entrance matting to create a lasting impression when entering the building.

HK06750 Air Freshener 6 x 750 ml HK065 Air Freshener 2 x 5 ltr

STAINLESS STEEL POLISH is a cleaner polish designed for use on stainless steel and other bright metals. STAINLESS STEEL POLISH is a low odour and non tainting cleaner that effectively creates a high gloss finish. Remove gross contamination if necessary. Spray STAINLESS STEEL POLISH lightly onto the surface then wipe immediately with a lint free cloth or paper.

HK09750 Stainless Steel Polish 6 x 750 ml

Exclusive UK Distributor

**“In the fight against superbugs any product or process that encourages good hygiene practices has to be considered a benefit. Steri-Solv provides a safe and efficient way of cleaning and sanitising.”**

### BS EN 1276

BS EN 1276 is a test of chemical disinfectants and antiseptics. It is a quantitative suspension test for the evaluation of bactericidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic, and institutional areas.

The Steri-Solv range of products have all been tested and meet the strict BS EN 1276 requirements.

Steri-Solv Kills E Coli, MRSA, Pseudomonas Aeruginosa and Enterococcus Hirae.  
Steri-Solv has a powerful cleaning action against spore forming bacteria including Clostridium Difficile (c-diff).  
Steri-Solv kills all Gram Positive and Gram Negative bacteria.

7301	Steri-Solv Washroom Sanitiser	2 x 5 ltr
7302	Steri-Solv Multi Purpose Cleaner & Sanitiser	2 x 5 ltr
7303	Steri-Solv Odourless Sanitiser	2 x 5 ltr
7304	Steri-Solv Surface Cleaner & Sanitiser	6 x 750 ml

### Clostridium Difficile

Your body has lots of "good" and necessary bacteria. It also has some "bad" or dangerous bacteria. Clostridium Difficile is a "bad" bacteria. Fortunately, when you are healthy and not taking antibiotics, the millions of good bacteria in your system keep the c-diff under control and in smaller numbers. However, when you take an antibiotic, the levels of good bacteria are reduced down to a smaller number. If your c-diff is strong and doesn't get killed by the antibiotic along with the good bacteria, then it is possible that the c-diff will over populate inside your intestine or colon. When this happens, you may get the illness called Clostridium Difficile Colitis.

### MRSA

Staphylococcus aureus is a species of bacterium commonly found on the skin and/or in the noses of healthy people. Although it is usually harmless at these sites, it may occasionally get into the body (eg through breaks in the skin such as abrasions, cuts, wounds, surgical incisions or indwelling catheters) and cause infections. MRSA stands for Methicillin Resistant Staphylococcus Aureus, which is a type of Staphylococcus Aureus that is resistant to the antibacterial activity of Methicillin and other related antibiotics of the penicillin class.

## Ultra Blend 4

Clover Chemicals' ULTRABLEND 4 dilution system provides a hygienic, efficient and economical solution to modern cleaning needs. Suitable for installation in any location with a mains water supply of above 15psi, the system is ideal for use in a multitude of establishments. Select the required product by turning the dial before filling the chosen container with the ready-to-use solution.

- Quickens and simplifies the dilution process for cleaning operatives
- Minimises contact with chemicals, reducing health and safety risk
- Eliminates chance of product wastage, ensuring best value
- Reduces the amount of space needed for chemical storage and dilution control
- Guarantees the most effective cleaning results every time

## Ultra Dose

Clover Chemicals' Ultra Dose system is a safe, economical and effective cleaning system that is suitable for any kind of establishment. It does not require connection to the mains water supply, making it the perfect solution for any establishment where there is insufficient water pressure for a plumbed-in dilution system.

When assembled, the compact Ultra Dose unit holds up to four 2L bottles, each fitted with a dosing pump which accurately dispenses 10ml of product per dose. The required dosage rates for optimum performance of each product are displayed clearly on a colour-coded backboard. The products are dosed accordingly into trigger spray bottles or buckets via dosing pumps, before being diluted with water from the tap.

The Ultra Dose system is available in two sizes to comprise either two or four 2L bottles. Simply choose your own combination of products from the range of nine UB super-concentrates.

