

brume

window film

Brume has specialised in designing and manufacturing decorative window film since 2001.

With our background in interior styling and product development, we are committed to bringing you stylish designs and great quality window film. We supply homes all over the UK and work on projects with architects, specifiers and interior designers.

Our high quality made to measure decorative film is the modern alternative to net curtains and will give you privacy and security while maintaining a natural light level. Guaranteed for at least 5 years, our film won't shrink or discolour.

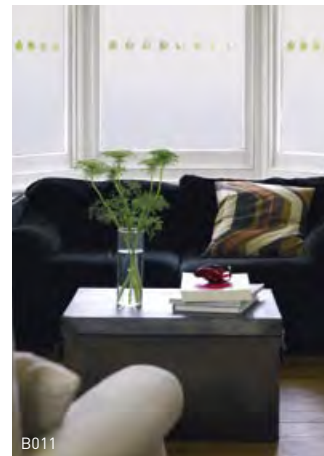

We tailor every design to suit your windows - just measure up and we supply your film ready to apply. By following our easy instructions you can achieve a professional result and really enhance your property both inside and out.

We also have a selection of plain and decorative window films that you can buy by the metre and trim yourself. See pages 16-21.

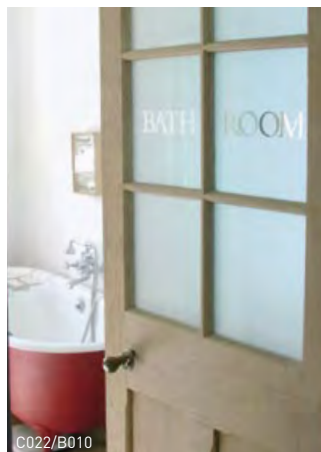

If you need advice on your project or a quotation, our friendly team are on hand to advise you weekdays from 9am - 5pm on 01364 73090 or you can order online at www.brume.co.uk

Brume window film applied to the inside of your windows gives the appearance of acid-etched glass at a fraction of the price. The decorative cut-outs allow you to peek out, but no one can see through the solid etched glass film.

B010

By following our instructions you will find the film easy to fit. We make the film precisely to your measurements (to the nearest millimetre) so no trimming is necessary.

We also supply plain film cut to your specifications. It's perfect for bathrooms and internal doors where privacy is essential.

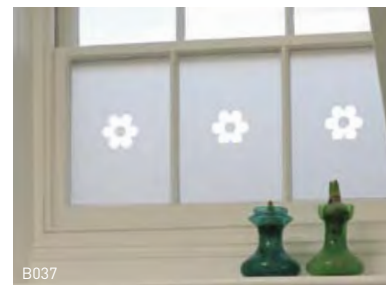

For film by the metre please see page 16.

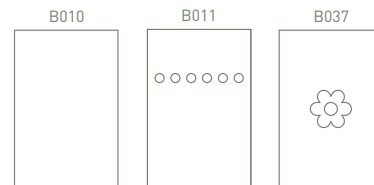

B011

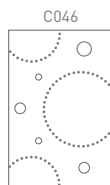

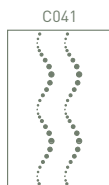

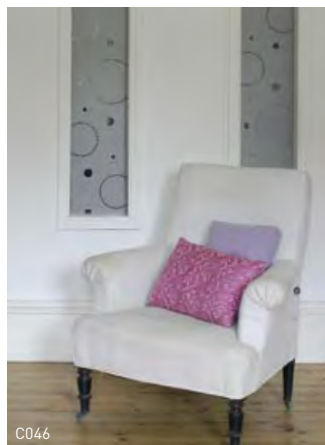

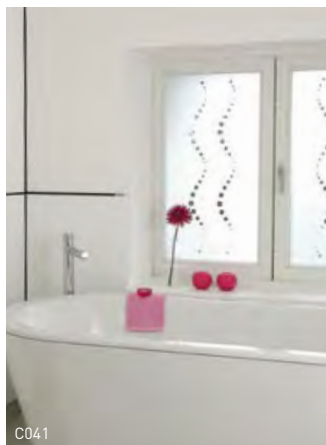

B010

B037

You can fit Brume to any flat glass surface. It's great for street facing windows, glass door panels, bathroom and kitchen windows and glass cupboard doors.

