

# Semi-Automatic Hollowrap™ Cored & Coreless Slitter Rewinding Machine

A semi-automatic machine, primarily designed for the manufacture of **cored** or **coreless rolls** of Stretch Film.

## Machine Specification

- Master roll width from 250mm (10") to 500mm (20")
- Master roll diameter up to 500mm (20")
- Master roll core diameter 76mm (3"), 60mm or 50mm (2").
- Supplied with one patented Hollowrap™ mandrel to allow coreless winding  
**And** one Hollowrap air mandrel to allow cored winding  
(extra mandrels can be add to suit your requirements).
- Coreless finished roll internal diameter 60mm (2 3/8") to suit Hollowrap™ dispensers  
(other sizes such as 50mm (2"), 76mm (3") are available)
- Finished roll cored diameters can be 38mm (1 1/2"), 50mm (2"), 76mm (3")  
(one set supplied with the machine as standard, others can be added)
- Variable rewinding speed up to 600m (2000') per minute
- Servo controlled, variable tension, drive system..
- Programmable counter for precise rewind length and braking control.
- Five slitting blades
- Coreless finished roll widths from 76mm (3") to 125mm (5") with no change parts.
- Cored finished roll widths, as per master roll
- Maximum rewind roll diameter 140mm (5 1/2")
- 200 or 400V 3 phase models.
- Guarding to C.E. regulations.

**Handles and Dispensers for also available for:**