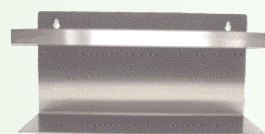

## Chemical Concentrates

**A range of concentrated chemicals giving maximum economy in use and reduced stock levels. Ideal for use through the Ultra Blend and Ultra Dose mixing stations for exact dilution rates and safety in use.**

0422	VIRO SOL Citrus Based Water Soluble Cleaner Degreaser Maximum Dilution 1:100	2 x 5 ltr

# The it Range

The new colour coded system for the easy training of cleaning staff

The IT range is so named because it has been designed to simplify the Information Transfer to users, making the training of staff significantly easier. The unique features of the range are its colour-coded products and clear, pictorial labels. Featuring five highly effective products that cover the cleaning of surfaces, floors and sanitary areas, the IT range is ideal for daily contract cleaning in offices, hotels, schools, leisure centres and many other establishments.

## Simplifies staff training

The training of cleaning staff is made significantly easier with the IT range, even where potential language barriers exist. Users can be taught to select the correct product for a particular task simply by looking at the product's colour: blue for interior cleaning, green for floors and red for sanitary areas. This colour-coding system is already well established in most European countries, and will therefore aid any non-English speakers with product selection. The surfaces that can be cleaned with the product and the method of application are also clearly shown on the label by recognised European pictograms.

## Improves standards of cleaning

The colour-coding and label design used in the IT range help to ensure that the products are used for their correct application, thus achieving optimum results. The colour-coding can also be extended to the equipment used to apply the products in each different area, therefore minimising the risk of cross-contamination.

## Simplifies stocking and reordering

A basic range of three or four products from the IT range is all that is needed for all-round effective daily cleaning. This eliminates the need to buy and stock numerous different types of product.

BLUE - Interiors			GREEN - Floors		
0440	Clean It	2 x 5 ltr	2318	Floor It	2 x 5 ltr
0441	Clean It	12 x 1 ltr		Neutral fragranced cleaner for daily use	
0442	Clean It	6 x 750 ml			
	Fragranced multi surface cleaner				
RED - Sanitary Areas					
1263	Scale It	2 x 5 ltr	1265	Freshn It	2 x 5 ltr
1264	Scale It	12 x 1 ltr		Neutral, perfumed cleaner and disinfectant	
	Acidic cleaner, descaler and disinfectant		1266	Sink It	6 x 750 ml
				Ready to use cleaner and disinfectant	

Pictograms show which surfaces product can be used on

Pictograms in bottom left corner indicate how to use the product

Blue product indicates it is to be used for interior cleaning

Blue band on label matches colour of product to represent interiors

PH scale shows the pH of the product when diluted  
1 - highly acidic  
7 - neutral  
14 - highly alkaline

Boxes on right hand side show how much product to dose into trigger spray bottles and buckets for dilution

## Guidelines for Washroom Maintenance

Initially, study all the areas to be cleaned: Toilets, Urinals, Washbasins, Floors, Walls, Tiles, Mirrors, Panels, Screens, Doors and Handles, observing the well-used sections. Pay particular attention to the direct areas surrounding toilets and urinals, especially the floors, as these are the source of bacteria and bad odours.

Capital recommends cleaning with a Concentrated Multi-Purpose Bactericidal Toilet cleaner/descaler, which will attack bacteria and bad odours at source. When diluted it can also be safely used as a daily cleaner on all surfaces found in washrooms, including chrome, stainless steel, porcelain and ceramics.

### Descaling – hard water areas

**Toilets and Urinals** should be descaled each week.

**To descale a toilet**, firstly remove all the water from the bowl by pushing down and up with a toilet brush/mop which forces the water out of the bowl. If water is left in the bowl it will weaken the cleaner/descaler product resulting in the probability of not removing the stubborn stains. Apply the neat cleaner/descaler around the rim at the water outlets and then around the bowl. Leave until the other washroom areas have been cleaned thoroughly with the diluted product, then return to the treated toilet and agitate with a toilet brush, especially on stubborn stains. Flush toilet and rinse toilet brush/mop.

**To descale urinals**, apply the cleaner/descaler to the surface working from side to side with a toilet brush/mop concentrating on stubborn stains. Leave to be rinsed by the automatic flushing system, while other areas of the washroom are being cleaned with the diluted product. Return to the urinal to give a final clean if necessary after flushing.

**On a daily basis** after cleaning the urinal and washroom with the diluted product, squirt a small amount of neat product into the urinal trap, this will help to keep the pipes free flowing and to eliminate the urine smell.

### Descaling – soft water areas

Follow the same procedure for hard water areas. For the daily maintenance of washrooms use the diluted product, but descaling needs only to be done approximately once a month, depending on how much use the area has.

