

Featherboard Gates: Standard,

Featherboard gates are 1m wide, Jakcured softwood sawn finish, constructed with galvanized bolts and stainless steel nails. Right hand hanging as standard. (left hand hanging also available). Wider gates are available as a special order. Also available as pairs, please ask for price and details. Please note that pairs of convex or concave garden gates will have one curve as standard, this applies to most garden gates not just featherboard. Key locks are available for featherboard gates.

Posts for hanging garden gates (see pages 40 & 41)

Our gate posts, like all Jacksons panels and traditional fencing systems, are supplied in natural Jakcured finish and are guaranteed against rot and insect attack for 25 years.

For example for hanging a 1.75m high gate you would need a pair of standard square profile posts, Ref 641500 2.4m long - size 100 x 100mm nominal.

However, if you are using these gates within a run of fence panels, fencing system or at the end of a run, then use slotted end posts.

The rise and fall on convex and concave Featherboard gates is 75mm. The gate height stated is the maximum height of the gate.

Featherboard Gates (level top)

Gate Height*	To suit fence height	Gate Width	Ref
1.78m	1.8m	0.9m	231900 ●

* Convex and Concave gates do not have capping
 The drop on a convex gates is 75mm. The gate height stated is the maximum height of the gate.

Gate fittings

The gates fittings include ring latch, adjustable hook and band hinge. Fittings are heavily galvanized steel. Key locks are available - please ask.

Posts for hanging garden gates (see pages 40 & 41)

Please note: Some timber products will take a while to dry out after the Jakcure process and natural shrinkage can occur. To prevent unstained timber becoming visible, we recommend not staining products until they have had a prolonged period of dry weather to fully dry out.
