Trafic

RENAULT

Trafic

COMMERCIAL VEHICLES WITH INNOVATION.

Trafic has been designed to meet your everyday professional needs. Its new design is protective but elegant, and comes with powerful yet silent engines. Its technical equipment and high level of comfort and safety are worthy of a people carrier.

Trafic offers a wide range of made-to-measure commercial solutions including Panel Van, Crew Van, Platform Cab and Commercial Passenger Vehicle versions to suit all your requirements, as well as a wide range of additional conversions.

Traffic Panel Van offers a full range of vehicles dedicated to efficiently transporting all load types, from delicate plants to heavy parcels and bulky items. Traffic Panel Van has been designed to make your working day easier - whatever your profession.

- Two lengths: short wheelbase for city driving, long wheelbase for an increased load length of 2.8 m
- Two heights: low roof offering access to almost all underground car parks; high roof offering standing room in the load area
- From 5 m<sup>3</sup> to 8 m<sup>3</sup> load volume with a maximum payload of 1,200 kg
- The rear space is optimised to make loading and unloading much easier
- Floor and side anchorage points to secure objects safely during transport
- Large rear openings and extra-low sills

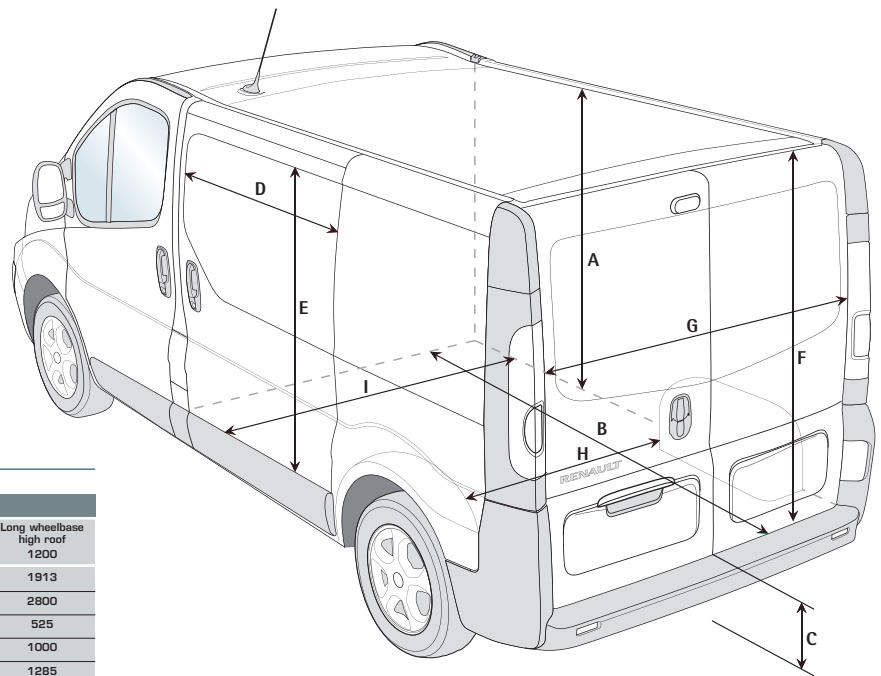

TRAFIC PANEL VAN: GEARED TO YOUR NEEDS

## CREW VAN

Traffic Crew Van is available in two load lengths and offers up to six seats with a useable volume of up to 4.13 m<sup>3</sup>.

The passenger compartment provides all passengers with optimum comfort and safety so they arrive fresh and ready for work.

- Two or three front seats
- Three point seatbelt and headrests on all seats

The loading area is extremely practical with:

- Glazed bulkhead to separate the passenger compartment
- Plylining (optional)
- Multifunctional rear passenger bench seat

## FEATURES

**Crew Van:** 'Galatone' upholstery, glazed rear doors, glazed bulkhead, 3-seater rear bench seat with headrests and 3-point seatbelts.