### Daily cleaning

To maintain the cleanliness of the toilets, toilet fittings and other washroom surfaces, use the diluted product every day. It is important to use the correct colour coded cloths and mops for the different areas in the cleaning of the washroom. Especially the toilet seats, handles, doors and floors.

### Products

The product Capital recommends as a multi-purpose bactericidal washroom and toilet cleaner/descaler is **Bio Shield**. This product is new and very versatile and available in three different fragrances. The other products Capital recommend are **Loobrite**, a toilet cleaner/descaler for regular maintenance of toilet bowls and urinals and **Looscale**, a strong powerful descaler which is only for periodic use. Capital strongly suggests the use of colour-coded mops for the floors and colour-coded **Jiffy Cloths** for basin, tiles, toilet seats, handles, doors and hard surfaces.

## Toilet Cleaners and Descalers

1001	Loobrite	12 x 1ltr
1002	Loobrite	2 x 5 ltr
	Thick toilet and urinal cleaner and descaler

## YOUR WASHROOM HYGIENE TAKEN CARE OF

We provide washroom services in Kent, London, Surrey, East and West Sussex. Customers don't need to be tied into long term contracts. We have built and continue to grow our reputation through delivering a quality, dependable service allied to a competitive and stable pricing policy. All the waste that we collect is sent for incineration and not land fill. The incineration centre we use converts the energy created in the incineration process into electricity.

# The Clear Choice

## Intelligent washroom systems that reduce and control paper usage.

Suitable for a wide range of applications from low traffic areas in bars, factories and restaurants to high usage and sudden requirement facilities such as hospitals, theatres and sports stadiums. With the option of elbow operated and no touch auto cut dispensers where hygiene and reducing infection is paramount, enigma blue caters for them all.

### Enigma blue is the clear choice for clear savings.

#### The Perfect Solution

- ◆ Lockable & vandal proof
- ◆ Chemical & flame resistant
- ◆ Ensures all paper is used
- ◆ Reduces cross contamination
- ◆ Transparent & hygienic
- ◆ Reduces cost in use
- ◆ Environmentally friendly
- ◆ High capacity systems

#### Pacific

For no touch paper towel dispensing where hygiene is paramount look no further than the pacific.  
Code DISB08

#### Coreless

Holds 2 x 112m coreless toilet rolls equivalent to 8 conventional 200 sheet rolls. Complete use of first roll before accessing second roll.  
Code DISB13

#### Atlantic

This lever operated roll towel dispenser is designed for use with the elbow significantly reducing the dangers of cross contamination.  
Code DISB07

#### Carousel

Holds 4 x 80m micro toilet rolls equivalent to 12 conventional 200 sheet rolls. Eliminates paper wastage associated with throwing away part used rolls.  
Code DISB01

#### Multi-fold

This versatile hand towel dispenser is recommended for either multi-fold or interfold hand towels.  
Code DISB09

#### Micro Mini

Holds 2 x 125m micro toilet rolls equivalent to 10 conventional 200 sheet rolls. Continuous paper flow eliminates stub roll wastage.  
Code DISB14

# Guidelines for Floorcare and Maintenance

## Removing Emulsion Floor Dressing

CAPITAL RECOMMENDED PRODUCTS: ALKA STRIP, ZIP STRIP AND TROUBLE SHOOTER

Apply your chosen polish remover to the floor surface allowing it to remain on for 5 – 20 minutes, or until the polish has softened. Then scrub the floor thoroughly using a stripping pad. When the emulsion polish has been completely removed, pick up slurry with a wet vacuum or mopping equipment. Finally rinse the floor with clean water before applying the selected floor dressing.

CAPITAL recommends rinsing the floor surface to make sure all the slurry has been removed before applying the emulsion dressing.

When using automatic scrubbing machines, double scrub leaving the vacuum off on the first pass, then vacuum up the slurry on the second pass.

## Applying Emulsion Floor Dressing

CAPITAL RECOMMENDED PRODUCTS: SHINE, SHINE EXTRA, SHINE WET LOOK

Make sure the floor is thoroughly clean before applying the Emulsion Floor Dressing.

Apply with a flat mop or applicator evenly to the floor surface. Allow 20 minutes or more drying time before applying a second coat. A further coat may be needed on heavy traffic areas.

## Maintenance

CAPITAL RECOMMENDED PRODUCTS: BUFF AND SHINE, FLOOR MAINTAINER, P.D.Q.

Floor maintainers are recommended to be used for added protection to the Emulsion Floor Dressing.

