

ZETACOOOL

M260UV AIR PURIFIER

Suffer from Asthma or Allergies ?
Fed up with inhaling contaminated air ?
Worried about the long-term effect on your health ?

The new ZetaCool M260UV Air Purifier is here to help you.

The **ZetaCool Air Purifier**, with its FIVE stages of operation, filters out dust and pollen, removes unpleasant smells and kills off airborne viruses and bacteria. The unit can be mounted on a desk, on a wall or at high level in an inverted position and is suitable for areas up to 400 ft²

- **Cost Effective** – No other unit has the same features or can purify the same area for a similar price
- **Two Year Warranty** - (excluding filter replacements)
- **5-Stages of Operation** - Prefilter, HEPA Filter (99.97% @ 1 micron) for removal of dust mites (& faeces), pollen and other contaminants, Carbon Filter for removal of obnoxious odours such as cigarette smoke, TiO₂ Filter with UV for killing and removing viruses and bacteria, Negative Ionisation to improve air quality
- **Low Operating Cost** - 40w at high speed
- **3-Speed Operation**
- **Remote Control and Timer**
- **Compliant with CE and all relevant Safety Requirements**
