

Your one stop solution for all your Control and Automation needs

Welcome to Sunbridge, your specialist supplier of industrial and electronic products. Sunbridge is a specialist division of Senate Electrical, part of the Rexel group, who are a world leader in the distribution of electrical products.

Since its formation in 1976, Sunbridge has achieved a first class reputation offering the highest levels of service and support as a leading supplier of Schneider Electric's Telemecanique range of automation and control products, complemented by other major suppliers in their field.

With over 5,000 lines in stock, Sunbridge is the total solution provider.

Products include

- PLC & Fieldbus systems
- HMI interfaces
- Control Gear
- Sensors
- Enclosures

Services include

- Project Planning
- Advice on system configuration
- Training in the use of the latest hardware and software
- Site visits from our technical support Engineers
- Keeping customers fully informed of the latest product offering

Whether you require spares or replacement products, or a complete automation solution, Sunbridge has a first class team offering the highest standards of service, fulfilling your requirements on time, every time.

Connect with the Best!

World leaders in industrial and commercial automation and prefabricated busbar

One of the worlds leaders in enclosure technology

World leader manufacturing fuse links protecting electrical & electronic circuits

Manufacturer of specialist multicore cables and power supplies

Flexible busbar system for the builders of switchboards and control panels

Manufacturer of Tri-Rated flexible cables

Manufacturers of panel transformers and pilot light indication

Specialists in cable termination technology

Panel instrumentation, control and emergency stop relays

Cable management products

Supplier of electronic timers, control and sensing relays and time switches

Suppliers of automation products incorporating Releco Relays & Bases

Manufacturers of fuse switches and wiring accessories

Leading suppliers of cable wiring accessories

Manufacturers of control and instrument switches

Safety and automation products

Heating, cooling, temperature and humidity control

Market leaders offering a comprehensive range of steel enclosures

Specialist in electrical distribution and circuit protection products

Control and instrument switches from the worldwide Kraus & Naimer organisation

Electrical & electronic connection systems for energy & control technology

Plug in relays

Clip on busbar system introducing a new concept to panel building

Manufacturers of flexible cables

Heavy duty limit and pressure switches

Electronic interface systems and components