Sweep floor areas first by using a dust control sweeper. Damp mop floor areas that require mopping with your chosen maintainer, which will leave the floor clean and protected. Buff the floor if you require a higher gloss finish using a high speed machine.

Spray buff or spray clean traffic areas with your maintainer and high speed machine which will repair the floor surfaces to a high gloss finish.

When floors require a cleaner and fresher appearance, scrub the floor with your maintainer by using a slow speed machine, pick up dirty solution with a wet pick-up machine or a mopping system. Then mop over a stronger solution of your maintainer. When dry, buff the floor with your high speed machine to achieve a new look glossy finish. It is recommended that automatic scrubber dryers combined with a maintainer are used for daily maintenance in the larger public sectors.

Make sure you have chosen the correct grade floor pad for buffing, spray buffing and spray cleaning, as you can damage the Emulsion Dressing, which is very costly in labour and product.

Providing the above system is adhered to, removing Emulsion Floor Dressing and reapplying, should be reduced considerably.

## Inspection

Regular inspection is necessary to ensure the floor is kept to a high standard. Get to know the problem areas; traffic lanes, doorways, lift entrances, street entrances and exits etc. These areas will need extra attention.

Training staff correctly on maintenance operations is very important. Also the right equipment must be available to do the job efficiently.

## Strippers

2401	Alka Strip	4 x 5 ltr					
2402	Zip Strip	2 x 5 ltr					
2404	Carefree Speed Strip	2 x 5 ltr

## Bonnet Mops

3759	15" Hard Floor Bonnet Mop	ONE
3760	17" Hard Floor Bonnet Mop	ONE
3761	15" Carpet Bonnet Mop	ONE
3762	17" Carpet Bonnet Mop	ONE

Bonnet mops are highly absorbent yet resilient. They can be used as part of a low cost but effective maintenance system. Bonnet mops can be used many times after rinsing or laundering.

3763	15" Microfibre Carpet Skimming Pad	ONE
3767	17" Microfibre Carpet Skimming Pad	ONE

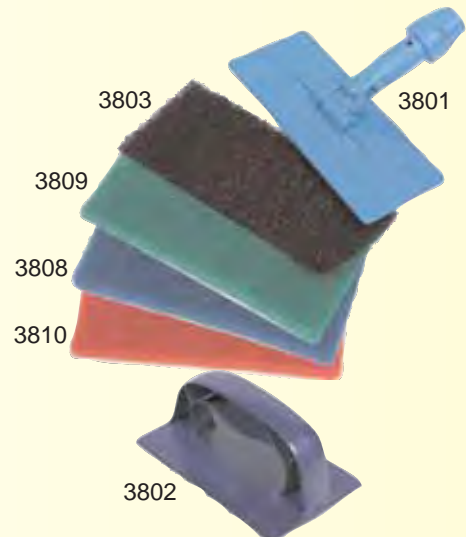

Made from Rayon/Polyester with abrasive scrubbing strips for an efficient cleaning action. To be used for the regular cleaning and maintenance of low to medium pile carpets.

## Edging Tools

3802	Hand Held Edging Tool	ONE
3801	Edging Tool	ONE
The above tool needs to be used with handle listed below		
2901	4" x 15/16" Handle	ONE
3803	Black Edging Tool Pad	ONE
3809	Green Edging Tool Pad	ONE
3808	Blue Edging Tool Pad	ONE
3810	Red Edging Tool Pad	ONE

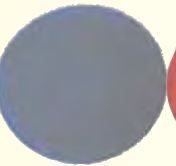

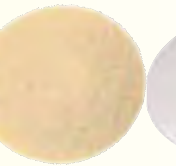

Choose the pad to suit your job, black being the most aggressive going down to green, then blue and finally red being the least aggressive and only for use when you have polish on the floor that you don't wish to remove.

## 3M™ Scotch-Brite Floor Pads

3M is the market leader in floor care products. The new thicker construction of the Scotch-Brite floor pad range is heavier yet flexible enough to conform better to floors, reducing vibration felt by the operator and improving cleaning results. They are highly clog and tear resistant and give the same cleaning action throughout their lifetime yet last longer than many competitive pads.

### STANDARD PADS

							
Size	Black	Brown	Green	Blue	Red	Tan	White
12 Inch	3M3701	3M3781	3M3711	3M3721	3M3731	3M3751	3M3791

# capital SUPPLY, MAINTAIN AND REPAIR

## ALL MAKES AND TYPES OF EQUIPMENT

For many years our engineers operated under the name *Invicta* SERVICES a name which has been synonymous with good service at competitive rates. Now under Capital our engineers are approved by Kent County Council and we are a recommended service agent by KCS to schools and other local authority establishments.

