

# WESTSIDE SUPPLIES

Battery Contacts & Holders

# Battery Connectors & Holders

A range of holders, from manufacturers such as Ace Sound, Chitose and Ishikawa, for every battery size and popular configurations; all available with or without flying leads. Add to this, a vast selection of battery springs and dimples in tin plated steel or beryllium copper, as well as battery snaps & crocodile clips, and WSL offers an extensive collection. However, customised parts or individually designed and manufactured items, subject to minimum quantities, are also available to meet unusual needs.

# Custom Products

Westside Supplies Limited specialise in the custom design of all battery contacts and other items within the battery range.

Whether it be the 6xAA quick release battery clip used by the military to the 6xAA battery holder with header connector and charging socket (left), you can be assured of our knowledge and expertise in getting your new project off the ground.

Our design team can develop new parts quickly and efficiently, and we consider our customers to be partners in any such venture. Custom parts can often be developed in modest quantities, and we offer support whilst volumes ramp up over a period of time.

Our battery contacts can be supplied with a variety of finishes whether you require standard nickel plating or a gold plated finish.

for all your custom battery requirements.

**The WSL extensive product range includes:**

- Audio Connectors & Terminations
- Battery Connectors & Holders
- BNC Connectors
- DC Power Jacks
- DIN Connectors
- Equipment Feet
- Mains Cables & Connectors
- RF Connectors
- Screw Terminals
- Switches & Potentiometers
- Telephone & Communication Jacks
- Terminal Blocks
- Transistor Holders & Bushings
- Custom moulded leads & rewireable plugs/sockets (including BNC, D, DC & audio jacks, din, mini-din & phono types)

**We are also able to offer a custom design & specific sourcing service for all your connector requirements.**
