Renderplas Directors statement of compliance

Safety data and risk associated with Renderplas PVCu beads

On behalf of the Board of Directors of Renderplas Ltd, I, Daniel Leedham-Green, make the following declaration this day the 1st of January 2012:

“The composition of Renderplas Plasterer’s Beads is 100% PVCu and comprises of both rigid and flexible material. Rigid material contains impact modifiers and inert filler and flexible material contains plasticizers. Having studied the safety data sheets in relation to these compounds, Renderplas Beads are not harmful to people or the environment and contain no substances of very high concern (SHVC’s) and pose no risk when used in accordance with standard industry practice.”

Renderplas PVCu Beads meet full compliance with the following legislation:

- Control of Substances Hazardous to Health (COSHH)
- Control of Lead at Work Regulations
- Regulation, Evaluation, Authorisation of Chemicals (REACH) Art. No. 13 of EC Reg. 1970/2006
