

## “Eazi Access” LST Radiator Covers

The new high quality “Eazi Access” radiator cover has been specially designed to provide complete access to the radiator and associated pipe work by means of a hinged and fully removable front panel, making it particularly suitable for all areas where frequency and ease of cleaning is a major requirement.

The removable, quick release front panel is fully lockable with a security key and is secured by security fixings. It gives instant access to the complete radiator, pipe work and controls for cleaning and maintenance and allows for easy retrieval of small items such as pens, coins and tablets that may have fallen into the radiator cover.

With the front panel completely removed it ensures complete access to the radiator and prevents obstructions and trip hazards in busy and confined areas.

The design of the Eazi Access radiator plays an important role in infection control at all levels.

The front panel can be easily removed by cleaning personnel for routine or deep cleaning, without the need for maintenance staff being involved, providing significant time and financial savings.

The Eazi Access LST radiator covers are available with Anti-Microbial Paint and robust 2mm high quality steel as optional extras.

### Bespoke Design

Every single one of our radiator covers are individually made to measure and are designed for use in hospitals, clinics, nursing homes, schools, nurseries, hotels and leisure areas, public buildings and local authority areas.

### Free Design and Survey

Coverad's free design service involves a detailed site survey carried out by a member of our experienced National Sales Team. We cover the whole of the UK and Ireland, with each Sales Representative covering a dedicated area providing full customer support.

This service is the product of successfully supplying over 200,000 radiator covers to facilities such as hospitals, surgeries, nursing homes, schools, nurseries, commercial buildings.

### Experienced Customer Service

Our dedicated staff ensures a smooth transaction from the initial survey through to delivery and installation, assisting our customers at every stage of the process.

### High Quality Manufacture

Coverad are a UK manufacturer based in the south of England. We ensure that all our products are manufactured to the high quality specification our customers have come to expect from a market leading company.

### Radiator Cleaning and Sanitisation

A service developed out of the increased awareness of MRSA in hospitals and the efforts of Facility Managers and Infection Control Departments to achieve generally higher standards of cleanliness in all Public Buildings.

### Dedicated Installation

All our installation engineers are experienced Coverad employees who provide our customers with a highly professional and dedicated service. Their many years of experience enable them to work with flexibility around the operational needs of all environments, with as little disruption to the day to day running of the facility as possible.

### Caring After-Sales Service

At Coverad we pride ourselves on providing a personal After Sales Service once the delivery or installation has been carried out. Our team check to ensure that our customers are happy with the level of service we have provided at all stages of the process and we certainly take on board all comments made to enable us to continually strive to provide the high quality of service which Coverad is well known for.
