

## GigE Vision™ Camera Cables

**Alrad Imaging** offers cabling for the latest camera interface standard, GigE Vision™. The GigE Vision™ standard allows high bandwidth uncompressed image transfer in real time at a low cost. GigE Vision™ also offers easy integration without specialized interface hardware or complicated frame grabbers. Cables can be made in lengths as great as 100 meters without compromising the integrity. We can offer standard cables from 2 to 50 meters long. Robotic grade cables are also available at a slightly higher price. The cables are supplied through **Honda Connectors Ltd** and **Alrad Imaging** is their specialist Distributor in UK and Ireland.
