Handmade Reconstituted Stone

Reconstituted stone is man-made and another term for concrete.

Whilst some are manufactured to mirror the look of natural stone, others take on unique characteristics since this material is more flexible in achieving different colours and surface textures.

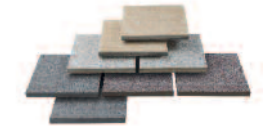

Reliable and hardwearing, reconstituted stone remains a popular choice.

Traditional Stop Chamfer Baluster System

www.mkmb.co.uk

Trex from Arbordeck

Composite Decking

Trex from Arbordeck is a mixture of raw materials combined together to make an attractive, low maintenance composite deck board. Trex decking is 95% recycled – 50% of this is wood waste and 50% is recycled plastic bags.

Trex decking will not rot, split, fade or stain, is resistant to mould and also carries a 25 year residential and 10 year commercial guarantee. A sporadic wash is all it needs to remain in tip-top condition. Trex also has significantly enhanced grip properties compared to complete timber decking.

A SUSTAINABLE APPROACH BY MKM

MKM believes in conducting business in a manner which achieves sustainable growth whilst demonstrating a high degree of social responsibility. Our suppliers are fundamentally committed to sustainable development and to ensuring that their activities are managed in terms of their economic, social and environmental impacts.

IMPORTED NATURAL STONE

Many suppliers importing Indian natural sandstone are not engaged in auditing how their stone is produced. However, Stonemarket understand that regulation and auditing are essential to ensure international governance and ethical trading with developing countries.

ETHICAL TRADING INITIATIVE

Our suppliers' parent company is a member of the Ethical Trading Initiative (ETI), an alliance of companies, trade unions and non-profit organisations that aims to promote respect for the rights of workers worldwide. In India, Stonemarket and Marshalls only buy sandstone from Stone Shippers India, which in addition to the ETI base code compliance, is certified by AIB – Vincotte International not to source any raw materials from quarries employing child labour. Our suppliers will continue to undertake regular auditing to ensure that the highest standards are maintained at all times.

CERTIFIED TIMBER

MKM are part of the Timber Trade Federation (TTF) and have adopted the Responsible Purchasing Policy (RPP) demonstrating due diligence when purchasing timber products and meet the obligations as traders under the European Union Timber Regulations (EUTR).

This icon denotes that a product has been procured from ethical sources, audited to recognised independent standards

This icon denotes that a product is part of our Indigenous Stone range, manufactured in the UK

PAVING GENERATOR

Haüs Smooth paving and Steps, Dune

STONEMARKET

Create laying patterns in minutes using the Stonemarket Paving Generator, available at www.stonemarket.co.uk or at your local stockist.

Generate

- Your layout simply, following the step by step process
- Layouts using all Stonemarket products, including circular features and driveway pavers.
- Any shaped patio you like.
- A range of laying patterns, from the contemporary to the traditional
- The quantity of materials required.
- The carbon footprint of your project.
