

How to select a mailbox

1. Where do you want your mailboxes to be sited?

- Internally
- Externally

2. How do you want the mailboxes to fitted?

- Wall mounted: relatively easy installation
- Wall recessed: will need installation
- Freestanding: can be used economically in new or retrospective mailbox fitting

3. What type of mailboxes do you require?

- Vertical (where space is limited in narrow walkways or by fire exits)
- Horizontal boxes ideal where a generally a greater number of mailboxes are required

4. How would you like to retrieve your mail?

- Mail delivered in the front and retrieved out of the front
- Mail delivered in the front and retrieved internally

5. What size of mail do you want the mailbox to handle A4 or A3, to what thickness and mailbox capacity?

6. How many mailboxes do you require and in which configuration?

7. How secure do you need your mailboxes to be?

- We supply domestic, commercial and high security boxes to suit all environments and locations

8. Specification

- We manufacture a range of budget, high specification and bespoke mailboxes to suit all customer requirements

9. Have you got any special requirements you like for your mailboxes?

- Colours, Finishes, Fire rated mailboxes, large capacity or bespoke designed mailboxes? (Ideal for premises that want to make a statement)