- ◆ **Portable Appliance Testing**  
We can test not just cleaning equipment but all electrical appliances.
- ◆ **Service Contracts**  
Annual contracts that work out at extremely good value and give total cover with agreed response times.
- ◆ **Extended Warranties**  
These can be for a period of two or three years, they cover all the normal parts covered by the manufacturer and we carry out any repairs needed.
- ◆ **VASO (Victor Approved Service Organisation)**  
Our engineers are especially trained in Victor equipment and even carry out under guarantee work on behalf of Victor.
- ◆ **Mobile Engineers**  
Mobile engineers who repair your equipment on site and aim where possible to complete the repair at the first visit.
- ◆ **Extensive Workshops**  
No job is too small or too big, we can handle even the most extensive of machine renovations.
- ◆ **Wide Manufacturer Approval**  
Approved suppliers and repairers of all the machines shown below and many more.

- Vacuum Cleaners ✓
- Carpet Shampooers ✓
- Wet/Dry Vacuums ✓
- Scrubbing Machines ✓
- Polishing Machines ✓
- Sweeping Machines ✓
- Scrubber Driers ✓
- Pressure Washers ✓
- Steam Cleaners ✓

# Truvox Commercial Cleaning Equipment

## Orbis - Single Disc Rotary Machines

- ◆ 200rpm, 400rpm or dual speed 43cm and 50cm models
- ◆ Compact 28cm model
- ◆ 1500rpm burnisher - mains or battery powered versions available
- ◆ All models are exceptionally easy to use
- ◆ Two year manufacturer's warranty

## Multiwash - Multipurpose Cleaning Machines

- ◆ All-in-one floor cleaning machines can wash, mop scrub and dry in a single pass
- ◆ Lifts dirt from virtually any floor surface
- ◆ Can be used on escalators, travelators and entrance matting
- ◆ Effectively cleans non-slip safety floors and grout line on tiled floors
- ◆ Available in 24cm, 34cm and 44cm cleaning widths

## Hydromist - Carpet Cleaning Machines

### Hydromist Compact

- ◆ Deep cleaning with built-in brushing action
- ◆ Reliable, single-nozzle spray cleans evenly leaving no streaks
- ◆ Large non-marking wheels for easy transportation
- ◆ Fold down handle for easy storage and transport

### Hydromist 10 & 20

- ◆ Powerful pump sprays solution deep into carpet pile – releasing more dirt
- ◆ Strong vacuum maximises solution recovery, minimising carpet drying time after cleaning
- ◆ Carpet and upholstery tools supplied as standard
- ◆ Ideal for cleaning carpets, upholstery, car interiors and other fabrics
- ◆ Compact size enables cleaning in confined areas
- ◆ Small size and cable storage means machine is easy to store
- ◆ 10 or 20 litre capacity version

## Valet Commercial - Upright Vacuum Cleaner

- ◆ Single motor gives the airflow required for commercial cleaning
- ◆ 30cm (12") cleaning path
- ◆ Metal brush roll for greater performance and durability
- ◆ 6000 rpm brush for effective carpet cleaning
- ◆ Cleans right up to the edge
- ◆ Lays completely flat - excellent for getting under beds and other furniture
- ◆ Handle mounted caddy holds crevice nozzle, upholstery tool and dusting brush

# SEBO COMMERCIAL VACUUMS - BUILT FOR PROFESSIONALS

The SEBO BS36/46 and the DART vacuum cleaners have been developed to give excellent performance, outstanding reliability and easy maintenance!

## BS36/46

### Quality Construction

SEBO BS36/46 vacuums are built to last using the best materials and design. Dependable and rugged machines, they are ideal for heavy duty use. With a choice of brush width they are perfect for all medium to large sized areas.

**Tough on dirt**  
**User friendly**  
**Service friendly**

**High filtration as standard**  
**Ultra clean**  
**Design quality**

## DART

### Fast, light and powerful

DART offers professional performance in a lightweight, versatile and easy to manoeuvre machine. The DART is designed to be agile, user friendly and to achieve superb cleaning results quickly, easily and economically.

