Handrail Systems

Disabled Ramps  
Stair Nosings  
Safety Gates  
Walkways  
Stairs & Steps  
Trench Covers  
Mouldings  
Tread Covers

Lightweight platforms, walkways, ramps, ladders, handrails and work stations designed, built and installed to your exact requirements and to British Standards (BS5359) by our own skilled craftsmen. A complete CAD design and build service is available.

A picture tells a thousand words therefore this brochure is packed with pictures of installations.

**Warwick University**

We are able to supply 2D and 3D drawings accompanied by structural calculations where required using the latest CAD technology.

**Malvern Theatres**

**Blue Star Fibres**

Just about any size and configuration of platform, stairway or ramp can be built and installed all to exacting professional standards. We are a small company but specialise in complicated fabrications and installations sometimes under the most extreme conditions. We are frequently used by other companies who are unable or unwilling to carry out such projects.

- Lightweight** - No need for additional support
- Corrosion resistant** - Will never rust or rot
- Low maintenance** - Will never need painting
- Thermally stable** - Will not burn or freeze your hands
- Fire resistant** - Class 1 rating to BS 476
- Non-Conductive** - Ideal for use in electrically hazardous areas
- Design** - Take advantage of our in-house CAD design service

Ramps can be built and installed to just about any size. Ramps are built to British Standards and conform to current building regulations. Ramps are an ideal solution for wheelchair access for factories, schools, home and office.

**Tickford Powertrain**

**Tank Farm Platform**

**Gatwick Airport**

**Caterpillar UK**

No project is too small or too large. We offer a comprehensive design, build and project management service for larger projects.

**Metrolink Ladder**

**Roof Walkway**
