ROLLER SHUTTER DOORS

Carrington Centurion Roller Shutter Doors.

This traditional style door can be used for security on any type of opening and protection to shop windows or offices.

Doors are supplied in galvanised steel as standard but are also available with a plastisol or powder coated finish.

Doors available as manual push up, chain operation, single or three phase electric.

KEY FEATURES

Cold rolled pre-galvanised strips.
Variable gauge to suit opening application.
PVC or steel endlocks.
Heavy gauge cold rolled bottom rail.
Seamless mild steel roller.
Mild steel endplates.
Counter balance springing.
Heavy gauge guides.
Single or double reduction gear.

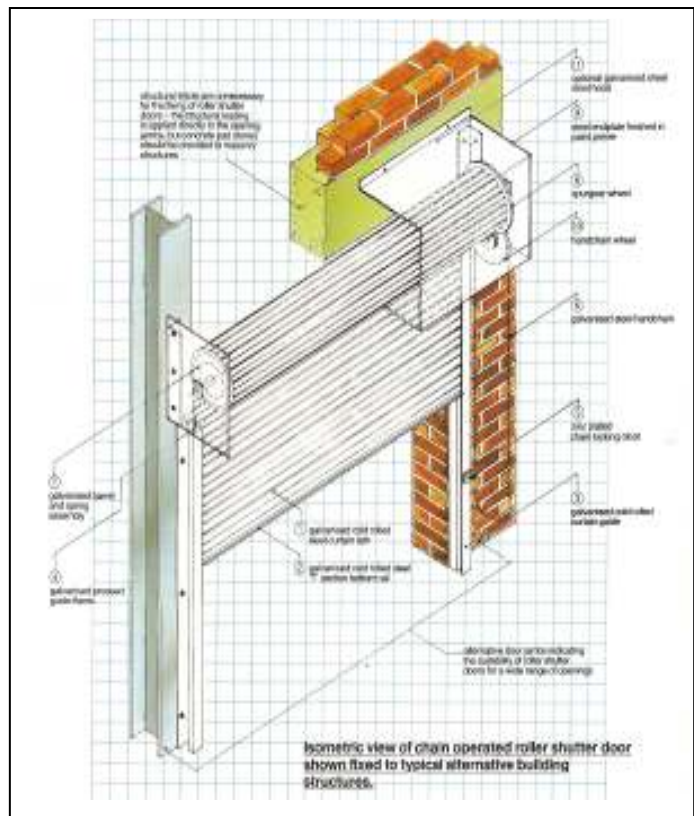

Cylinder pin locks to push up doors.
Chain locking boxes to chain operated doors.

Electrically operated doors are also available as remote control operation, via hand held remote controls or induction loops set into the floor.

A full set of safety features are also available, photo cell safety beams, warning buzzers, traffic lights etc.,

Available in solid or perforated lath, in galvanised steel, plastisol or powder coated finishes.

We carry a large range of roller shutter door parts to enable us to offer an emergency repair service in the event of a door failure

Our policy is one of continuous product development and we therefore reserve the right to vary the product specification in this sales brochure