**Multifunction bench seat:** Double side storage areas, cup holders/moveable ashtrays and underseat storage pocket suitable for storing clothes, equipment or tools away from prying eyes.

**Crew Van Plus:** 'Genola' upholstery, opening rear windows, comfort rear bench seat with reinforced lateral support, adjustable armrests and headrests, carpet mats.

**Multifunctional rear passenger bench seat:** To extend the useable length of the entire rear area or to benefit from additional loading space.

**Adaptable loading area:** With the seat lifted or removed it's easy to transport long objects (up to a maximum height of 23 cm in the extended loading area - 2.40 m in the short wheelbase and 2.80 m in the long wheelbase).

## CUSTOMISATION

**Second battery compartment:** Area for fitting a second L4 battery. The second battery, associated wiring and disconnection unit (load management) are installed after purchase for conversion into a made-to-measure vehicle.

**Ground independent power take-off:** Engine fitting (idler pulley) for the assembly of accessories that require additional power (compressor, hydraulics system, etc.).

**Additional heater:** 5 kW additional heating capacity, which accelerates the increase in interior temperature in cold weather. This offers an ideal base when fitting a stationary heater on the Panel Van or Commercial Passenger Vehicle in Aftersales.

**Bulkhead options:** fully glazed bulkhead / full steel bulkhead / 1/3 tubular bulkhead.

**"Crystal" look indicators:** Available as an option, these customise the external appearance of your Panel Van, Crew Van, Platform Cab or Commercial Passenger Vehicle.

**All-round paint (front bumper remains black):** Semi-painted front bumper, side protective mouldings, body-coloured lower rear trims and rear step, six colours available on the Panel Van, Crew Van and Commercial Passenger Vehicle (left-hand image).

**All-round paint:** Integral paint on front bumper, wing mirrors, rear headlamp surrounds and body-coloured rear trims, six colours available on the Panel Van, Crew Van and Commercial Passenger Vehicle (right-hand image).

FLEXIBILITY IS SECOND NATURE

The Traffic Commercial Passenger Vehicle serves as a large people and goods carrier making it ideal for transporting your employees or clients:

- Six, eight or nine seat versions available (nine as standard)

Traffic offers excellent versatility with numerous storage options and an adaptable loading area:

- Choose between two wheelbases
- Large and adaptable loading area: Up to 2.4 m<sup>3</sup> with the bench seat folded

## COMMERCIAL PASSENGER VEHICLE

Commercial Passenger Vehicle: Nine seats as standard, six or eight seats as an option, 'Galatone' upholstery and rubber mats. ISOFIX 3-point mounting points in the centre seats on the rear bench seat for the safe and secure installation of child safety seats.

Two-seater front passenger bench seat and height-adjustable driver's seat in 'Galatone' upholstery.

Short wheelbase low roof

Long wheelbase low roof

\* Depending on engines

Two sliding side doors.

Luggage cover: 700 litres of under-parcel shelf volume for the short wheelbase low roof versions, and 1200 litre of boot space in the long wheelbase versions. Practical and secure, this folding cover keeps your cargo hidden from prying eyes (option).

Boot with luggage net: The luggage net protects passengers from loose objects in the event of forceful braking (optional).

Folding rear bench seat: The last row of Commercial Passenger Vehicle seats folds swiftly away, increasing the loading area in a matter of moments. 2500 litre useable volume on the Commercial Passenger Vehicle short wheelbase low roof version, and up to 6 seats.

Removable bench seat: All of the bench seats in the Commercial Passenger Vehicle can be easily removed without effort or tools, thanks to its innovative floor mounting system.

THE PERFECT BLEND OF COMFORT AND ERGONOMICS

With its new dashboard, Trafic is even more user friendly. Perfect integration – a large glovebox and numerous storage compartments keep everything safe and secure.

With "Comfort" seats and optional Carminat Satellite Navigation, driving and travelling in Trafic is more like driving a comfortable people carrier.

A wide range of engines allows Trafic to respond to all of your demands. All Trafic petrol and diesel engines are Euro IV compliant. They combine flexibility and quiet operation for an excellent balance of performance and economy.

