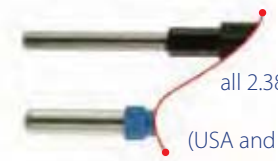
AUTOCLAVABLE LATEX FREE

Fingerswitches and Footswitch controlled handles

Prima Medical Limited

Prima Medical Limited, Mill 16, Bath Road trading estate, Lightpill, Stroud, Gloucestershire, GL53QF, United Kingdom

Universal fingerswitch

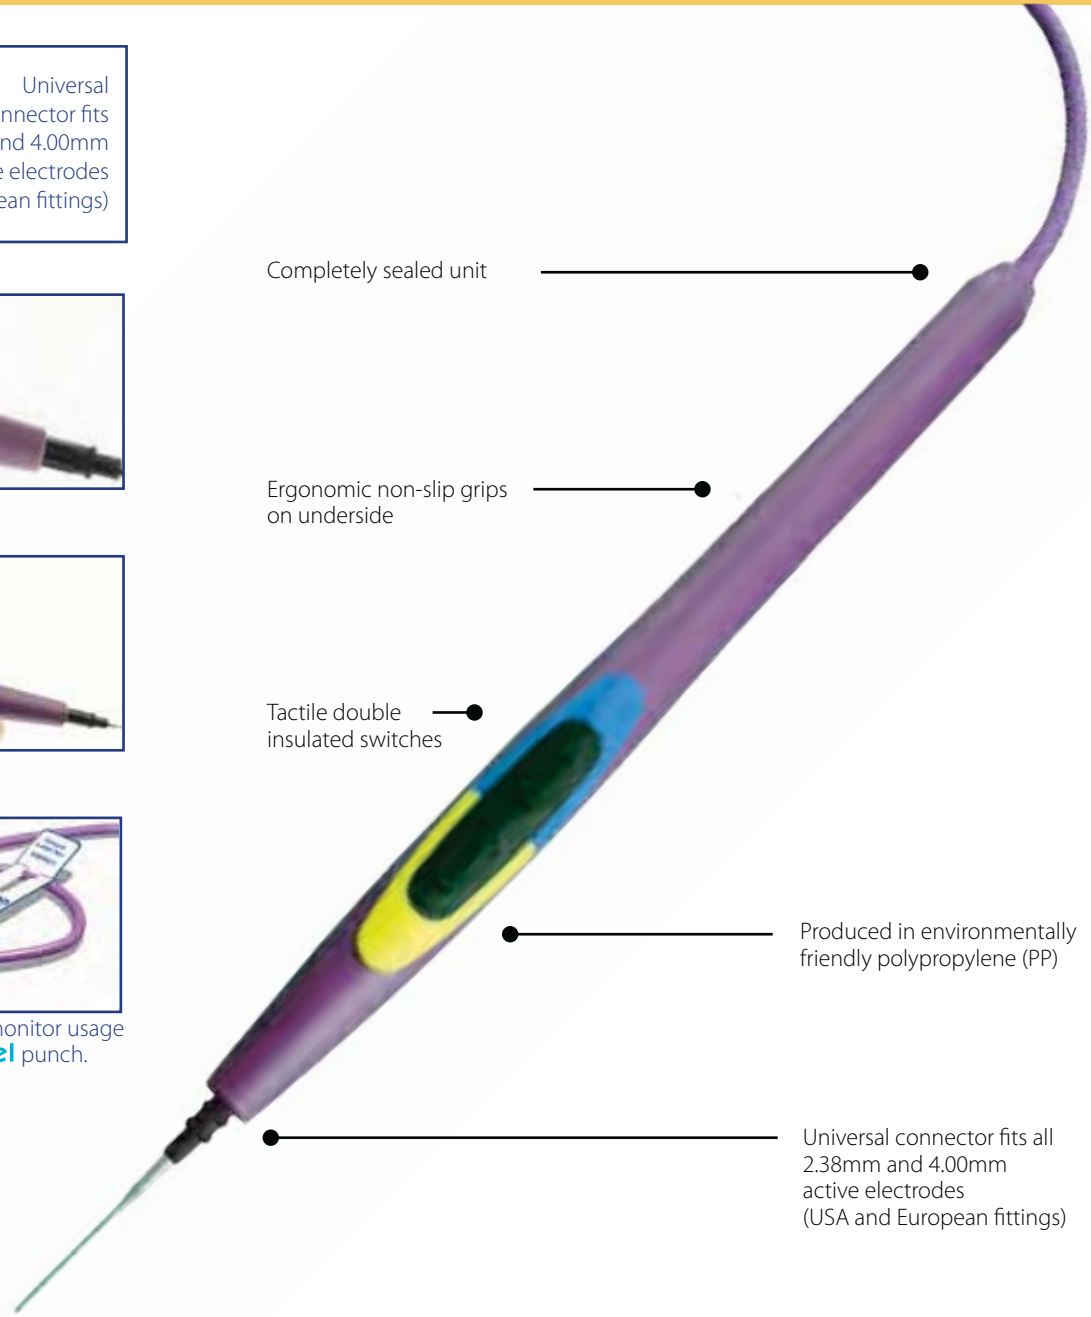


Universal connector fits all 2.38mm and 4.00mm active electrodes (USA and European fittings)

Ergonomic, non-slip grips on the underside

Tactile, double insulated switches

Colour coded AUTOClabel tag is used to monitor usage with the permanently attached AUTOClabel punch.



Patented design

Ordering Details :

Pack of 5 universal fingerswitches with blade electrodes, AUTOClabel and punch. Each fingerswitch is autoclavable sixty times:

PMS 2055
with 3m cable

PMS 2056
with 5m cable

Terminated with connector to fit:-
Valleylab, BOWA
Erbe ICC International
Erbe VIO, Eschmann
Conmed

PMS 2057
with 3m cable

PMS 2058
with 5m cable

Terminated with connector to fit:-
4mm (female)
Aesculap, Berchtold
Erbe T Series,
Huttinger, Martin,
Micromed, Siemens
Sutter BM780

PMS 2061
with 3m cable

PMS 2062
with 5m cable

Terminated with connector to fit:-

PMS 2059
with 3m cable

PMS 2060
with 5m cable

Terminated with connector to fit:-
5mm ACC (standard)
ICC, Erbe V10*
Karl Storz
*Depends on generator socket

