

Sample service

www.johnson-tiles.com

Johnson Tiles have a wide-ranging set of sample wallets, hand boards and other support materials available to architects, designers and specifiers. Most of our ranges are available as 10cm x 10cm samples for use on mood boards or colour / texture assessment*. Full size samples are available but please contact the office to arrange delivery.

Our literature includes all the information required for detailed specifications such as technical conformance charts, slip resistance values, in addition to comprehensive and detailed colour notation and Light Reflectance referencing.

For specific hand boards or sample wallets please call us on **01782 524043** or email: samples@johnson-tiles.com

*Bespoke ranges such as Artile are not available due to their made to order status.

We have a wide range of sample wallets and other support material available for architects and specifiers.

Design services

Design and product development is at the heart of Johnson Tiles; our in house design and development team travels the world seeking out new trends and materials. Our knowledge and expertise is enhanced further by our intimate connection with Material Lab, a world leading materials resource centre based in London was established by Johnson Tiles to advise and inspire professionals and consumers on current interior trends.

Johnson Tiles in house design are available to offer advice on design schemes, layouts and bespoke installations all of which is accompanied by a free of charge CAD and visualisation service for all commercial projects. We use the latest Autocad software which is compatible with most CAD systems via .DWG or .DXF file formats.

To find out more please call **0845 2 10 3000** or email designservices@johnson-tiles.com

All designs created in house are Johnson Tiles copyright however designs created using clients drawings only the tiles design elements would create any design right for Johnson Tiles but not full copyright.
