Style to make you smile

Create a GOOD MOOD HOME with these stylish stickers.

Some people might think that stickers are just for children and the young at heart, but here is a collection that can be serious and practical, stylish and stunning. They are a great alternative to wallpaper and much easier to apply. Brume stickers can be applied to any flat stable surface - walls, furniture, washing machines, fridges, lap tops etc. If and when you start to tire of them they can be peeled off with no damage to the material they were applied to.
