

About us

With over 100 years experience Johnson Tiles has a long history of market leadership. With a dedicated in-house design team and UK based production facilities, Johnson Tiles continues to deliver distinctive new products servicing both the contract and retail markets internationally, all of which is underpinned by our award winning quality and environmental systems. Within the contract market, our experience, service and product range covers all aspects of public and private specifications, from architects and designers through house builders, contractors and distributors. Our tiles have been used on both small and large contracts for housing projects, schools, universities, hotels, hospitals, industrial developments and the leisure industry. Within the retail market we design and manufacture products for both independent and multiple retailers. We offer the widest choice of 'on trend' products, backed up by industry leading logistics and service.

About our quality standards

Johnson Tiles manufactures tiles to strict levels of quality, all of which to comply with the requirements of the appropriate British Standard, and European Norms for ceramic wall and floor tiles.

Strict quality control is an essential aspect of tile manufacture, our systems and procedures have been recognised by the British Standards Institution through its our achievement of EN ISO 9001 Registered Firm Status.

Our award winning environmental management system has been recognised by the British Standards Institution and the award of ISO 14001 in 1998.

About our Accreditations

Company Accreditations

At Johnson Tiles we actively pursue a policy of technical, environmental and design achievements for both products and processes. These policies have gained us worldwide recognition, with our main accreditation awards being:

BSI Kitemark Licence No.7325.

We were the first ceramic tile manufacturers to receive the Kitemark award.

EN ISO9001 Registered Firm Status Registration FM 26818

Our quality systems and procedures have been recognised by the assessment body BSI.

EN ISO 14001 Registration EMS 40817

Our environmental management system has been recognised by the assessment body BSI.

Investors in People

Johnson Tiles achieved the criteria for the award during 1999 and has retained it ever since. This follows a policy of continuous improvement for its employees through training and personal development programmes. All the above accreditation awards are subject to regular re-assessment by their awarding bodies.

All our tiles are manufactured to strict levels of quality.

About us

We have also received other industry and international awards for our achievements in several commercial areas.

The Queen's Award for Environmental Achievement.

This was awarded in 1997 and recognises our ceramic waste recycling scheme which prevents over 20,000 tonnes of ceramic waste being tipped in local landfill every year. The scheme involves 14 other local factories.

Manufacturing Industry Achievement Award. Environmentalist of the Year 1997.

This award recognises our waste recovery scheme.

ebeafi '98

European special commendation for our waste recovery programme 1998.
