We are your portal to sheet and roll media, offering many years of knowledge and experience helping our customers to deliver their projects at the best quality and on time.

Alongside our huge stocks and conversion department based in our London distribution centre, we can take your order to the next stage with our in-house trade fabrication service.

Established in 1992, we have expanded organically and now offer a market leading range of products from some of the best known names in the industry for example Perspex, Foamalite, Brett Martin, Ilford and Arla.

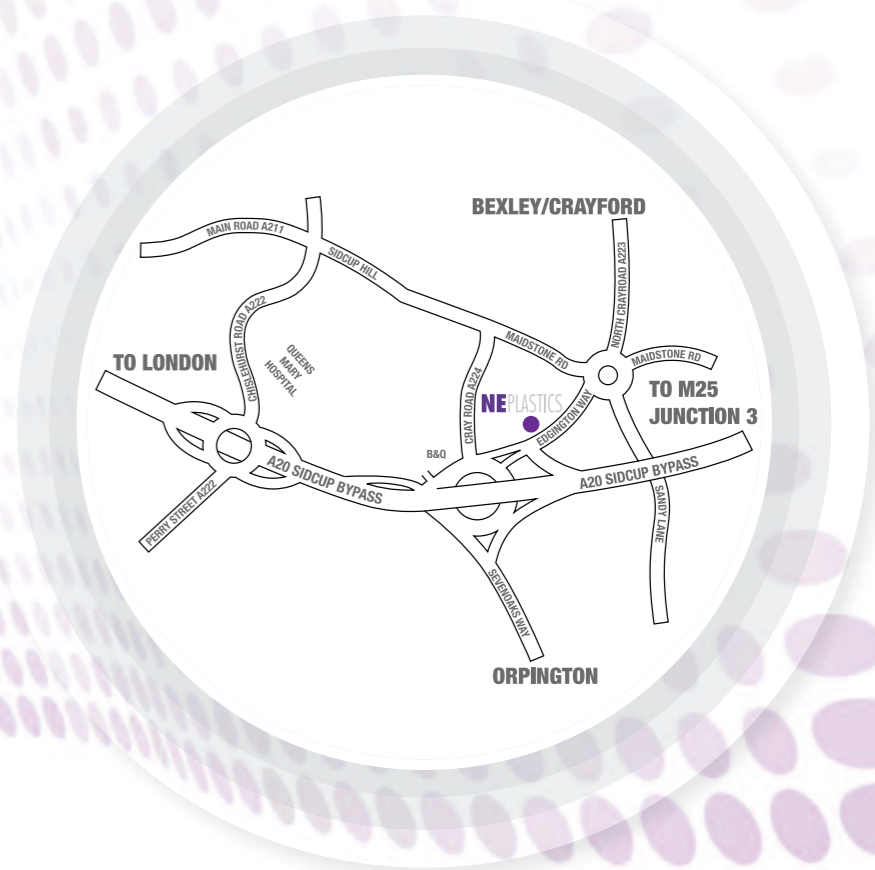

Our fabrication division can produce anything from CNC cut to shape, polishing and drilling to line bending and bonding, assisting you to undertake any project from a simple display case to complex retail displays. Our sign-making customers also benefit from our sign tray and frame service, illuminated if required.

We look forward to hearing from you soon, when you might be looking for that little bit more from your plastic supplier.

OUR PARTNERS

We stock a competitive range of sheet plastics and composites for the sign industry including many brand leaders

Our warehouse facility and conversion plant in South East London is fully stocked with the products you need.

In addition, we hold a vast range of complimentary products and accessories, including stand-offs, bubble wrap, Velcro and LED's

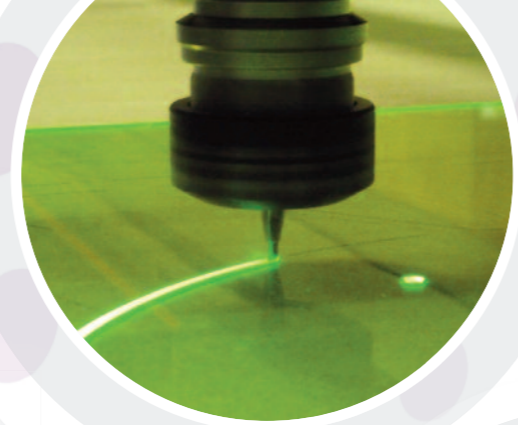

Our range of sheet and roll products for the digital printer is constantly growing. Our key suppliers include Foamalite and Ilford as well as many other trusted names.

Our sign tray and frame department can offer anything from a conventional aluminium frame with hung Perspex panels, to a tray with push through letters and internal illumination with LED's

Our fabrication department can offer you all the extra elements you require from radius corners, drilling & line bending to display cases, gluing and UV bonding

Using our state of the art CNC machinery, we can offer a full "cut to shape" service along with "V" grooves and CAD when required

Our diamond polishing plant doesn't come any better giving you that finishing touch for display panels, POS products and office art

Our products are used in all types of signage by all types of companies, from large corporates to SMEs

Our digital print customers, whether they print on roll media or flat bed direct to media, say that our products help them to achieve the results they're after

Our products can be used in the photo and print mounting businesses, from a site hoarding to a desk top photo frame

In our unique position of holding stock and providing fabrication all under one roof, we can almost always offer what you need when you need it, and we are ready to assist with those last minute orders when the show is tomorrow
