Mobility Engineering (Cheshire) Ltd

PROFILE

Mobility Engineering (Cheshire) Limited was established in 1974 to manufacture and supply **conveyors** and **conveyor systems** for all types of industries and industry sectors.

The company has experienced steady growth over the last 30+ years and has accumulated a wealth of experience in the mechanical, structural and electrical disciplines within the field of materials handling.

Based in **Lymm, Cheshire**, the company now has in-house **mechanical** and **electrical** engineering staff for the design, manufacture, installation and commissioning of all **material handling** systems. AutoCAD is our design tool, along with many years of valuable in-house and on-site experience.

In 1994 a second site was acquired and it's sister company, Roll-Ezy Limited was established to manufacture **conveyor rollers** and **conveyor components**, supplying to **Mobility Engineering** and other conveyor manufacturers.

Both companies now supply to clients throughout the United Kingdom and overseas, having earned a reputation for supplying competitively priced, quality, **conveyors** and **conveyor systems**.

Mobility Engineering manufactures **conveyor systems**, both custom made and in modular format, with each system designed to meet the requirements of the intended application. It's **conveyor** products with the exception of proprietary equipment (motors, electrical components, etc.) are all produced in-house. The manufacture of conveyor equipment is undertaken with careful consultation with the client, ensuring that the system fulfils it's expectations.

What we do:-

Gravity Conveyors - Lineshaft Conveyors - Powered Roller Conveyors - Chain Driven Conveyors - PVC Belt Conveyors - Modular Belt Conveyors - Slat Conveyors - Conveyor Rollers - Portable Conveyors - Special Purpose Conveyor Systems - Zero Pressure Pallet Handling - Zero Pressure Carton Handling - Magnetic Conveyors - Transfer Units - Turn Tables - Ball Tables