- Diesel 2.0 dCi 90 • Diesel 2.0 dCi 115 • Petrol 2.0 16V 120

All of these engines are coupled with a 6-speed manual gearbox. The Quickshift sequential gearbox available on the 2.0 dCi 115 makes driving comfortable and reduces fuel consumption by up to 8% in the urban cycle.

NEW DIESEL ENGINE 2.0 dCi:  
A LEADER IN ITS CLASS FOR PERFORMANCE AND FUEL ECONOMY

TRAFIC: A SAFE WORKING ENVIRONMENT

Safety is a must for professionals. To minimise risks, Trafic is fitted with the most innovative safety systems either as standard or as an option:

- Rain-sensitive windscreen wipers
- Automatic headlamps
- Renault Anti Intruder Device (R.A.I.D.)
- Rear parking sensors (four)

Trafic helps correct driving errors using specially designed systems that enable the driver to retain control in dangerous situations:

- ABS with EBD (Electronic Brake Distribution)
- Brake Assist
- ESP (Electronic Stability Programme) with load adjustment

Trafic offers high levels of protection for the driver and passengers alike due to the Renault safety system:

- Front, side and curtain airbags
- Height-adjustable 3-point seatbelts with load limiter on all seats (pretensioners on the outer seats)

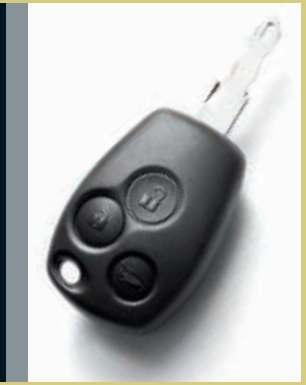

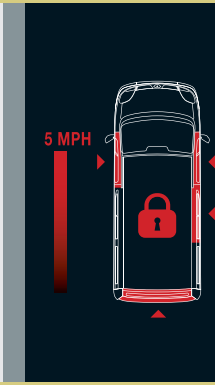

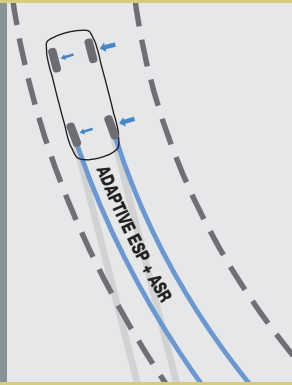

## SAFETY

ESP (Electronic Stability Programme) with load adjustment, ASR Traction Control and engine torque control, detects the load level and adjusts the triggering threshold accordingly to help maintain the vehicle's trajectory (optional, not available with sequential gearbox).

ABS with Brake Assist: ABS anti-lock braking system with EBD (Electronic Brake Distribution) coupled with Brake Assist (standard).

Renault Anti Intruder Device (R.A.I.D.): Automatically locks doors at speeds over 5mph.

Selective door/window opening function: Using the 3-button key (cab/loading area on the Panel Van and passenger compartment/boot on the Commercial Passenger Vehicle).

Up to 8 airbags (standard or optional depending on version): Driver airbag, large-volume passenger airbag, side and front curtain airbags, rear curtain airbags on the Commercial Passenger Vehicle. Provides optimum protection for the occupants in the event of an impact.

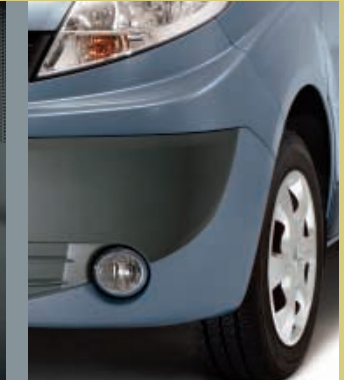

Passenger airbag deactivation: Enables child seats to be installed in the front (depending on the approved class).

Rear parking sensors (four): A warning beep gets louder as the vehicle approaches obstacles to enable easier and safer reversing manoeuvres. The function can be switched off at the dashboard in order to fit a trailer (optional).

