

GLAZING GRAPHICS

PROFESSIONALLY
DESIGNED PRODUCED AND APPLIED

To

WINDOWS
DOORS
PARTITIONS
FOYER AREAS

Maximise the potential of your company's most valuable asset – YOUR PREMISES – by presenting an innovative and professional image both inside and out, making architectural glass a promotional showcase for your company, your products and your services.

Our range of film specifications allows flexibility in the degree of protection from impact damage, vandalism, bullet-proofing or bomb-blast protection whilst still allowing light and vision, one-way or both ways.

HIGH TECH GRAPHIC DISPLAY FILMS

IMPROVE YOUR IMAGE TO THE OUTSIDE WORLD

Etched image filmed graphics (2/4/6)

Logos, informative wording, shapes of all sorts reproduced out of etched film to mark existing glazing, avoiding the risk of collision and making the glass safer in the event of impact.

INEXPENSIVE • ATTRACTIVE • INFORMATIVE

Photographic image filmed graphics (1/3/5)

Any design in full colour photographic images on a high-tech film, creating a spectacular decorative design on windows, doors and partitions. This film can also reduce the effects of solar heat and glare radiation depending on the percentage of the window covered and the opacity of the image. Our design advisers would be pleased to answer any questions you may have.

seen in HIGH places ...

THE MILLENNIUM TOWER

An impressive landmark situated at Gunwharf Quays, at the mouth of Portsmouth Harbour, described as one of Europe's most important water, leisure, shopping and tourist locations.

Bonwyke ...

were chosen to manufacture and install a range of etched manifestation films throughout this spectacular glazed tower.