**Easy and hygienic bag change**  
**"Flex" neck manoeuvrability**  
**Detachable suction unit**

**Quick release cable**  
**Advanced filtration**  
**Flat out working**

**OSPREYDEEPCLEAN™**  
STEAM CLEANING TECHNOLOGY

Dry steam generated under pressure to temperatures up to 180°C dissolves grease, kills germs in an instant and sanitises every surface it touches, penetrating cracks, crevices and other hard to reach areas where manual cleaning with potentially hazardous chemicals fails to achieve the required standards. OSPREYDEEPCLEAN supplies the most comprehensive range of steam cleaning machines in the world. Their Professional Range has been specially selected to meet the varied cleaning applications required by professionals, such as factory cleaning, washroom and commercial kitchen cleaning – in fact, unequalled thorough deep cleaning wherever and whenever it is required including chewing gum removal for local authorities.

**3968 Vega Plus**  
Compact, manoeuvrable, and very powerful, the Vega Plus has become the best seller of our range. The powerful vacuum cleaner and steam super-heated to 180°C and delivered at 8 bar pressure make this the ultimate super cleaner.

**3970 Revolution**  
Anywhere requiring efficient cleaning and sanitising the new Revolution is the answer to your cleaning problems.

**3967 Robby Pro**  
The new Robby Pro not only provides all the benefits of super-heated steam cleaning, but also features continuous fill operation, keeping down time to a minimum.

**3966 Steam & Vac Pro**  
**3969 Steam & Vac Trolley**  
The professional Steam & Vacuum model is the ultimate hygiene cleaning system for general housekeeping and is particularly suitable for allergy sufferers as the system is guaranteed to achieve 99.99% water filtration. (shown here with optional trolley)

**3971 Gummy**  
The Gummy uses the same gum busting chemical injection technology as bigger versions. Ideal for pubs, restaurants, hotels, cinemas, bus and train operators and anyone else dealing with large numbers of the public who are bound to leave chewing gum where it's not wanted.

**All machines are supplied with a full accessory kit and instructions for use. A selection of the most commonly used items are shown below.**

**ACCESSORIES**

- A00020 Stiff Chewing Gum Remover Brush
- A00006 Triangular Detail Cleaning Brush

	Miracle sponge cuts through grease, grime and hard-to-shift staining without the need for chemicals or heavy scouring	

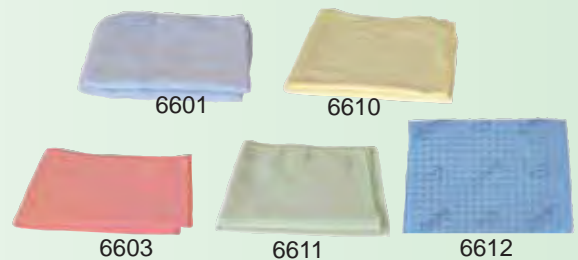

## Microfibre Cloths

Traditional cleaning cloths need the addition of chemical and water to work effectively. **Microfibre** offers a new solution to traditional cleaning. Thousands of tiny microscopic fibres actively lift up dirt and grime and keep it locked in the cloth until rinsed with water to release the dirt ensuring surfaces are ultra clean. **Microfibre** cloths are available in different weights and also as a glass cloth which leaves a clean, smear free finish.

6601	Contract GP Cloth	ONE

# Guidelines for Kitchen Maintenance

## Products

Initially study all the areas to be cleaned. Sinks, work-surfaces, chopping boards, appliances, floors, walls, tiles, doors and handles. Observing the well-used sections pay particular attention to the areas surrounding sinks and appliances, especially the floor and work-surfaces, as these are the source of grease build up and bacteria.

**Capital recommends** a combination of concentrated **odourless degreasing** and **bactericidal** products especially designed to counter the problems of maintaining a clean and germ free kitchen. This is achieved by employing a 2 stage system to first clean and degrease and secondly to sanitise.

**Capital recommends UBIK 2000**, for the first stage of the process. This product is safe to use as a de-greaser on all surfaces including stainless steel, ceramic and plastic when diluted correctly.

For the second stage of the process **Capital recommends TRIO 100** to sanitise your kitchen. **TRIO 100** can be diluted up to 100 to 1 whilst retaining the ability to kill bacteria such as Salmonella and Listeria.

If you do not have time for a two stage process of cleaning and sanitising **Capital recommends SOLABAC** which is a combined cleaner degreaser sanitiser. It is suitable for use as a stand alone product in a one stage process and is safe to use throughout the kitchen.

For specialist areas of cleaning such as deep fat fryers **Capital recommends DD10**, a water-soluble fat emulsifier. For ovens **Capital recommends VANQUISH** a heavy-duty caustic cleaner to shift the most stubborn burnt on deposits. To keep your kitchen appliances such as kettles and steamers in good working order **Capital recommends PHOS** an acid based food safe de-scaler specifically designed for de-scaling kitchen equipment.