'See Me Home' headlamps: When the engine is switched off you can choose to keep the headlamps illuminated for a further two minutes to guide you to your door (linked to the automatic headlamp activation option).

Automatic headlamp illumination and windscreen wipers: Sensors are used to detect light and rain and adjust the illumination of your headlamps and the speed of your windscreen wipers automatically. This is extremely practical when passing through a tunnel or when driving in unsettled or rainy conditions, with the sensitivity easily adjusted by the driver (optional).

Additional foglamps: Better visibility for you and other drivers in poor visibility (optional).

Anti-intrusion alarm: Thatcham Category 1 alarm and immobiliser.

Deadlocking of doors: Makes it impossible to open the doors in the event of intrusion.

Anti-theft spare wheel carrier.

## COMFORT

RDS Radio CD, encoded, with satellite radio control on the steering wheel. Remote display with radio information, clock and external temperature.

Alpine in-dash 6-CD multi-changer (under glovebox) available as an option with the CD radio.

Carminat Satellite Navigation System: New satellite navigation system indicates the route to follow and traffic information is shown on a 16/9 ratio high-resolution colour screen (optional).

Digital tachograph (optional).

Front air conditioning: With air distribution selectors and air recirculation function (optional).

Rear heating and air conditioning controls with swivelling roof air vents, pulsed air venture and adjustable rear air flow.

Electric Pack: With electric front windows and heated door mirrors (optional).

Trip computer: Provides journey details (distance travelled, average speed, total, average and current fuel consumption and fuel range).

## FUNCTIONALITY

Tubular bulkhead behind the driver's seat (optional).  
 Full-width steel bulkhead (standard).  
 Fully glazed bulkhead (optional).

Sliding side door (left): facilitates access to the rear area for loading and unloading (standard).  
 Full steel solid rear doors (standard).  
 Also available glazed and steel solid rear doors, and on long wheelbase low roof versions, with 250 degree opening.  
 Glazed tailgate with rear wash/wipe and heated rear window.

Floor anchorage rings (eight on short wheelbase, ten on long wheelbase) with reinforced resistance (625 daN) (standard).

Moveable side anchorage rings: Affixed to rails installed on the interior panels, enabling objects to be stored securely in the loading area (optional on Panel Van models).

Rear load area resin coated plywood floor: Protects the floor of your Panel Van (optional).

Tow hook allows towing of a braked weight of two tonnes and an unbraked weight of 750 kg (optional).

Front door pocket: Offering sufficient storage volume for a two litre drinks bottle and other items.

Over-cab storage area: Spacious, discreet and easy-to-access storage area offering a storage area of up to 30 kg and 300 litres (only on high roof models).

Glovebox: Large volume suitable for holding a 1.5 litre drinks bottle. A practical glasses case is built into the door, which also features lighting and refrigeration functions (air-conditioned models).

Side cup holders (loose items pictured are optional).

## ACCESSORIES

## STORAGE

Specially designed for Trafic, the stainless steel roof rack is fitted with a roller (excluding tailgate version), to make loading easier, as well as a load stop bar.

The stainless steel ladder is fixed to the rear door of your Trafic allowing easy loading of the roof rack.

The window protective grilles help prevent theft or forced entry, yet still allow good visibility for the driver.

The integrated steel roof bars can take a load of 50 kg per bar.

Select the towing option to suit your requirements. The automatic quick release tow bar enables you to remove the towing ball without tool in a matter of seconds, as can the towing plate, which is used with the combination hook, clevis or ball.

Made to measure and pre-cut to the shape of the vehicle for quick installation, the wooden floor and accessories protect the loading area when transporting goods. This floor is also available in wood with non-slip trim.

The adjustable securing straps fixed to lashing hooks enable all packages to be secured to the floor during transport.

The plastic floor hugs the shape of the vehicle and permits the transport of damp or soiled items.

The universal refrigeration unit is the perfect accessory for keeping packed lunches and drinks cold.