Eco-switch Environmentally-friendly electrosurgery

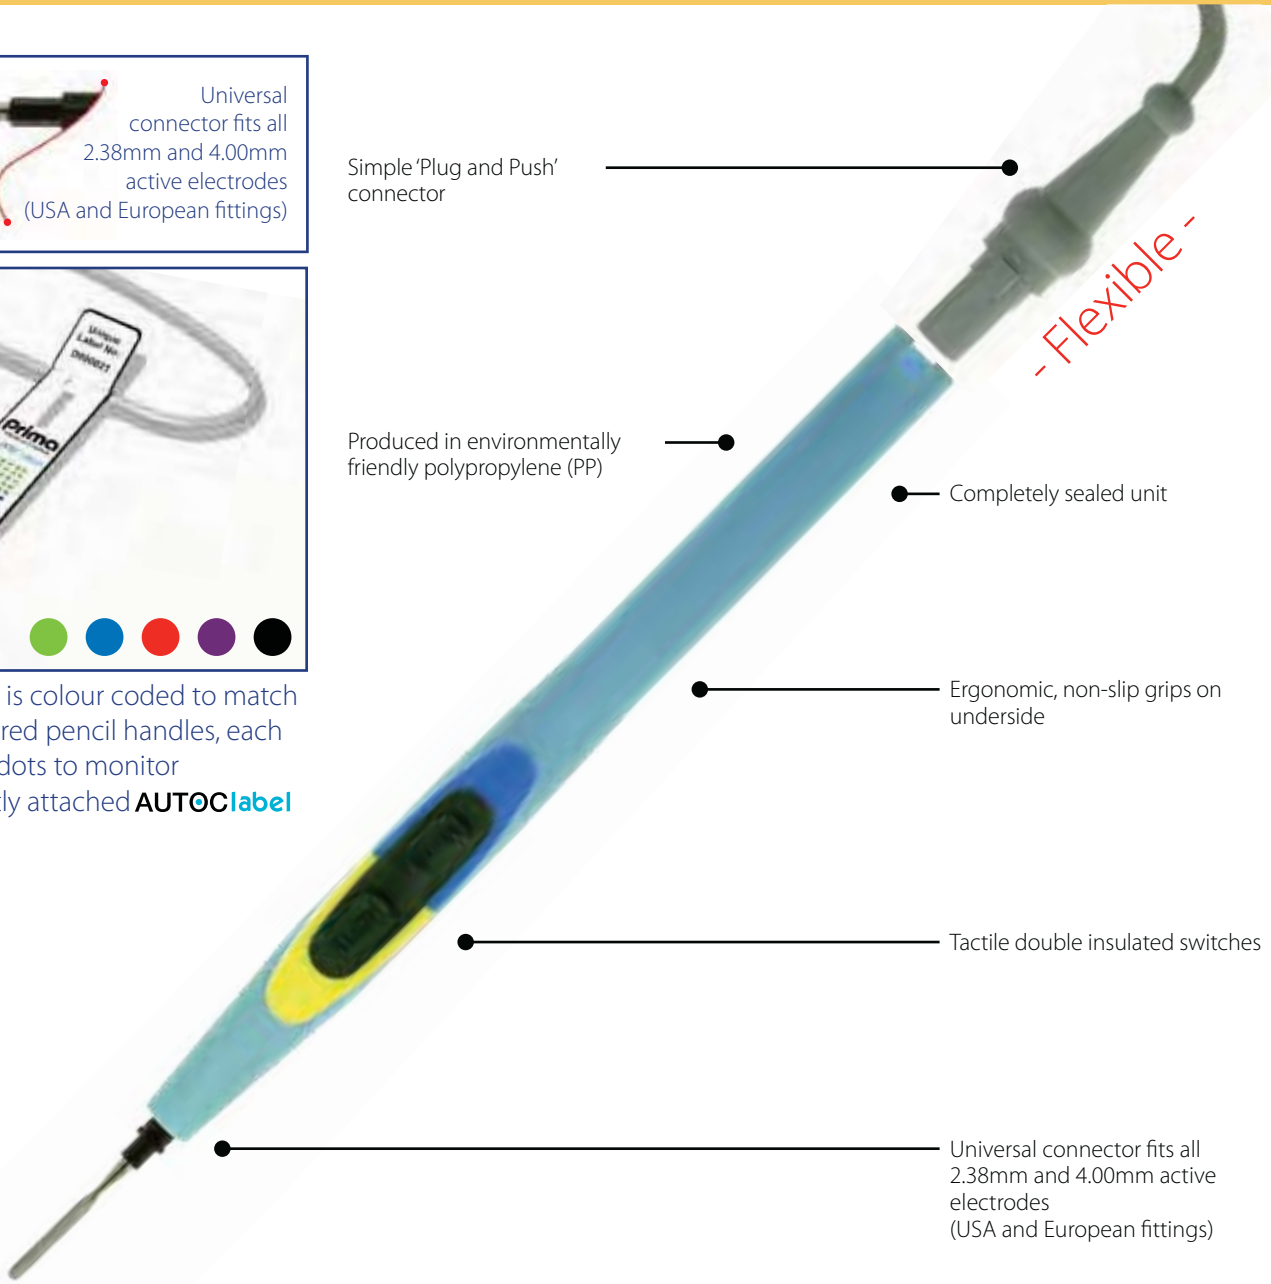
The Eco-switch

5 Different coloured pencil handles, and
1 Reusable cable with AUTOClabel and punch

Each Eco-switch pack contains one Eco-switch long life cable and five Eco-switch autoclavable electrosurgery handles with reusable blade electrodes. Simply replace each handle every thirty cleaning cycles - then the cable is used again.

