

## The Old Bakery

We also renovate commercial properties. The Old Bakery is our latest project, involving the conversion of former bakery premises into modern retail space.

4 months work will see a total transformation

## Modern Cladding Systems

Natural stone facing systems from as little as 20mm thick can be retro-fitted to any structurally sound building to create stunning, long lasting contemporary facades.

## Project Quotations

We are pleased to receive any enquiries for property renovation or development works, from simple façade re-cladding to complete refurbishment involving all trades.

Kirk Natural Stone Developments can add value and provide a timely, competitively priced property renovation service for any domestic or commercial project.

## PROPERTY DEVELOPMENT

USING  
NATURAL STONE

## Property Development

Kirk Natural Stone Developments offer a full all-trades, internal & external property development service.

We can carry out works on all types of stone buildings, and by the careful and selective use of natural stone detailing, we are able to improve the appearance and longevity of any structurally sound building.

Well designed natural stone features can be used to improve appearance, add value and are highly cost effective on a whole life cycle basis, both financially and environmentally.

Refurbishment is a real alternative to the demolition of buildings which look past their best!

Refurbishment can transform buildings which look like this

Into buildings which look like this!

## Project Profile Castle of Auchry Cottage

Castle of Auchry Cottage was restored by Kirk Natural Stone Developments during March to June 2010.

Auchry Cottage before renovation.

Auchry Cottage restored with natural stone detailing.

New natural sandstone masonry features used to great effect

## The Kitchen

New limestone flooring and granite worktops give the new kitchen the wow factor

## The Lounge

New natural sandstone fireplace enhances the main living area

## The Bathroom

From no decoration for 55 years to designer look, using limestone floor and wall tiles
