- DISCOUNT LIGHTING • LAMP SUPPLIERS • LED / LIGHTING
- MAINTENANCE AND INSTALLATION FITTING

*No.1 for everything electrical*

## PRODUCT CATALOGUE

- HALOGEN REFLECTORS • LOW ENERGY LAMPS • ENERGY SAVING LAMPS • METAL HALIDE • TUNGSTEN HALOGEN LAMPS
- INCANDESCENT LAMPS • BALLASTS & CONTROL GEAR • EMERGENCY LIGHTING • WIRING ACCESSORIES
- HEATING AND COOLING PRODUCTS • SMALL APPLIANCES AND MUCH, MUCH MORE

Welcome to the first edition of the **LIGHTING AND LAMPS** electrical product catalogue.

This catalogue is packed from cover to cover with a comprehensive range of branded lamps and tubes, lighting, distribution and trunking products and a wide range of electrical essentials for the home and office.

**Unbeatable prices ...**

We are committed to providing you with the BEST POSSIBLE PRICES on lamps, lighting and electrical products for all home and commercial applications, with next day delivery available on most items. Please ask for details.

**SAVE energy and SAVE money !**

LIGHTING AND LAMPS introduce a range of high quality energy saving lamps designed to help save you money and play a part in protecting the environment.

**So easy to order ...**

Descriptions are clearly indicated throughout this catalogue. Manufacturers catalogues and price lists are available on request. To order simply telephone our sales team, send your order by fax or visit our website [www.lighting-lamps.co.uk](http://www.lighting-lamps.co.uk)

**A massive range ...**

The products shown in this catalogue are selected by ourselves to be of the highest standard and quality. Please remember, the products shown only represent a fraction of our total stock ... please give us a call.

**Design and Installation ...**

We also offer a complete design, supply and fit service for all retail, industrial and commercial clients. From relamping and renewing ballasts and breakers to a complete site survey, design and installation of lighting and electrical products. Call us for more information.

LED Colour Changing

## 12 MASTER LED LAMPS

The new Philips MASTER LED lamps reduce your energy bills and maintenance costs by up to 80%, meaning a little investment now will save you more in the future.

These lamps emit no heat, UV or infrared in the light beam and are mercury free. With the EU phase-out of old GLS lamps happening right now, this is a great time to future-proof your lighting installation by switching to our new LED solutions.

The range of Philips MASTER LED lamps are leading the market with good reliable lamp life and a great quality of light. They're here to stay to change lighting as we know it.

Available in 240V x 32A, 40A, 63A and 80A 30mA; 63A 100mA and 63A 300mA

#### RCDS - Double Pole

Available in 25A, 40A, 63A and 80A 30mA; 63A and 100A 100mA; 63A and 80A 300mA

#### Accessories

A range of Switch Disconnectors, Split-Load and Multi-Incomer Consumer Unit Kits, Din Rail Modules, Extensions and Blocks; Consumer Unit Kits; Busbars; Neutral Terminal Kits; MCB Blanks and Terminal Shields available.

### RCBOS

Description

#### MCB/RCD Single Pole

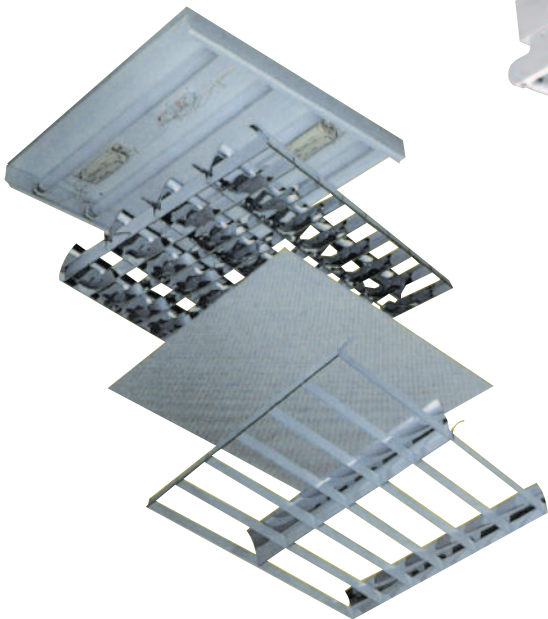

Available in 1 Mod Type 2 (M6) 6A, 10A, 16A, 20A, 32A and 40A versions

CAT 2 FITTINGS

LG3 Cat 2 single and twin lamp options. Features steel faceted body finished for individual mounting. Injection moulded end caps colour matched to body. Flange body configuration eliminates lightspill. Switchstart or high frequency gear options.

MODULAR FITTINGS

A wide selection of modular recessed and surface fittings, featuring a choice of lamp wattages and three different attachments ...  
 i) Cat 2 mirrorbite louvres for compliance with CIBSE LG3 category 2 computer areas.  
 ii) High light output louvres, with white cross vane louvres. iii) Prismatic panel for an economic, reduced glare option.

FIXED ADJUSTABLE DOWNLIGHTS

Low voltage and mains downlights available in a vast range of high quality finishes.

FLUORESCENT BATTENS

A full range of fluorescent batten fitting single/twin with a wide range of attachments opal/prismatic diffusers CAT11 louvers, metal reflectors and wire guards for all domestic commercial and industrial applications.

INDUCTION LOOP

To help building managers meet impending legislation, Martell have introduced a range of induction loop system kits to aid the hard of hearing. Induction loop systems generate an electromagnetic field which amplifies speech signals fed to it and radiate this through a wire loop installed within a ceiling or under foot which can be picked up by the hearing aids of the hearing impaired, located within the field.

FLOODLIGHTING

We also stock a full range of floodlights 70-400Watt SON/Mercury/ Metal Halide etc. Plus various high and lowbay versions ideal for car park and loading bay areas.

