

Folding-sliding doors

Folding-sliding doors can transform your home

Liniar's Bi-fold Plus folding-sliding doors will transform, modernise and add real value to your home. Your home will be lighter and brighter. Enjoy the feeling of more space.

Our bi-folding doors are some of the most attractive, simple to use, energy efficient and secure on the market. Designed to enhance your home they will maximise the space available.

Fully opened Liniar's Bi-folds are slim and unobtrusive, and when closed they offer all the benefits of a modern double glazed patio door.

Slim frames give you more glass, less PVC-U and more natural light. The hardware is concealed so only the hinge knuckles show.

Low threshold options are ideal for wheelchair users and family homes as they create fewer trip hazards for the elderly and the very young.

Available in a varied range of colours and finishes, your door can easily be tailored to suit your personal taste and home.

The Bi-Fold Plus range of doors allows air and light to flood your home and really bring the outside in. The doors will make a welcome addition to your property, giving it the 'wow' factor. They are a more modern option than patio or French doors. Liniar's bi-folds are designed to incorporate many innovative design features not available in other PVC-U bi-folding doors.

They are designed to function well and look beautiful. With the option of internal or external opening, they can be installed in a variety of situations. They are easy to install and the only maintenance you will need to perform is to give them a clean!

Bi-fold doors help create the perfect summer ambience. But it's just as important that they withstand the harsh British winter. Liniar's bi-fold doors have been subjected to the same test for the British Standard weather performance criteria and are designed to withstand the worst that the British weather has to offer.

We are taking all the necessary steps to protect our designs to ensure our customers get all the benefits from choosing Liniar.

With a choice of designs and guaranteed high-quality performance, our bi-fold doors bring you the space, comfort and low maintenance luxury of modern living.

Discover why more and more people are choosing Liniar's Bi-Fold Plus to add that extra dimension to their homes.

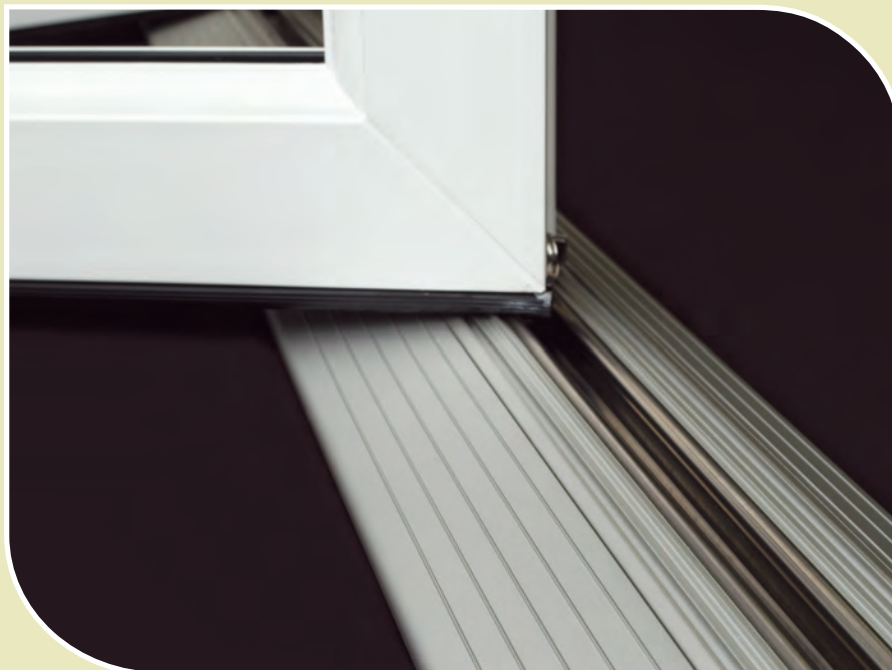

Bi-fold doors are fast becoming a must-have product for discerning homeowners, whether to replace existing patio or French doors or to install in a new home extension. The ability to provide clear unobstructed openings of up to 90% has led to their increasing popularity. This is thanks in no small part to their regular appearances in TV home makeover programmes where they continue to provide the 'wow' factor.

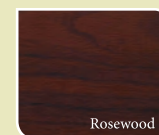

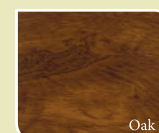

A bi-folding door opens up your home to create a seamless integration of your living space with your garden. They also make great internal doors to separate the main home from a conservatory. When open they allow the two living areas to become one. Tailor-made from 2 metres to an impressive 6 metres wide, they offer a simple yet stunning way to enhance your home.

Liniar's Bi-Fold Plus folding-sliding doors are crammed full of innovative design features. They are environmentally friendly, being completely lead free. The doors are incredibly easy and smooth to operate and they need no maintenance. They utilise a shootbolt locking mechanism to ensure that the doors are bolted firmly into the stainless steel track, maximising your security.

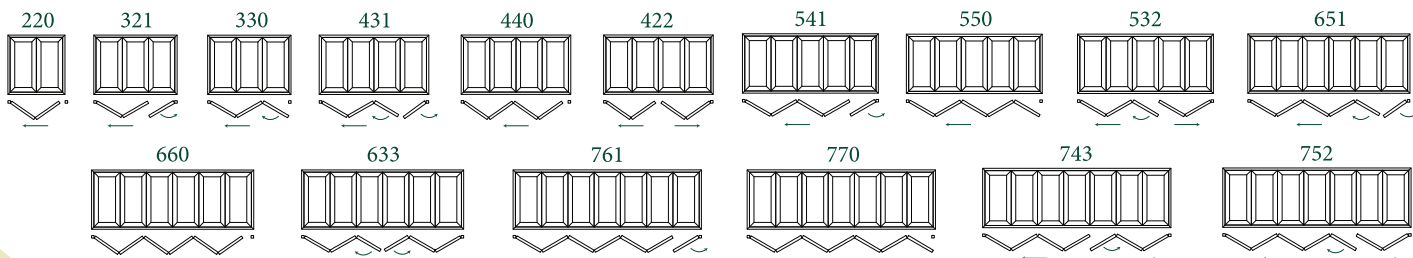

The low threshold option creates less of a trip hazard making it ideal for family homes or as an internal room divider. The ultra low threshold is just 24mm in height and is available in gold or silver finishes to match the hardware of the doors. Also available is a tray for the low threshold to sit in, creating an easy access ramp for wheelchair users.

The doors are available in White, Cream, Oak and Rosewood finishes as standard. We also offer a wide range of alternative colours and finishes as an optional extra so you can tailor the doors to suit your home. The handles and hinges are available in white, chrome or gold finishes to complement your choice of colour for your door.

Enjoy the luxury of low-maintenance, contemporary living with our stunning bi-fold doors. The Liniar bi-fold range is available in a wide range of opening styles - including styles unique to Liniar - to suit all sizes of door openings. With the option of internal or external opening we are sure that there will be a door suitable to fit your needs.
