

The perfect product

Being perfectionists from start to finish, our quality assurance is particularly strict.

Quality controls at each stage of manufacture are carefully monitored, as are our thorough final checks on every aspect of material stability and dimensional accuracy.

Produced on modern machinery and carefully scrutinised by the most sophisticated laboratory equipment and calibration facilities, every Piccadilly Precision product leaves us in mint condition.

Ready and waiting for a lifetime of accurate and efficient service.

Our experience in top quality gauges knows no limit

Piccadilly Precision Engineering Limited – a subsidiary of Spline Gauges Limited – has the science of gauging down to a fine art.

Years of single-minded dedication to quality and reliability in the field of precision gauging has put the company in a class of its own.

By making special use of advanced techniques and high technology, and utilising the finest expertise available, we have brought unsurpassable quality to a whole range of gauges and a whole new meaning to customisation.

Nothing is too much trouble for Piccadilly Precision.

No individual specification too difficult. So whether you are talking thread calliper gauges or advanced devices – such as our gauges for measuring pitch and root diameters of tri-lobular locking screws – you can be assured of the very best.

Made to measure
Thread Caliper Gauges are our speciality.

We also offer

- Plug and Ring Gauges
- Taper Screw Plug Ring Gauges
- Plain Plug and Ring Gauges
- Plain Adjustable Caliper Gauges
- Tri-roll Comparators
- Plate Gauges (Gap and Depth)
- Sub-Contract Thread Grinding
