

Front Tanks

*British designed
and built for British farmers*

1000L version

Front Tanks

The Team Front Mounted Tank range is specially designed to increase spraying capacity therefore increasing productivity. The unit is quick and easy to mount and demount from the tractor and is fitted with quick release couplings on all liquid and hydraulic hoses. In cab controls allow fast transfer of liquid to the rear tank during the spraying operation.

New for 2013 the low-line 1000 & 1500L tank increasing operator visibility, ground clearance and being closer coupled to the tractor reduces overall length and maximises the weight distribution.

FEATURES

- In-cab liquid transfer or agitation switching
- Robust steel chassis with **fold-away storage legs**
- Increased ground clearance
- Improved weight distribution
- Proven reliable design
- Low line tank for maximum operator forward vision
- Impact resistant polythene tanks
- Powerful 700L/min transfer pump

Weight & Dimensions

Weight: 330 Kg (1000L version)
 Transport width: 1.4m (600L version); 1.7m (800L version); 2.0m (1000 & 1500L versions)
 Tanks: 600-1500L impact resistant polyethylene
 Pump: Hydraulically driven centrifugal, 700 L/min max
 Controls: 12v In-cab electric

Standard Features

Hydraulic powered transfer pump
 Tank fill valve and hose kit
 Bull bar and road lighting
 In-cab operated 12v transfer/ agitate valve 3-point linkage frame (Cat 2)
 Transfer hose kit
 Foldaway demount/ storage legs
 Quick fit couplings on all hoses

Optional Extras

25L Stainless steel chemical induction hopper incl. can rinse
 600/800/1000 or 1500L tanks
 Cleanwater hand wash tank
 PPE locker
 Bolt on adaption frame