Universal connector fits all 2.38mm and 4.00mm active electrodes (USA and European fittings)

The Eco-AUTOClabel is colour coded to match the five different coloured pencil handles, each with thirty punchable dots to monitor usage with permanently attached AUTOClabel punch.



Flexible long life cable with moulded flexible coupling

Simple 'Plug and Push' connector

Produced in environmentally friendly polypropylene (PP)

Completely sealed unit

Ergonomic, non-slip grips on underside

Tactile double insulated switches

Universal connector fits all 2.38mm and 4.00mm active electrodes (USA and European fittings)

Patented design

Ordering Details:

Pack of 5 Eco-switches with blade electrodes, Eco cable, AUTOClabel and punch, terminated with electrosurgery generator connector: Each pencil is autoclavable 30 times, 150 in total

Coloured Fibre Light Cables

Coloured (standard) fibre light cables

	P BS / ACMI Female	Q Wolf / Dyonics	R Storz / Olympus	A BS / ACMI Male
A ACMI British Standard	AP	AQ	AR	AA
B Wolf / Dyonics	BP	BQ	BR	BA
C Storz	CP	CQ	CR	CA
E Olympus	EP	EQ	ER	EA
F Pentax	FP	FQ	FR	FA

NOT FOR USE WITH XENON LIGHT SOURCES WITHOUT HEAT FILTERS

Fibre light cables

Available cable length

1.8 m	Add 18 to code
2.3 m	Add 23 to code
3.0 m	Add 30 to code

Available fibre-light bundle diameter

3.5 mm	Add 35 to code
4.9 mm	Add 49 to code

Available fibre light cables colours

B	for Blue
G	for Green
R	for Red
Y	for Yellow
GY	for Grey

Generate your own fibre optic cable codes

The codes listed left are the first part of your product code. To generate the second part, you need to know the length and diameter of the cable you require (see above), finally add the colour you wish (see above)

For example;

Light source end	Instrument end	Cable length	Bundle diameter	Colour
C	P	23	35	/ R

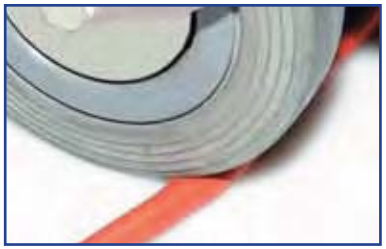
Product code: CP2335/R

Coloured high flex, armoured fibre light cables

	PX BS / ACMI Female	QX Wolf / Dyonics	RX Storz / Olympus	AX BS / ACMI Male
A ACMI British Standard	APX	AQX	ARX	AAX
B Wolf / Dyonics	BPX	BQX	BRX	BAX
C Storz	CPX	CQX	CRX	CAX
E Olympus	EPX	EQX	ERX	EAX
F Pentax	FPX	FQX	FRX	FAX

SUITABLE FOR USE WITH XENON LIGHT SOURCES

Armoured cables



Crush resistant

- For use with Xenon light sources
- high-flex armoured cables
- choice of colours - identify your department!

Fibre light cables

Available cable length

1.8 m	Add 18 to code
2.3 m	Add 23 to code
3.0 m	Add 30 to code

Available fibre-light bundle diameter

3.5 mm	Add 35 to code
4.9 mm	Add 49 to code

Available fibre light cables colours

B	for Blue
G	for Green
R	for Red
Y	for Yellow
GY	for Grey

Generate your own fibre optic cable codes

The codes listed left are the first part of your product code. To generate the second part, you need to know the length and diameter of the cable you require (see above), finally add the colour you wish (see above)