B010

Brume makes you feel more secure because it acts like laminated glass, making it more difficult to smash, and also obscures any valuables from prying eyes.

The film is easy to clean and all our designs look good in either kitchens or bathrooms. Brume is not effected by condensation. We do not advise the use of window film in areas that are constantly splashed with soapy water or grease, such as the inside of a shower door or behind a hob.

B012

C052

B059

C046

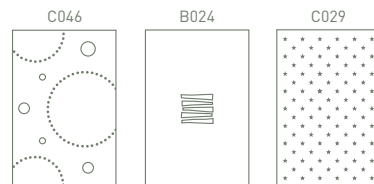

Glass cupboards can look stunning but we don't always want all our clutter on show. Brume window film provides a stylish cover-up.

C024

C029

Glass door panels allow light into dark hallways.
Retain some privacy without reducing the daylight by using Brume film.

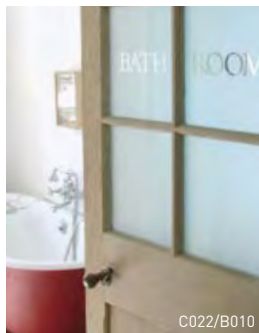

For larger doors, film can also reduce the risk of breaking glass because the panel is more visible.

You can also have lettering cut into Brume film. Choose a classic (C022) or contemporary (C023) typeface. Please specify your words in a diagram indicating upper and/or lowercase, the approximate size and position of your lettering. Also tell us if the lettering is to be read from the inside or the outside by ticking the relevant box on the order form.

How to order made to measure window film

- Each film is cut precisely to your measurements.
- By following the instructions, the film is easy to apply.

DESIGN POSITION

- With the exception of our overall patterns, all designs come in a choice of 4 positions: Border (A), third down (B), central (C) and vertical (V). Choose the height best suited to your eye level.
- Overall designs have tiny cut-outs and you will have to get very close to the glass to see in or out.

HOW TO ORDER

- Number every window.
- Use a metal measuring tape. Windows that look the same are often different sizes, so measure each window separately to the nearest mm.
- Fill in order form and post or fax to Brume. You can also order online.
- You can pay by credit card or cheque made payable to Brume.
- We accept Maestro, Visa and Mastercard.
- Your film will be despatched within 5 working days.
- On receiving your film please check all measurements and fit the film as soon possible.
- Mistakes cannot be rectified once the film has

been applied.

- The film can be easily removed but not reused.

HOW MUCH WILL IT COST?

- Round your measurements up or down to the nearest 10cm.
- Go to the relevant price grid to confirm the cost (B010 is Price List B, CO44 is Price List C)
e.g.B011 x 59.8cm x 33.2cm = £24.00

Q&A

Q. What kind of window is it suitable for?

A. Any window, providing it is glass, not perspex, and the surface is clean and smooth.

Q. Can I see out?

A. You can only see through the cut out areas so consider your choice of position.

Q. How easy is it to fit?

A. Follow the simple instructions and it's easy. Brume make the film to your measurements, it will fit perfectly with no trimming necessary. Brume Basics requires very basic DIY skills as you cut the film to size yourself. Thereafter the Brume Basics film is fitted by following the simple instructions.

Q. Is it easy to clean?

A. Yes, just use a damp, lint free cloth, avoiding any abrasive materials.

Q. Is it suitable for bathrooms?

A. You can use the film in a bathroom, but not where the film will come into direct contact with water, such as the inside of a shower door. Condensation is not a problem.

Q. Is it easy to remove once fitted?

A. The film can be removed by following simple instructions.

Q. How long will it take for my order to arrive?

A. *Made to measure* orders will be dispatched within 5 days after we receive payment. Your goods will need to be signed for so please make sure you give us a delivery address where someone will be in, or you may need to collect from your local postal depot.

If you need your order in a hurry please call us and we will do our best to get your order delivered sooner.

Window film by the metre orders are dispatched within one working day on receipt of payment.
