

>>> About Us

Having been established since 1953, you can be sure we have the experience to help you with your plant requirements.

A family firm that believes that every customer is important. From the smallest builder to the largest company.

Our machine operators have an average of over 25 years experience each and their skill, productivity and advice can help towards making huge savings for our customers. They are probably the best operators, driving the best plant in the North East.

Having achieved Investors in People back in 2003, our company believes our employees are an essential part of our success. Ongoing investment in training to ensure they remain the best is an essential strategy in providing a first class service to you our customers.

>>> Diggers

Whether you want foundations, drains, landscaping or just a wagon loading the JCB is the ideal machine to meet your needs. Our modern fleet is equipped with fork attachments, 4wd, extended hoe (6 metre digging depth) and a full range of attachments including buckets, hydraulic breakers and augers. Combined with our amazing operators, they form a powerful combination.

For the more restricted sites why not try a JCB 2cx, a more compact version of the larger 3cx.

The machine allows you to access smaller sites yet still retain the power required to get the job done quickly.

>>> Mini & Micro Diggers

From Micro Diggers that can pass through a normal doorway to 2.7 tonne Mini Excavators for the more demanding work. We have a Mini Digger that will suit most applications.

Buckets from 9" (200mm) to 24" (600mm) plus grading buckets, hydraulic breakers and augers available for most machines.

DELIVERY TO SITE CAN BE ARRANGED and FREE INSTRUCTION ON OPERATING CAN BE PROVIDED

>>> Muck Trucks

Whatever you need to move, shovel or shift ...

... a powered wheelbarrow is the ideal tool. For builders and landscapers, in fact for anyone who needs to move materials around their site.

It's a very versatile machine with a range of accessories that can be swapped in a matter of seconds.

To see more of what this great little machine can do go to our website at www.jenningsplant.co.uk

A FREE trial can be arranged.

>>> Hi Tip Dumpers

Working in conjunction with micros and mini diggers, the Hi Tip Dumpers enable movement through narrow spaces with surplus spoil from the excavation to skips, pickups and trailers to assist in the process.

>>> ROLLERS & WACKERS

Compaction equipment from handheld wacker plate to sit on 80cm wide & 120cm wide rollers. For ground preparation.
