finale.

the last word in curtain poles

A design lead innovative product giving total freedom to mix and match eclectic fashion colours, with traditional materials to form a truly unique distinctive perspective to suit the most discerning tastes.

NEW

your choice...

The Finale range gives the customer complete freedom to co-ordinate the overall look.

Choose from 3 finial shapes: Cube, Discus and Halo, 3 Metal Finishes: chrome, black nickel and steel and finials made from wood (2 options), metal (3 options), stone (2 options), acrylic (6 colours) and perspex (1 clear). All combine to give an amazing choice of thousands of different variations for that genuinely individual touch. Components can be bought separately.

Available Spring 2017

Be creative

Finale is a brand new concept in decorative finials and poles.

For the first time a unique and innovative fixing method enables you to create any combination of finial.

Together with a choice of 3 metal pole finishes (black nickel, steel and chrome) and a choice of 42 finials available in 2 sizes (26mm and 32mm) the options are almost endless.

Choose from either the range of 20 pre selected set combinations or mix and match any of the 3 shapes and 4 materials to create your own unique style. Stone, wood, metal, acrylic and Perspex all combine to give the widest choice.

Be bold with bright acrylics and shiny metals or choose classic stones or wood finishes to create a sophisticated look.

Select any combination of accent colours to complement your cushions and fabrics or co-ordinate with your woods or metals, the choice is yours.

Finale. . . the last word in curtain poles.
