

Flowseal EPW

Description

Coloured gloss finish water based hygienic floorseal.

Uses

Flowseal EPW is suitable for use in food process areas, kitchens, light industrial areas, storerooms, garages and areas of pedestrian and light traffic.

Benefits

- ☐ Hygienic
- ☐ Vapour permeable allows floors to breath
- ☐ Can be applied to damp substrates
- ☐ Cost effective ☐

Easy to apply

- ☐ Enhances appearance of working environment
- □ Solvent free □

Low odour.

Model Specification

Product: Flowseal EPW

Finish: Gloss

Thickness: 0.12 mm dry film thickness

Colour

Preparatory work and application in accordance with suppliers

instructions.

Supplier: Flowstone

Industrial Flooring Telephone: Customer Service - +44 (0) 1978 790186

Substrate Requirements

Concrete or screed substrate should be a minimum of 25N/mm, free from laitance, dust and other contamination. The substrate should be surface dry to 95% RH as per BS8204 and free from rising damp and ground water pressure.

Products Included in this System

Flowseal EPW (density = 1.3 kg/l)

1 coat: Flowseal EPW 0.15 kg/m * Typical values 2 coat: Flowseal EPW 0.1 kg/m

*Application and coverage rates are assisted by addition of water:

- □ 20% water by weight of the unit (A+B) **must** be added to the mixed product for first coats and priming.
- □ 10% water by weight of the unit (A+B) **must** be added to the mixed product for subsequent coats.

Note: Once diluted, do not add further quantities of water.

Detailed application instructions are available upon request.

Installation Service

The installation should be carried out by Flowstone. Complies with BS 8204-6/ FeRFA type 1.

Obtain details of our approved contractors by contacting our customer service team or enquiring via our web site www.Flowstone.co.uk.

Environmental Considerations

The finished system is assessed as non-hazardous to health and the environment. The long service life and seamless surface reduce the need for repairs, maintenance and cleaning. Environmental and health considerations are controlled during manufacture and application of the products by Flowstone staff and fully trained and experienced contractors.

Focus on the Floorzone

Flowstone are market leaders in specialist industrial and commercial flooring. Systems available include: underfloor heating systems, floor screeds, surface damp proof membranes, decorative floor finishes, seamless terrazzo, car park deck waterproofing, tank lining systems... to name just a few.

Our objective is to satisfy your Floorzone needs.

Technical Information

The figures that follow are typical properties achieved in laboratory tests at 20°C and at 50% Relative Humidity.

Fire Resistance BS 476:Part 7

Class 1 Surface spread of flame.

Slip Resistance low slip potential (in accordance with HSE and UKSRG Method described in BS 7976-2

(typical values for 4-S rubber slider) auidelines)

The slipperiness of flooring materials can change significantly, due to the installation process, after short periods of use, due to inappropriate maintenance, longer-term wear and/ or surface contaminants (wet or dry).

Textured systems are recommended to meet slip resistance value requirements for wet conditions and/ or surface contaminants (wet or dry) - please contact our Technical Advisors for further details and specifications.

Temperature Resistance Tolerant up to 70°C ASTM:E96:90 -Vapour Permeability

20g / m₂ / mm / 24 hr

182 secs. Koenia Hardness Test Surface Hardness Contact Technical Department Chemical Resistance

Taber Abrader: Abrasion Resistance

15 mg loss per 1000 cycles (1kg load using CS17 wheels) BS 8204: Part 2 Class AR3

Greater than cohesive strength of **Bond Strength**

25N/mm₂ concrete. >1.5 MPa.

Speed of Cure

	10°C	20°C	30°C
Light traffic	24 hrs	12 hrs	8hrs
Full traffic	36 hrs	24 hrs	16 hrs
Full chemical cure	14 days	7 days	5 days

Low relative humidity and good ventilation are pre-requisites to achieving the above drying times.

Aftercare - Cleaning and Maintenance

Clean regularly using a single or double headed rotary scrubber drier in conjunction with a mildly alkaline detergent.

Important Note

Flowstone's products are guaranteed against defective materials and manufacture and are sold subject to its standard Terms and Conditions of Sale, copies of which can be obtained on request.

Further Information
