Locations**

Left breast- the most traditional decoration location, it is ideal for club crest or business logo.

Right breast- ideal as a secondary place for decoration, this is usually used for a sponsor logo or area for additional information.

Rear- Where a larger area is required for a more impacting message, the rear of the garment can be used. Be it across the shoulders or down near the hem, this is a great way to make a statement.

Right & Left sleeves- For small scale labeling, the sleeves offer an added opportunity to add branding to a garment. They also add a 3-dimensional message and ensure the message can be seen from the side as well as front-facing.
