Quality Healthcare Products

EURONDA®

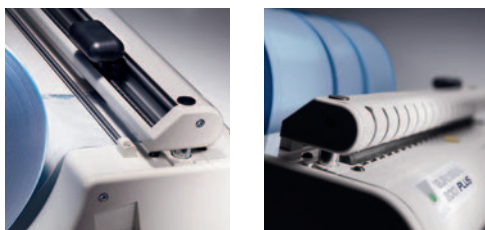

1

The Euroseal® 2001 Plus features a preset sealing cycle with an audible signal to ensure a uniform seal from the first pack to the last. The sealing lever is conveniently positioned at the front of the machine for ease of use and to reduce the dimensions of the unit so it will fit easily into any surgery environment.

2

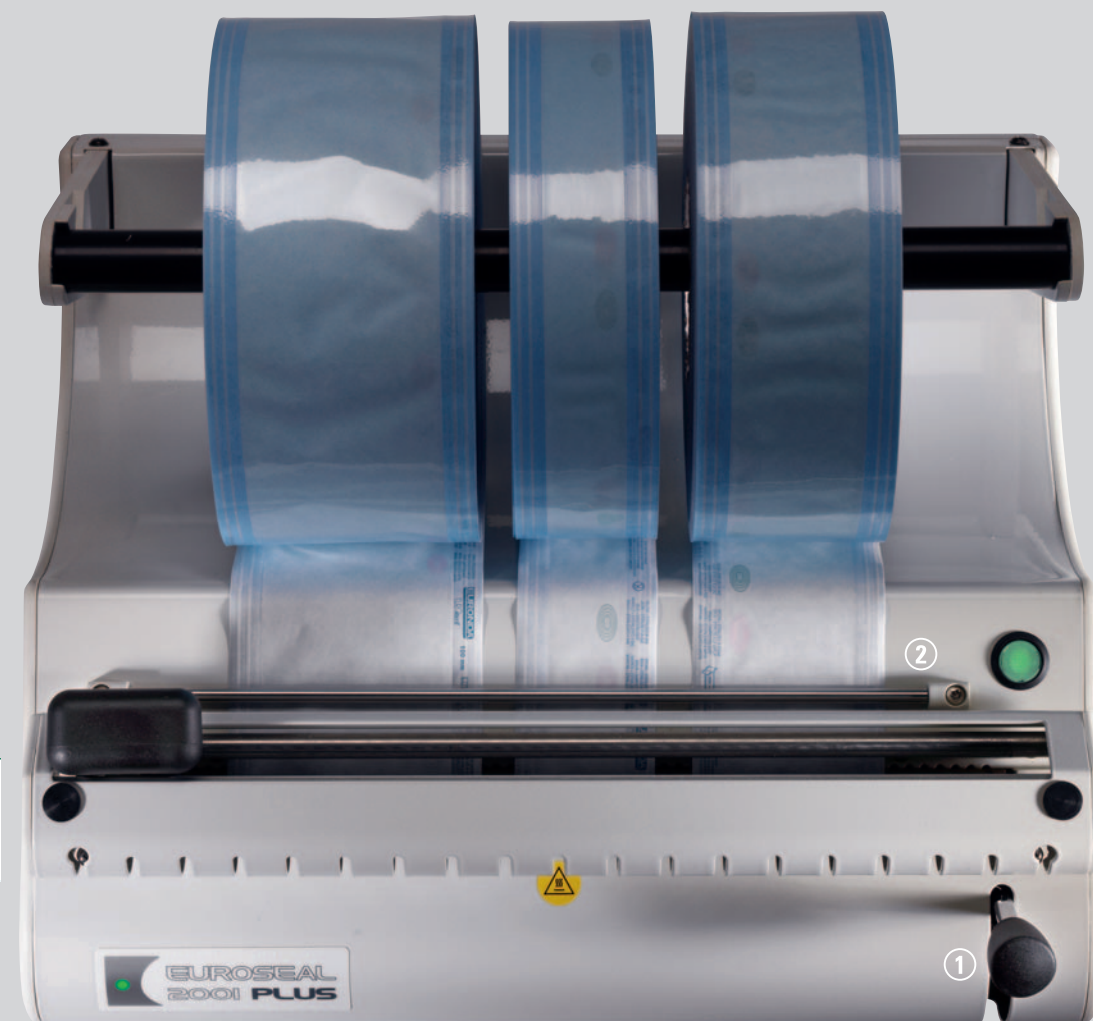

The time saving integrated cutter enables the user to cut the pack to length whilst the pack is being sealed. The all metal, ergonomic construction gives long lasting durability and reliability, backed up with a 2 year warranty. The contemporary design and clean lines ensure easy machine cleaning and practicality with an emphasis on a uniform seal quality and safety for the user.

Granton Medical is pleased to present the Euroseal® 2001 Plus thermosealing machine, designed for easy and reliable sealing of Sterilisation Reels and Pouches.

Manufactured by Euronda SPA, specialists in the field of infection control.