## Surveys

We offer a completely free survey of your current cleaning procedures and your obligations as regards the current Health and Safety legislation. From this survey a report detailing all areas, highlighting any possible deficiencies that may be apparent, will be prepared. We can then prepare a cleaning schedule that thoroughly documents all your different areas.

## Schedules

The cleaning schedules that we provide have full H.S.E.A. approval and give a breakdown of all areas. The schedule lists each individual cleaning task for a given area, the frequency of cleaning required for each task, the product required to carry out each task and allows space for the designated member of staff to certify that they have carried out each task. See the example below.

ESTABLISHMENT AREA <b>EXAMPLE</b>		CLIP HERE		WEEK COMMENCING / /							
<b>KITCHEN</b>		<b>CLEANING SCHEDULE</b> DUE DILIGENCE IN FOOD HYGIENE		Templates TEL: FAX:							
AREA TO BE CLEANED	PRODUCT TO USE	HOW TO USE	CLEANING FREQUENCY	OPERATIVE'S SIGNATURE							
				M	T	W	T	F	S	S	
DISHWASHER LIQUID	RAP - IER	1. We recommend the use of RAPIER through a Closer Chemicals dosing system. Once the dilution rate has been set a consistent, high standard of cleanliness will be maintained. 2. Check the amount of RAPIER left in the container daily. 3. When there is approximately 50 mm left in the container replace with a new one. 4. When there is room in the new bottle carefully top up with the remaining RAPIER in the old bottle. 5. Wear rubber gloves and suitable eye protection, whenever handling RAPIER.	DAILY								
FLOOR TILES	UBIK 2000	1. Wear rubber gloves. Make up a solution of UBIK2000 (diluted 50ml per 5litres of water). 2. Mop floors thoroughly. 3. Scrub any badly soiled areas. 4. Rinse and leave air dry.	DAILY								
SOAP DISPENSER (TOP UP)	BIO-DOX	1. Check that the soap dispenser for bactericidal hand soap (BIO-DOX) contains the product. 2. Top up or replace the cartridges if low or empty.	DAILY								
TOASTERS	AX	1. AXcomes ready to use. Do not dilute. 2. Ensure the toaster is switched off and isolated. 3. Spray AXon to paper and clean the external surfaces (For sanitising leave 60 second contact time). 4. DO NOT SPRAY/DIRECTLY ON TO ELECTRICAL EQUIPMENT. 4. Wipe down surfaces with clean paper to give a smear free finish.	DAILY								
C/ST IRON GRIDDLES	UBIK 2000	1. Ensure all machinery is switched off and isolated. 2. Wear rubber gloves. Make up solution of UBIK2000 (diluted 100ml per 5litres of water). 3. Ensure that all surfaces are cool and apply the UBIK2000 solution using a cloth or scouring pad. 4. Agitate to remove heavy scaling. 5. Rinse thoroughly with warm water. 6. Remove excess water and allow to air dry.	DAILY								
C/ST IRON HOES	UBIK 2000	1. Ensure all machinery is switched off and isolated. 2. Wear rubber gloves. Make up solution of UBIK2000 (diluted 100ml per 5litres of water). 3. Ensure that all surfaces are cool and apply the UBIK2000 solution using a cloth or scouring pad. 4. Agitate to remove heavy scaling. 5. Rinse thoroughly with warm water. 6. Remove excess water and allow to air dry.	DAILY								
ENAMELLED HANDWASH SINKS	TRIO 100	1. Wear rubber gloves. Clean with a solution of TRIO100 (diluted 50ml per 5litres of water). 2. Clean basins, taps and sinks thoroughly. 3. Allow to soak for 5 minutes. 4. Rinse thoroughly with clean water and allow to air dry.	DAILY								
GLASS/PLASTIC FRIDGES (EXTERNAL)	TRIO 100	1. Wear rubber gloves. Prepare a solution of TRIO100 (dilute 50ml per 5litres of water). 2. Remove food debris from the fridge seals. 3. Wash down the seals thoroughly, paying special attention to all crevices. 4. Allow to soak for 5 minutes. 5. Rinse with clean water and dry with clean paper. 6. Wash down the outside of the fridge thoroughly. 7. All glass and perspex screens will need to be buffed to a smear free finish with clean	DAILY

## Sacks & Bin Liners

As members of the CHSA all our sacks are accredited under the CHSA refuse sack standard. Under the scheme sacks are manufactured within stated tolerances and performance criteria. Sacks can be graded on a simple scale, corresponding to drop weight tests.

