

ROOM DARKENING SPECIFICATIONS

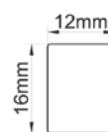

ROOM DARKENING SHUTTERS

ROOM DARKENING OPTION

1. Frame option*:

Light block for top & bottom

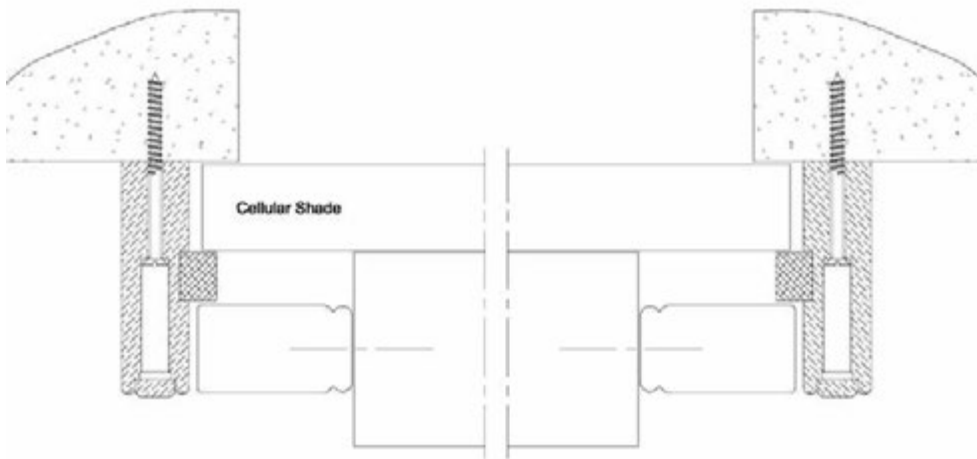

Light block for left & right

Vintage Hang Strip 76mm

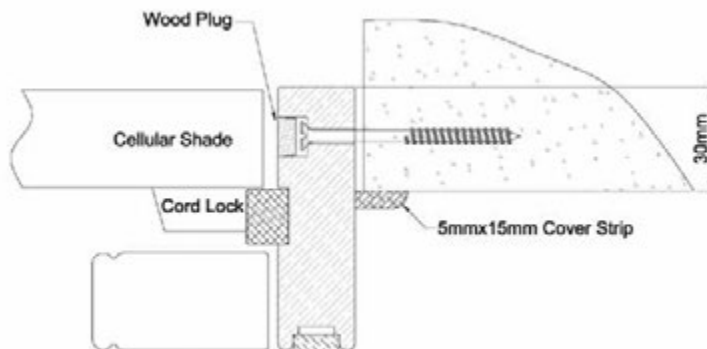

*NOTE: When you order black-out blinds and the frame has a T post please note the defaulted specification below
 A. If there is no build out with T post, then the black out blind will be defaulted to one blind sitting behind the T post.
 B. If there is build out with T post then the black out blind will be split according to the T post.

2. Frame mounting:

Outside Mount

Inside Mount: will require a minimum depth clearance 30mm

ROOM DARKENING SHUTTERS

3. Number of frames

3 sided (top, left & right) and 4 sided

4. Available shutters

All rectangular shutters

5. Available cellular shade:

25mm corded cellular shade

* The bottom end of pull cord will be tied to the bottom rail end cap

6. Size limit:

	Min. Size	Max. Size
Width	216mm (8.5")	2438mm (96")
Height	254mm (10")	2438mm (96")

Please Note:

The blackout blind aligns with the back edge of the frame so please allow for any handles, beading when fitting tight to the window.
