

ADVANTAGES

1. Traditional structures add to the aesthetic appeal of the built environment. Prefabricated chimneys provide the complete solution, traditional natural materials are incorporated into an easily fixed product, avoiding heavy & complex elements and significantly reducing the costs of construction.
2. Traditional chimney's, uncompromised quality/cost effective/high quality workmanship.
3. Available in brick, natural stone or reconstituted stone suitable for all sites including conservation area's.
4. Capping can be either lightweight or traditional including flanchued.
5. Water tight, weather proofed, completely sealed, supplied ready to accept lead.
6. Experienced design team can help you tailor your requirements.
7. Chimney's require pointing on site to ensure that the mortar matches the main structure, usually whilst on the ground for easy access.
8. Each chimney is suitable for ridge, end ridge or as a mono-pitched positioning, and full installation & fixing instructions are available on request.
9. All of our chimney products are supplied with a 10 year product warranty against water ingress. Please see the full terms and conditions for details.

Our high quality prefabricated chimneys are clad using actual masonry materials. We collect free issue brick and/or stone from site to prefabricate your chimney in any of the standard designs shown, or a bespoke design tailored specifically to your needs. We are also pleased to incorporate a suitable live flue system to suit both class 1 & class 2 applications.

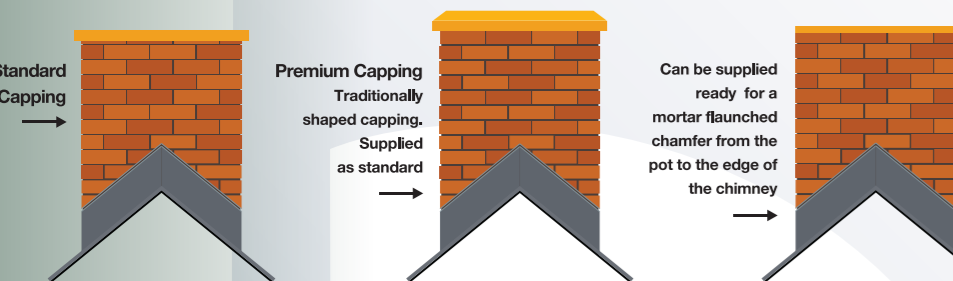

ROOF POSITIONS & PITCH

Our brick clad chimneys are available as standard for 30°, 35°, 40° and 45° roof pitches and for mid-ridge, mono-pitch and gable end roof positions.

Any roof position and pitch can be produced to order.

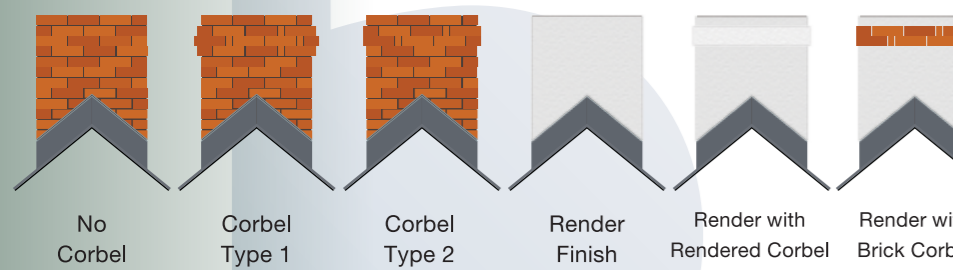

CAPPING OPTIONS

Our brick clad chimneys are supplied with a Premium capping. Standard capping or supplied ready for mortar flanchuing on site are optional.

Cappings are manufactured in GRP with a stone effect finish. A buff (Bath stone) colour is standard, but can be produced in a grey mortar colour upon request.

CORBEL DETAIL & RENDER FINISHES

Our brick clad chimneys are manufactured using bricks from site and are supplied ready for pointing on site for a perfect match.

Chimneys can be supplied prepared for rendering on site to ensure a perfect consistency on the build.

Brick work and corbel detail can be produced to any specification and style. Please contact us with your requirements.

CHIMNEY POT & LIVE CLASS POT OPTIONS

Our brick clad chimneys can be supplied with a closed terracotta clay pot in either 300mm or 450mm height.

Alternative pots styles and heights can be specified on request.

We can include integrated flue systems for class 1 & 2 fires & pots at our factories, just point the brickwork in the normal manner.

Please contact us for further details.