## INTERIOR AND COMFORT

To protect the interior of your Trafic, choose the 'Super Aquila' cover specially designed for heavy use (available soon).

Made to measure, the rubber 'Novestra' mat is waterproof and can be cleaned with a hose. It protects the floor of your vehicle against wear, mud and moisture.

Avoid creasing your clothes by using the garment carrier on the back of the headrest.

## PROTECTION

The front and rear mudflaps, the wheel arches and the side protection for rear doors protect the bodywork of your Trafic from road debris, scratches and small bumps.

## MULTIMEDIA

Thanks to the hands-free kit you can make calls whilst keeping your hands on the wheel\*. With the Bluetooth® Parrot CK3200 hands-free kit you can keep your mobile in your bag or pocket. The dashboard-mounted LCD colour screen displays information relating to your mobile. With the hands-free wired kit, simply place your phone in the holder situated on the console.

The Parrot Rhythm N'Blues car radio offers a dual-function car radio (CD/MP3 player) and Bluetooth® hands-free kit with in-dash microphone.

\* To make and receive calls safely, it is recommended that you pull over and stop in an appropriate area.

## ENGINES

**2.0 dCi 90 and 2.0 dCi 115:** Renault's 2.0 dCi diesel engine offers Trafic the best in diesel technology. With its piezoelectric injectors, its 1600 bar Commonrail system and timing chain, this engine is environmentally friendly (Euro IV standard), quiet running, flexible and responsive at all speeds, as well as being very fuel efficient and reliable.

The 90hp version is ideal for city traffic with a maximum torque of 240 Nm.

The 115hp version offers a maximum torque of 290 Nm and is an excellent balance between performance and fuel economy, running on average, for more than 683 miles on a single full tank.

**2.0 16V 120:** The multi-valve technology on the Trafic petrol engine provides flexibility and driving pleasure, whilst observing Euro IV standards.

The standard 6-speed gearbox makes for a relaxing drive whilst minimising fuel consumption.

**New 6-speed manual gearbox:** Fitted as standard on all Trafic diesel engines, it's the perfect workmate owing to its torque potential of 350 Nm and dash-mounted gear lever. You'll be able to fully exploit the loading capacities of Trafic, whilst offering improved traction and better pick-up on the intermediate gears. The sixth gear reduces noise and fuel consumption at motorway speeds.

**New Quickshift 6-speed automatic sequential gearbox:** Whether you opt for the fully automatic or sequential mode, its technology combines the best drive, comfort and safety with the qualities of a traditional gearbox, with superior traction, loading capacity, performance and fuel economy (up to 8%). Equipped with "load" and "snow" modes and a "creep" function (available on the 2.0 dCi 115).

### **Renault Business Centre :**

In order to offer a complete service to business customers, Renault has created a specialised network: Renault Business Centres. As soon as you enter a Business Centre, you are welcomed by qualified staff who specialise in commercial vehicles. You will have no trouble in finding the car or van to suit you: a wide range is available on show and for demonstration. Need specific vehicles? You will be offered converted vehicles suited to your business. When you buy or hire your vehicles, you will find there is a wide range of finance and service contracts that meet your requirements. You can always be sure that everything is being done to make life easier for you. The after-sales service is committed to providing you with made-to-measure services: extended workshop hours, rapid vehicle drop-off service, no-appointment servicing, etc. If you need it, you can even count on a replacement vehicle equivalent to your own.

### **Renault recognised converters**

Renault have a number of Recognised Converters in the UK, covering all types of conversions, who are able to offer bespoke solutions to your requirements. They conform to the highest standards to satisfy and frequently exceed very stringent Health, Safety and Insurance requirements. Contact your local Renault dealer for your specific requirements.

Further assistance is also available by contacting the Conversions Hotline on 01582 679 106, e-mail [conversions@renault.co.uk](mailto:conversions@renault.co.uk).

