

Mailbox Security

THE SAFETY
LETTERBOX
COMPANY LTD

- 1. CC Locks.** All standard mailboxes are supplied with a 19.5mm Long Disc Tumbler Camlock. Lock supplied under the CC Master Key Series with 2,000 Key combinations. Lock supplied with 2 x Neutral Steel Keys per lock. Compatible with a selected range of Cams to suit all mailboxes.

- 2. Hasp and Staple locking arrangement.** Which can be used with a conventional lock or combination lock.

- 3. Fitted Combination Lock Mailbox.** The code can be changed to suit the user's requirements. An ideal option where there's potentially a high turnover of users who use the box and the code needs to be changed accordingly.

- 4. Digital Locking Mailboxes.** Standalone battery operated digital locks provides the user with immediate and simple keypad access without the need for a key. Users have the flexibility to set and change their personal entry code whilst a pre-set master code ensures that supervisor access is always available at all times.

- 5. Electronic Mailbox Systems.** SALTO electronic locks are designed to provide a high level of security protection and control access to a wide range of mailboxes, lockers, cupboards, display cabinets, boxes, cases and more. The electronic lock offers the latest in state-of-the-art electronic access control technology. The SALTO electronic mailbox solution offers both feature an ergonomically designed twist operated locking handle makes for easy user, even with wet hands, and their durable wipe clean construction makes them highly resistant to chemicals; UV radiation and physical wear and tear ensuring a long lasting, smart appearance. On both models the battery pack, electronic components and locking mechanism are all located on the inside of the door, safe from potential vandalism or sabotage.