Light Duty = 5 kg

Medium Duty = 10 kg

Heavy Duty = 15 kg

Extra Heavy Duty = 20 kg

All our sacks and bin liners are made from recycled materials.

### BLACK SACKS

4601	Light Duty 16" x 25" x 39"	5 x 100
4603	Light Duty 18" x 29" x 39"	1 x 200

**“In the fight against superbugs any product or process that encourages good hygiene practices has to be considered a benefit. Steri-Solv provides a safe and effecient way of cleaning and sanitising.”**

### BS EN 1276

BS EN 1276 is a test of chemical disinfectants and antiseptics. It is a quantitative suspension test for the evaluation of bactericidal activity of chemical disinfectants and antiseptics used in food, industrial, domestic, and institutional areas.

The Steri-Solv range of products have all been tested and meet the strict BS EN 1276 requirements.

Steri-Solv Kills E Coli, MRSA, Pseudomonas Aeruginosa and Enterococcus Hirae.  
Steri-Solv has a Powerful cleaning action against spore forming bacteria including Clostridium Difficile (c-diff).  
Steri-Solv kills all Gram Positive and Gram Negative bacteria.

7301	Steri-Solv Washroom Sanitiser	2 x 5 ltr
7302	Steri-Solv Multi Purpose Cleaner & Sanitiser	2 x 5 ltr
7303	Steri-Solv Odourless Sanitiser	2 x 5 ltr
7304	Steri-Solv Surface Cleaner & Sanitiser	6 x 750 ml

### Clostridium Difficile

Your body has lots of "good" and necessary bacteria. It also has some "bad" or dangerous bacteria. Clostridium Difficile is a "bad" bacteria. Fortunately, when you are healthy and not taking antibiotics, the millions of good bacteria in your system keep the c-diff under control and in smaller numbers. However, when you take an antibiotic, the levels of good bacteria are reduced down to a smaller number. If your c-diff is strong and doesn't get killed by the antibiotic along with the good bacteria, then it is possible that the c-diff will overpopulate inside your intestine or colon. When this happens, you may get the illness called Clostridium Difficile Colitis.

### MRSA

Staphylococcus Aureus is a species of bacterium commonly found on the skin and/or in the noses of healthy people. Although it is usually harmless at these sites, it may occasionally get into the body (eg through breaks in the skin such as abrasions, cuts, wounds, surgical incisions or indwelling catheters) and cause infections. MRSA stands for Methicillin Resistant Staphylococcus Aureus, which is a type of Staphylococcus Aureus that is resistant to the antibacterial activity of Methicillin and other related antibiotics of the Penicillin class.

## Window Cleaners Ladders

A superior range of top quality ladders designed for the professional window cleaner. Made from selected high grade timber or aluminium. All ladders are made with aluminium anti-slip serrated rungs for comfort, durability and lightness. Wooden ladders have steel tie rods at intervals and varnished sides. All extension ladders have roller bar fittings for safe and easy operation.

	Single Section	Aluminium	Wooden
	6ft	4921	4984
	8ft	4932	4985
	Twin Section		
	Closed 8ft, Open 14ft	49124	4986
	Closed 10ft, Open 18ft	4933	4987
	Closed 12ft, Open 22ft	4934	4988
	Closed 14ft, Open 26ft	49107	4989
	Closed 16ft, Open 29ft	49108	4990
	Closed 18ft, Open 32ft	49166	49111
49119	Ladder Clamp		1 x Pair

Moulded rubber pointed top is specially shaped to ensure location against ledges and corners, whilst eliminating surface damage. Traditional splayed back section counteracts pointed top of front section minimising risk of twisting. Rubber safety feet ensure maximum grip on wet or dry surfaces.

**For our full range of ladders call into our showroom**

## Pure Water Window Cleaning

- ♦ Ionic the original reach & wash system
- ♦ Safe high level window cleaning
- ♦ The future of window cleaning
- ♦ Ultra lightweight poles made from carbon fibre
- ♦ Ionic systems are Thatcham crash tested

### The Pro 6

- ♦ Fully welded non rusting stainless steel component chassis to FMVSS-208 crash test specification.
- ♦ Pro-3 carbon sediment filter and 3 stage colour change deionisers.
- ♦ Pro-5 five stage water treatment system including water softener.
- ♦ Honeycomb baffled holding tank.
