BONZER® HEXDOME

HEXDOME IS A UNIQUE SOLUTION TO CUP & LID DISPENSING THAT WILL BRING EASE, INCREASED HYGIENE AND STYLE TO ANY CATERING OUTLET.

The Bonzer® Hexdome's modular design means the product suits any surface size, with each hexagon an individual piece that can slot together to make one unit as large or small as required. The modular design can be cleaned easily with every element of the design dishwasher safe. Each unit consists of customisable silicone domes for all sizes of cup.

Speak to us about colour options and branding possibilities.

BONZER® EAZI-GROUP (PRO-FONDI)

**SPEED UP SERVICE, MAINTAIN BETTER HYGIENE,
FREE-UP BAR SPACE AND SAVE MONEY BY EXTENDING
THE LIFE OF THE COFFEE MAKING EQUIPMENT.**

Quick and easy to use, the Pro-Fondi has significant benefits over the traditional method of using a knock-box for waste.

It is far less abrasive, which means that there is less damage to the filters and groups - thus, in turn, improving the life of both.

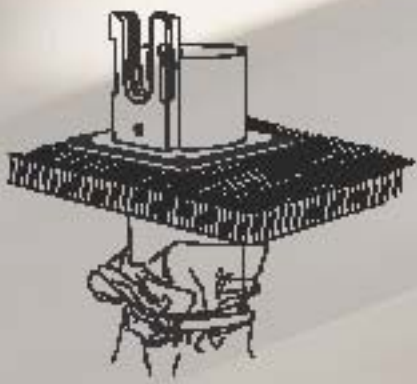

Pro-Fondi is also far quieter than the noise produced by enthusiastic baristas cleaning the filters, which positively adds to the atmosphere of the venue.

In addition, any waste is stored more hygienically within a neat waste bag housed conveniently out-of-sight under the equipment within the counter space.

PLASTIC BAG DISPOSAL

BONZER® EAZI-GROUP (PRO-FONDI)

The Pro-Fondi offers a small footprint therefore takes up less space than a traditional knock box. No more banging and damaging group handles or boxes. When you place the handle in the top of the unit the rotary automatically starts, cleaning around the inside of the group head.

PART NO.
DCDP0212

- ✓ Quiet and efficient
- ✓ Waste is collected in a bag, out of sight.
- ✓ Easy to install
- ✓ Low maintenance costs
- ✓ Speeds up service

NAPKIN DISPENSERS

SYRUP PUMPS

HIGHER DOSE PUMP

The workhorse pump for up to 5 litre applications. However, its versatility means it can be adapted to suit most containers including buckets / tubs & pails. This 5 litre pump not only offers a lock-down closing action, but is also the only shippable 30ml dose pump / 1 ounce dose pump available to date. This means the pump can be fitted and shipped on-pack (subject to compatibility testing).

PART NO.
FDPM0116

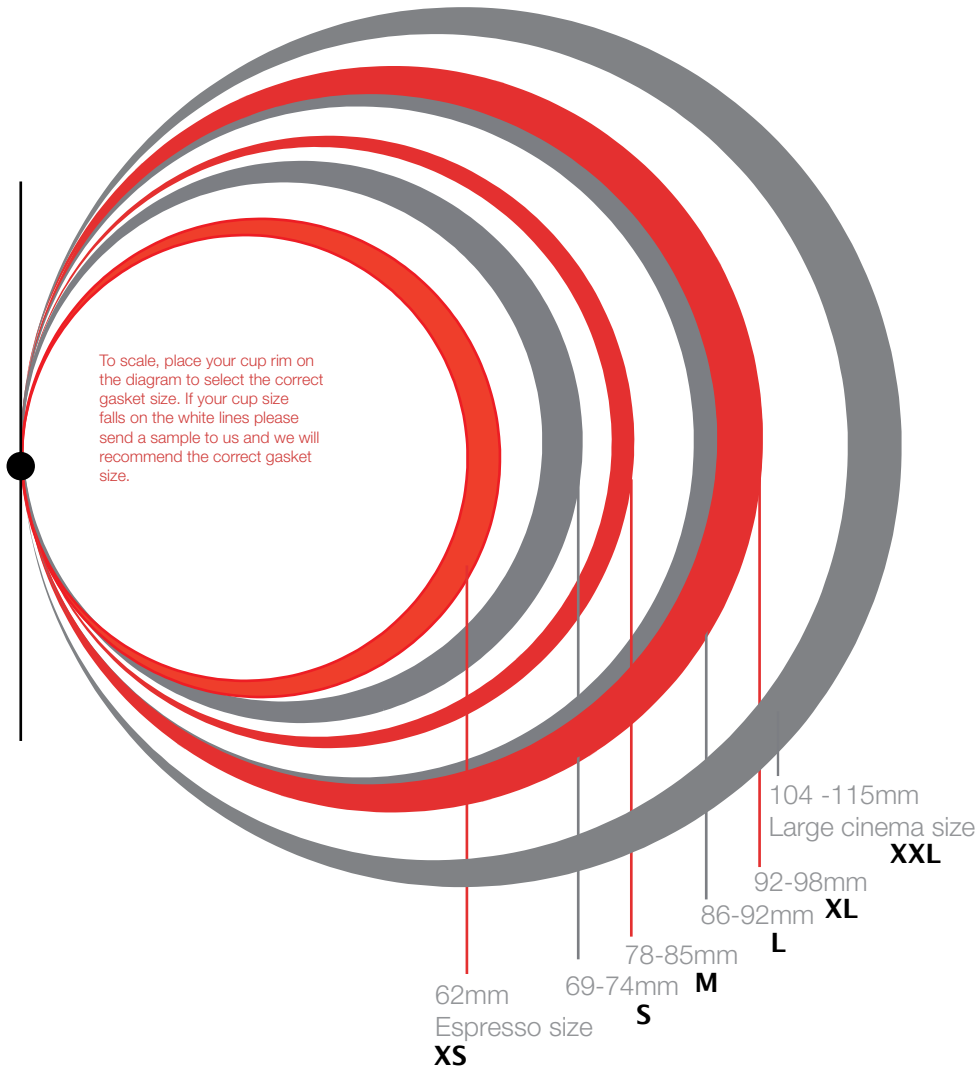

- ✓ Dose range 10 - 30 ml
- ✓ Coloured closures available
- ✓ Branding available
