

FOR EXPERTISE IN SOLID AND CELLULAR RUBBER TECHNOLOGY

TOGETHER WE CAN COMBINE OUR EXPERTISE IN RUBBER TECHNOLOGY AND MOULD MAKING TO SOLVE ALL OF YOUR DEVELOPMENT AND PRODUCTION REQUIREMENTS.

RUBBER TO METAL BONDED PRODUCTS

We specialize in rubber-to-metal bonded products for seals, anti-vibration, suspension and expansion joints. We can bond sponge and solid rubbers to a variety of metals and some plastics, together with the production of tooling and inserts for the process. We have an in-house tooling facility for prototypes and extensive de-greasing and spraying facilities on both sites.
