“ABL Circuits have the best lead times in the UK”

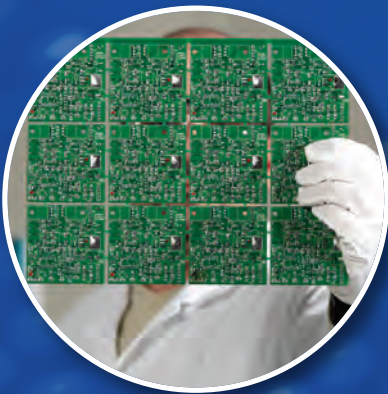

5 Reasons why you will benefit from being a customer of ABL Circuits:

1 You will benefit from the **fastest leadtimes** in the UK. Your PCB's will be delivered within 5 working days as standard.

2 You could also benefit from our **exceptional 8 hour same day express service** for your urgent prototypes.

3 Your order will be dealt with promptly by a friendly and conscientious team, **committed** to providing a high level of service.

4 The **knowledge** gained from 30 years of **experience** eliminates your risk in dealing with ABL Circuits.

5 Your deadlines are critical to you and us, that's why we **guarantee** you will receive your boards on time, every time in **perfect** condition.

“They always deliver on time, they have never let us down”

Products:

CAD PCB Design

Our in house design bureau can take your circuit diagrams and specifications and create professional finished products to fulfil your requirements. These are designed with the experience of manufacturing PCBs to ensure a reliable and workable product.

PCB Prototypes

ABL Circuits have developed an excellent reputation as being one of the quickest manufacturers in the country. The production facility is so efficient that we regularly produce **prototype printed circuit boards within 8 hours** from receipt of the data. If you need an urgent prototype, simply call us and you will be impressed at our same day PCB service!

Single sided and plated through PCBs

These are manufactured with some of the best lead times in the industry with a **guaranteed 5 day service as standard**. Our state of the art process ensure complete consistency and quality.

Multi-layered PCBs

An excellent service with lead times within 2-15 days. All multilayer boards are fully electronically bare board tested to ensure you receive perfect working boards every time.

Your circuit boards will be produced to exacting ISO9001-2008 standards, inspected at every stage, so that you can be confident of the quality you will receive. Available in a variety of resist colours and surface finishes, hot air levelled, gold or silver.

Your finished circuit boards will be supplied to you either as singles; left in a panel with pips; or in a scored panel; whichever you prefer.

PCB assembly service

An excellent service developed due to customer demand. More and more board customers are now asking us for fully assembled printed circuit boards delivered to their door. This takes away all the time consuming stress of component procurement and assembly for our clients.

Our guarantee to you...

At ABL Circuits Ltd we want you to be **100% delighted** with the quality of your printed circuit boards and the speed and reliability of service you receive from us.

That's why we **GUARANTEE** you the following:

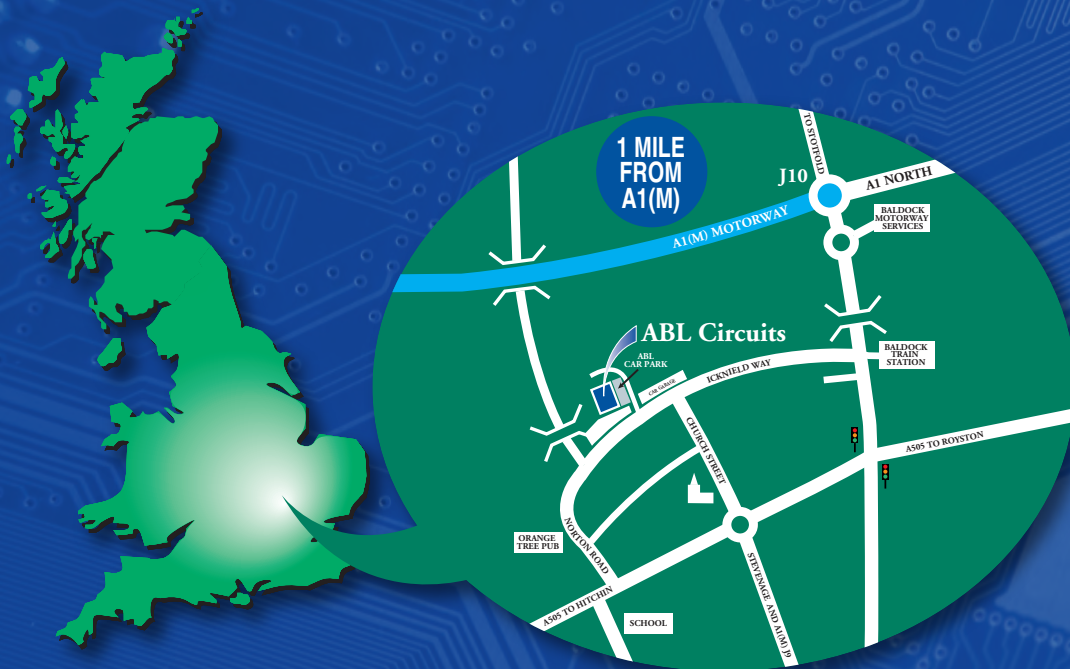

- Your single sided or plated through circuit boards can be produced within 5 working days from receipt of your data as standard with no premium.
- If you require your boards faster we can provide you with an 8 hour turnaround service.
- Your boards are inspected at 7 separate stages to ensure a perfect final product.

Your boards can be electronically bare board tested to **GUARANTEE** no shorts or opens, ensuring you will get no assembly or test problems.

All of this means you will have the confidence and peace of mind knowing your boards will match your specification and you will receive your boards on time, every time... **GUARANTEED**

What's more...

With our ISO 9001-2008 accreditation you can be totally confident that we have been fully assessed and are committed to providing you with the highest levels in manufacturing and production of printed circuit boards.

“Quality circuit boards, manufactured with excellence, delivered on time every time so you achieve your deadlines ... guaranteed”