SCEPTRE

A range of attractive Floodlights complete with stirrup mounting brackets from 150w to 400w. Available in High Pressure Sodium, Metal Halide and Mercury Vapour. IP65, high quality aluminium body

LOW BAY

A Lo-bay luminaire suitable for commercial and industrial applications. Designed for easy installation and maintenance. The gear and lamp can be maintained via a hinged gear tray, retained by rapid 1/4 turn fixings

**SURFACE LUMINAIRES**

A range of round and square luminaires that incorporate the latest high frequency gear. Specially designed to take 2D lamps.

Suitable for both interior and exterior use. Rated IP65. Available with Black or White base. Choice of Opal or Prismatic Diffusers.

**WEATHERPACK**

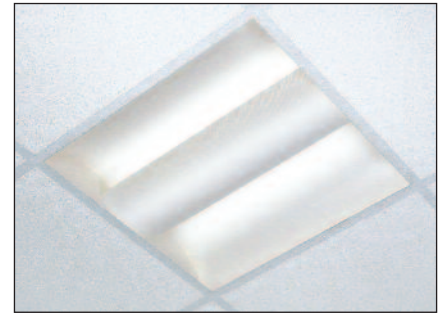

A range of single and twin lamp IP65 weather resistant and dustproof luminaires. Ideal for use in adverse weather conditions. Supplied as standard with high frequency control gear for improved, energy efficient, flicker free operation and instant start.

**ELITE**

Elite is an ultra modern pendant mounted luminaire for indirect and direct lighting effects. Available in T5 or T8 twin lamp configurations. The Elite offers a unique package of energy efficiency and style. Ideal for satisfaction of LG3 addendum requirements.

**ECLIPSE**

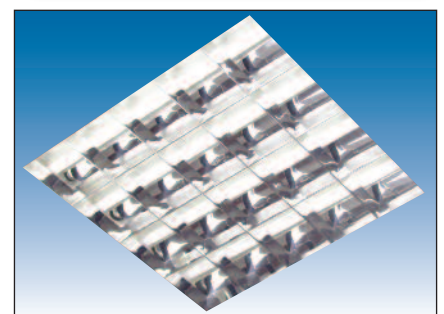

This attractive luminaire creates a subtle lighting effect utilising its involute reflector system, which allows a combination of direct and indirect lighting combining fluorescent economy and stylish design. This luminaire is fitted as standard with high frequency ballast for improved energy efficient, flicker free operation and instant start.

**PARAGON**

As the name suggests an Example of Excellence, the Paragon Luminaire demonstrates innovation using the latest lamp technology, together with custom made optics. A variety of louvre and lamp combinations enable illumination of commercial offices with sensitivity to the latest addendum of LG3, as well as being ideal for the high street retail sector.

**PRO INTEGRA**

This recessed luminaire provides an economical high quality lighting solution, where 24mm or 15mm exposed T-bar ceilings are used. The luminaire is supplied complete with high frequency control gear and triphosphor colour 84 lamps, for an energy efficient luminaire. A range of low cost attachments are available, packed complete with the luminaire.

UNIVERSAL LIGHTS

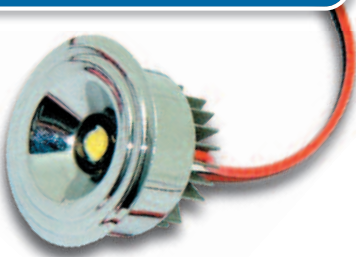

Description

Plus desk and pedestal fans in a number of different colours and styles, both modern and retro.

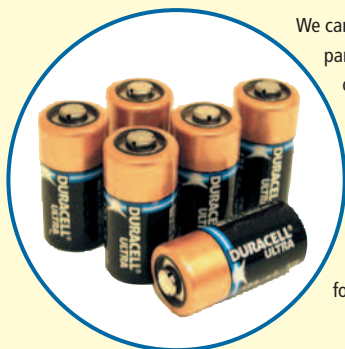

**CHRISTMAS LIGHTS**

A large selection of Christmas lights at factory direct prices to bring your home and office environment to life.

Hard wearing, long lasting and featuring robust, coloured or plain lamps. Ideal for the most demanding environments and guaranteed to raise a smile !

**BATTERIES**

We carry large stocks of batteries - in particular Duracell, pioneers of the longer lasting alkaline ranges.

Duracell are the UK brand leaders in the consumer market offering long lasting, leakproof alkaline batteries for optimum output and high

Electrical installation you can depend on

## We supply, design, install and maintain

We cover all aspects of electrical work from installing an extra plug socket to a full rewire.

We have extensive experience in domestic, commercial and industrial installations and have gained an excellent reputation for our work.

We cover all aspects of electrical work in houses, shops, restaurants, pubs, factories and warehouses. We also specialise in fault finding and cover all areas inside the M25.

Our rates are very reasonable and our work is first class. That's why most of our work comes from personal recommendations from satisfied customers.

- New installations
- Design
- Remedial work
- Testing
- Facilities management
- CCTV
- Access control
- Fire systems
- Data cabling
- Office moves

Lighting maintenance made easy

## Relamping and maintenance

The best way to maximise the life, savings, and efficiency of any lighting system is by adopting a suitable maintenance and management programme.

In order to serve a full range of client needs, we offer a wide variety of lighting maintenance and management services.

This includes developing management strategies and assistance to full service long-term maintenance contracts.

Each of our maintenance and management arrangements are designed to meet the specific desires of the Client, and to provide the Client with maximum benefit.

Based on product specifications, knowledge of the systems use, and tracked failures, we can calculate the optimum timing for a Group Relamp of a facility and design a cost effective maintenance strategy that meets our clients needs and budget.
