

Wishing all of our customers a Merry Christmas,

Here at Hydromar we've had a fantastic year, we've seen significant growth and lots of new customers. We've also increased the size of our team and our operating hours to keep up with customer demand.

All of this resulted in recently being awarded the Chamber of Commerce's Small Business of the Year Award.

I'm writing to you to let you know that we will be closed down over Christmas from *Friday 21st December* through to *Wednesday 2nd January* (inclusive). We are expecting to have a very busy start to the new year, with several new contracts starting, and as such we are trying to push through as much work as possible before Christmas. To this end we are offering **5% discount** on any jobs quoted and ordered\* between now and Christmas. Why leave it until the New Year? With our short lead times it could still be with you before Christmas or if required shipped to be with you in the New Year.

Earlier this month we delivered on a job for a fabrication company, they required 25mm mild steel balustrade profiles. Lead time was critical for the customer, and we ended up cutting around 785 metres, 184 hours of cutting in just 6 days!
