## 30mm CORDED/HAND OPERATED POLES

## 30mm CORDED/HAND OPERATED POLES

These 30mm hand operated and corded poles are suitable for the 'Wave' system, see page 434.

3  
DAYS

MTM

**Specification:** Aluminium pole with 10 gliders per metre. Can be bent, making it ideal for bay windows (Please note minimum bending radius). Supplied with 52mm facefix brackets as standard, ref **3134/Col**. These are colour co-ordinated with the pole and come complete with a matching **3133/Col** bracket cover. Bay windows supplied with adjustable brackets as standard.

**Minimum bending radius:** 6130 hand operated 300mm  
6120 cord operated 450mm

**Packing:** Protective shipping packaging.

**Quantity:** 1 pack of 1

**Size:** **Made to measure**

**Co-ordination:** All brackets, bracket covers and endcovers match the colour of the poles as standard, except for the wood effect poles - these will have brackets/covers which match the base colour of the wood effect as standard. However, as an option you may wish to contrast, eg. Chrome effect endcap with wood effect as shown.

**Corded Options:** When ordering, please state cord side and cord drop required. By using an intermediate pulley Metropole can be corded at both ends with each side operating independently. Cord colour is black as standard, but white cord will be substituted on request. Metropole corded is available with the option of ball end, cross-grain finials, or any of the Wood-end finials.

**Wave headings:** 60mm and 80mm Wave gliders are available for this system. see page 434.

## Wave™ Cat No: 6349

The curtain heading system from Silent Gliss. Available in 50m rolls.

The curtain system Wave® Standard comprises of four basic elements:

**Glider Cords (60mm & 80mm), Curtain Heading Tape, Iron on Hemming Tape and Curtain Hooks**

### How Wave® Works

A specially designed glider cord is contained within the curtain track. This limits the extension of the curtain fabric, creating a smooth and continuous wave effect. When opened, the system enables the curtains to stack back neatly and straight.

The fullness and wave depth of the curtain depends on the selected glider cord and the applied spacing between the curtain hooks. The stack depth varies between 8cm and 14cm.

### Enhanced Wave®

There are parts available which can further enhance the look of Wave® when using the 80mm glider cord. The key part of this enhanced system is an extension arm which ensures the first and last waves of each curtain are the same size and shape as the others (rather than slightly smaller). Other parts include an adjustable brake (hand operated systems only) to prevent the curtain 'creeping' closed.

When buying the system complete with curtains, they come with additional fabric side weights to give a precise and controlled finish to the base of the curtain.

Wave® Standard is available with the following Silent Gliss curtain track systems:

**Hand drawn curtain tracks:**

**6130 and 6100**

**Cord operated curtain tracks:**

**6120**

## ACCESSORIES

### Specification: Standard Bracket:

Standard brackets are colour matched to all 13 pole finishes and come complete with bracket covers to hide screw fixings.

### Adjustable Bracket:

Adjustable brackets are suited to bent installations and allow for more complex applications.

### Ultra Bracket:

Ultra brackets offer a pared down and minimalist look. Available in black, silver, gunmetal and chrome effect.

### Vela Bracket:

Vela brackets make a bold design statement. Particularly suited to the larger 50mm pole. Recommended for straight poles only and available in all 13 pole finishes.

### Top Fix Plate:

Metropole can also be top fixed, close to the ceiling using the simple fixing plates. Note that finials or midials cannot be used with these brackets.

### Pillar brackets:

Pillar brackets are a more decorative alternative to standard brackets. Available in all 13 pole finishes.

### Intermediate Pulley:

An intermediate pulley allows the pole to be corded from both ends. Particularly suited for longer poles or where sunlight direction requires individual curtain control.
