

Service for Life

365 days a year, 24 hours a day.

Protecting your people, your processes and your property is our business.

However well designed and installed your fire detection and security systems are only as good as the way they perform throughout their service life. One of TecservUK's primary objectives is to provide our customers with a level of support that is unrivalled in the fire and security industry.

TecservUK offer a level of service that is first class and provides peace of mind when your business is most vulnerable. Help is available on a 24/7 basis throughout the United Kingdom. By using engineers who are dedicated to their own group of clients, personal relationships are quickly established. We invest time and resource in training our engineers to remain up to speed on the technology we use. TecservUK know that every customer needs something different.

We strive to create new standards of service and technical excellence. TecservUK have formed partnerships with some of the world's leading manufacturers of fire and security equipment because your business deserves the best.

As an acknowledged authority on reducing unwanted alarms, our experienced team of specialists will help and advise customers wishing to improve the management of their protection systems.

Our absolute commitment is to support your fire and security detection equipment on a 24-hour basis; this philosophy runs right through TecservUK. Our prestigious client base is testament that we meet and exceed expectations in this respect.

Our mission is to protect your people, your processes and your property. TecservUK brings you the specialisation, ideas and solutions that save lives and money.
