

EDUCATION & TRAINING

Audio/Visual is at the heart of our training business and HTS specified and installed the ideal solution for our new facilities.

Ian Allen, CEO, Succeed Academy, Birmingham

The perfect Audio/Visual Solution:

Enhance readability and visibility with a 55" Samsung narrow bezel screen.

A SMART portable wireless slate device allows you to manage your content from anywhere in the room.

Take time out with the 40" Samsung LED screen with PS3 and Move Controller.

Installed to the highest standard by HTS's well trained engineers providing a neat and clean finish.

Audio Visual Specialists (25 years)

About HTS

Based in the West Midlands and with over 25 years experience in the projector installation and audio visual installation industry HTS specialise in complete custom-built AV (Audio Visual) systems designed and installed to meet your individual needs.

As specialists in our field we've installed thousands of Classroom and Training Systems across the country and all our engineers are highly accredited and CRB Checked.

Distractions from faulty equipment can be a hindrance to learning, as can operational problems and downtime. We offer flexible, preventative maintenance packages that are designed to save you money and reduce the risk of known problems such as faulty cables, dirty projectors or worn out lamps.

Providing audio visual installation and servicing has always been the backbone of our business. Our in-depth knowledge enables us to help you choose the best product for your requirements.

Our team of experienced projector and screen technicians are fully trained to deal with all aspects of health and safety and are accredited in a large range of audio visual installation.

Call us on 01905 620121 for a free, no obligation, quote.