### **Accord Produit**

Renault operates a quality assessment programme for all recognised converters, both in the UK and in Europe. The award of Accord Produit, with regard to a specific conversion type, is an indication that the conversion does not detract from or compromise the inherent design characteristics of the vehicle. Renault takes responsibility for the base vehicle. The converter is responsible for all aspects of the conversion. Accord Produit is your assurance of consistently high standards of workmanship and support throughout the life of the vehicle. The service goes far beyond the provision of specialist bodywork – all the administrative and logistical aspects of the job are taken care of too. For instance, Renault Recognised Converters can offer identical warranty to that provided by Renault itself. Your first step? Call in at your local Renault dealer on whose competence and expert co-operation you know you can depend.

### **Off the shelf conversions**

Renault offers a range of highly specified and popular “Off the Shelf” conversions, available directly through your local Renault Dealer. The range is constantly updated, so ask your local Renault Dealer to advise you on what is on offer.

# The ecological footprint according to Renault

Renault's environmental policy is based on an understanding of the ecological challenges that our planet faces.

By launching the Renault eco2 initiative, Renault underlines its commitment to protecting the environment and so offers a range of vehicles that are both economical and ecologically sound.

- Ecologically sound through a commitment to reducing the environmental impact for the entire lifespan of the car. From the outset, each new project incorporates production processes, choice of materials, pollutant and CO<sub>2</sub> emissions, fuel consumption and recycling.

- Economical in terms of fuel consumption. Renault emphasises that the solutions to many great ecological challenges lie in technological advancements that can be applied to

the majority of vehicles whilst maintaining attractive pricing.

## Recycling

Renault strives to manufacture vehicles that are environmentally safer than ever before. One of Renault's strengths is its capacity to integrate the environment into every stage of a vehicle project right from the design phase until the end of its life cycle. Eco-design of current Renault vehicles enables 95% of their weight to have a second life. It also means that an increasing number of components are made of recycled plastics and renewable materials. For further information on Renault and the environment please log on to our website, [www.renault.co.uk](http://www.renault.co.uk).

## Renault. The Standard in Safety.

Renault's continuous work in the field of safety has reaped rewards: with eight vehicles\* awarded 5-star ratings in Euro NCAP crash tests, Renault is now the leading manufacturer in terms of occupant protection. Renault's expertise in safety is applied from the very start of the vehicle design process, and incorporates high quality systems in order to:

**Prevent** risks thanks to the driving safety features.

**Correct** driving errors to prevent accidents as far as possible.

**Protect** all of the vehicle's occupants in the event of an accident, no matter where they are seated.

Furthermore, Renault considers safety from a global viewpoint. Not only do we develop and manufacture the safest vehicles available to date, but we also act to improve the behaviour of today's road users. As a result, Renault raises road safety awareness amongst even the youngest of road users by means of an international training programme which is run in schools and colleges.

\* Euro NCAP (European New Car Assessment Program) is an independent organisation.

\* Please note that Vel Satis is not available in the UK.

### **Formula 1, a school of excellence**

Formula 1 is an extremely demanding sport. It teaches us that what really counts, besides performance, is the ability to construct reliable cars which won't let you down, despite being subjected to extreme physical conditions. We have applied this philosophy not only to our racing cars, but also to the construction of our road cars. Because our commitment to Formula 1 has only one aim: to teach us how we can offer you reliable, safe, high-performance cars, upon which you can always rely.

RENAULT - 2005 & 2006 FIA FORMULA 1 WORLD CHAMPIONS

## RENAULT - 2005 & 2006 FIA FORMULA 1 WORLD CHAMPIONS

Although every effort has been made to ensure that the information contained within this brochure is as accurate and up to date as possible, Renault U.K. reserves the right to modify its models without notice including their characteristics, specifications, equipment and accessories. Brochures inevitably become out of date or inaccurate in some respects, in that such characteristics, equipment, specifications or accessories may be changed after the publication date given below and can differ from the descriptions given. It is therefore necessary to check with your Renault dealer before purchasing any product that the characteristics, specifications, equipment or accessories of the vehicle on order are as advertised. Publication date July 2007.