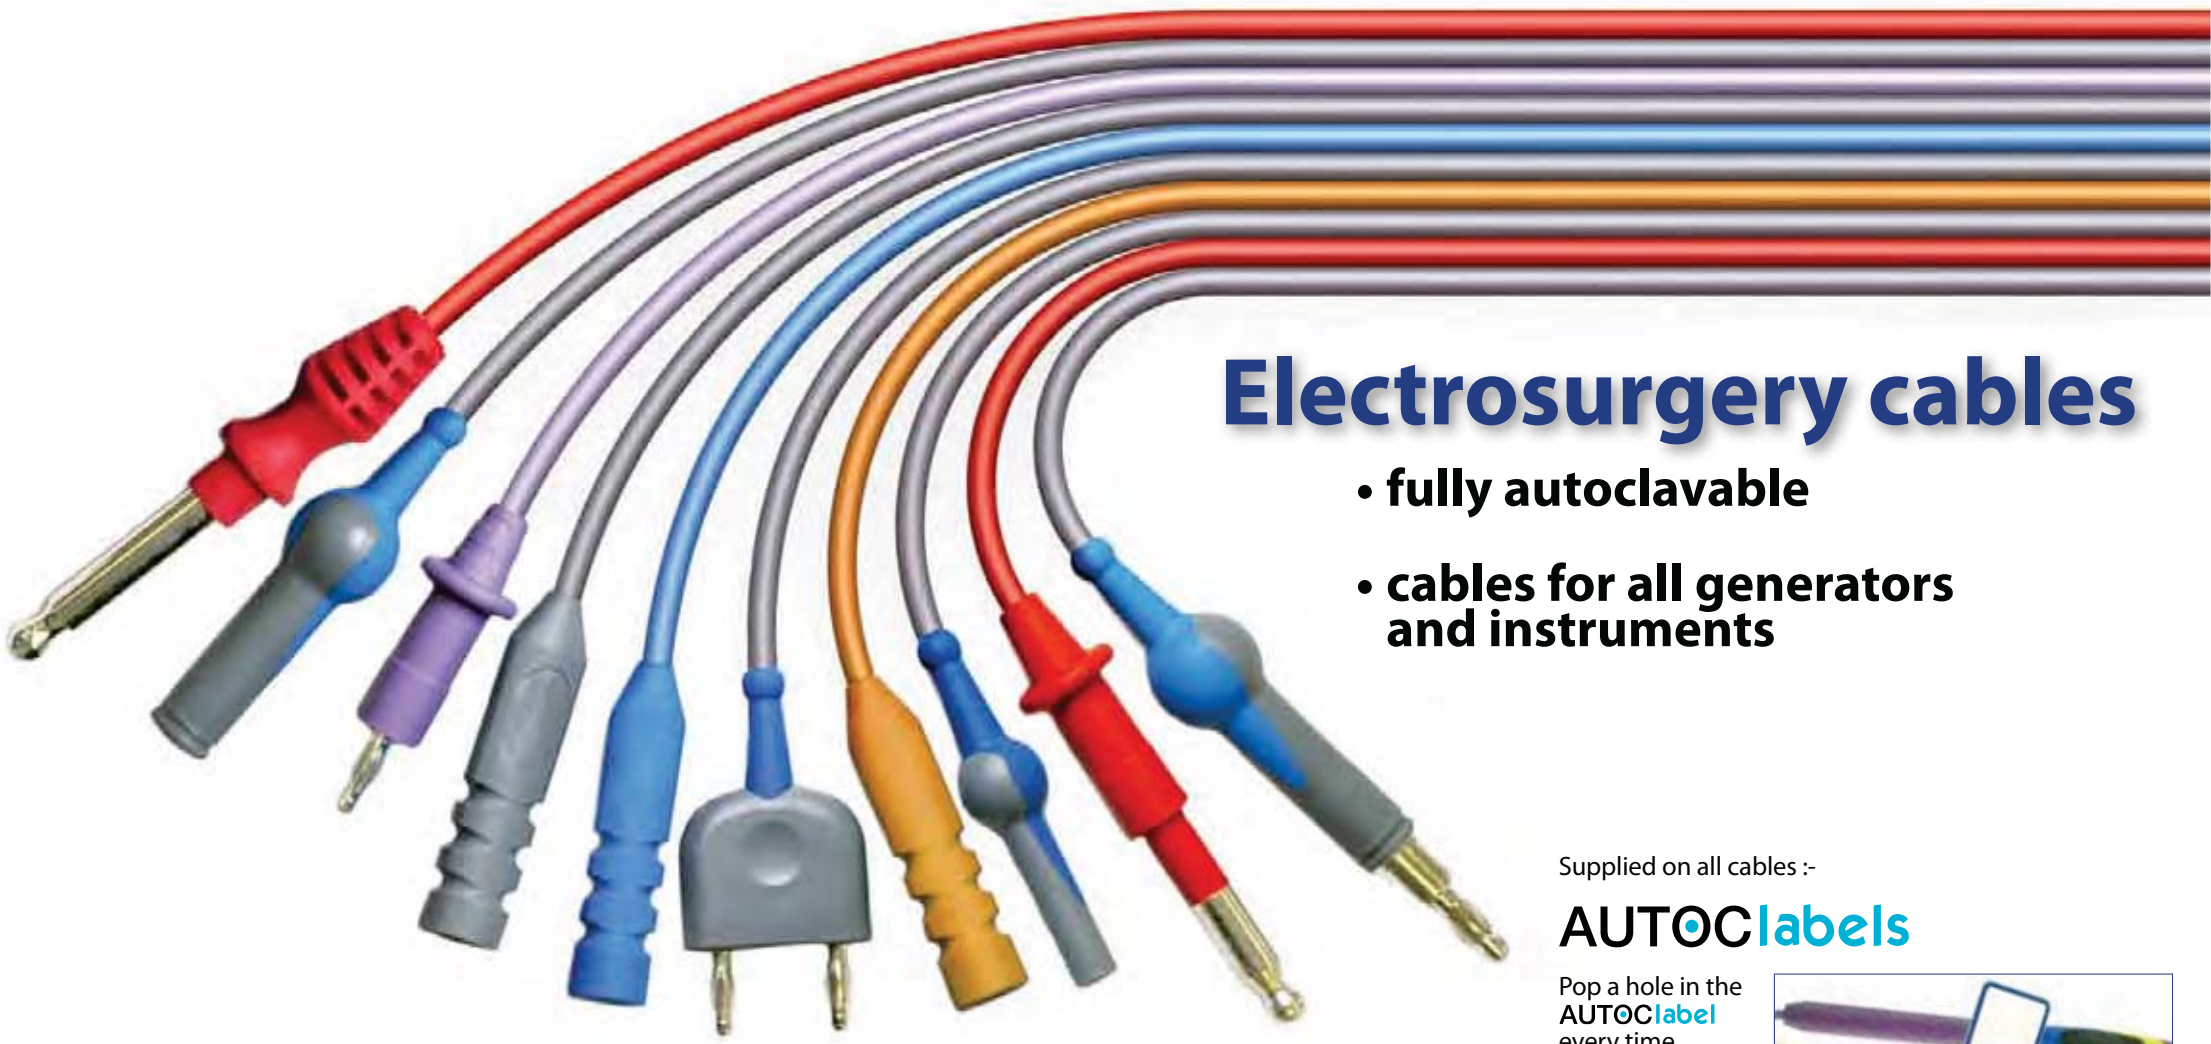
For example;

Light source end	Instrument end	Cable length	Bundle diameter	Colour
C	PX	23	35	/ R

Product code: CPX2335/R

Prima Medical Limited, Mill 16, Bath Road trading estate, Lightpill, Stroud, Gloucestershire, GL53QF, United Kingdom

CE 0120



Electrosurgery cables

- **fully autoclavable**
- **cables for all generators and instruments**

Supplied on all cables :-

AUTOClabels

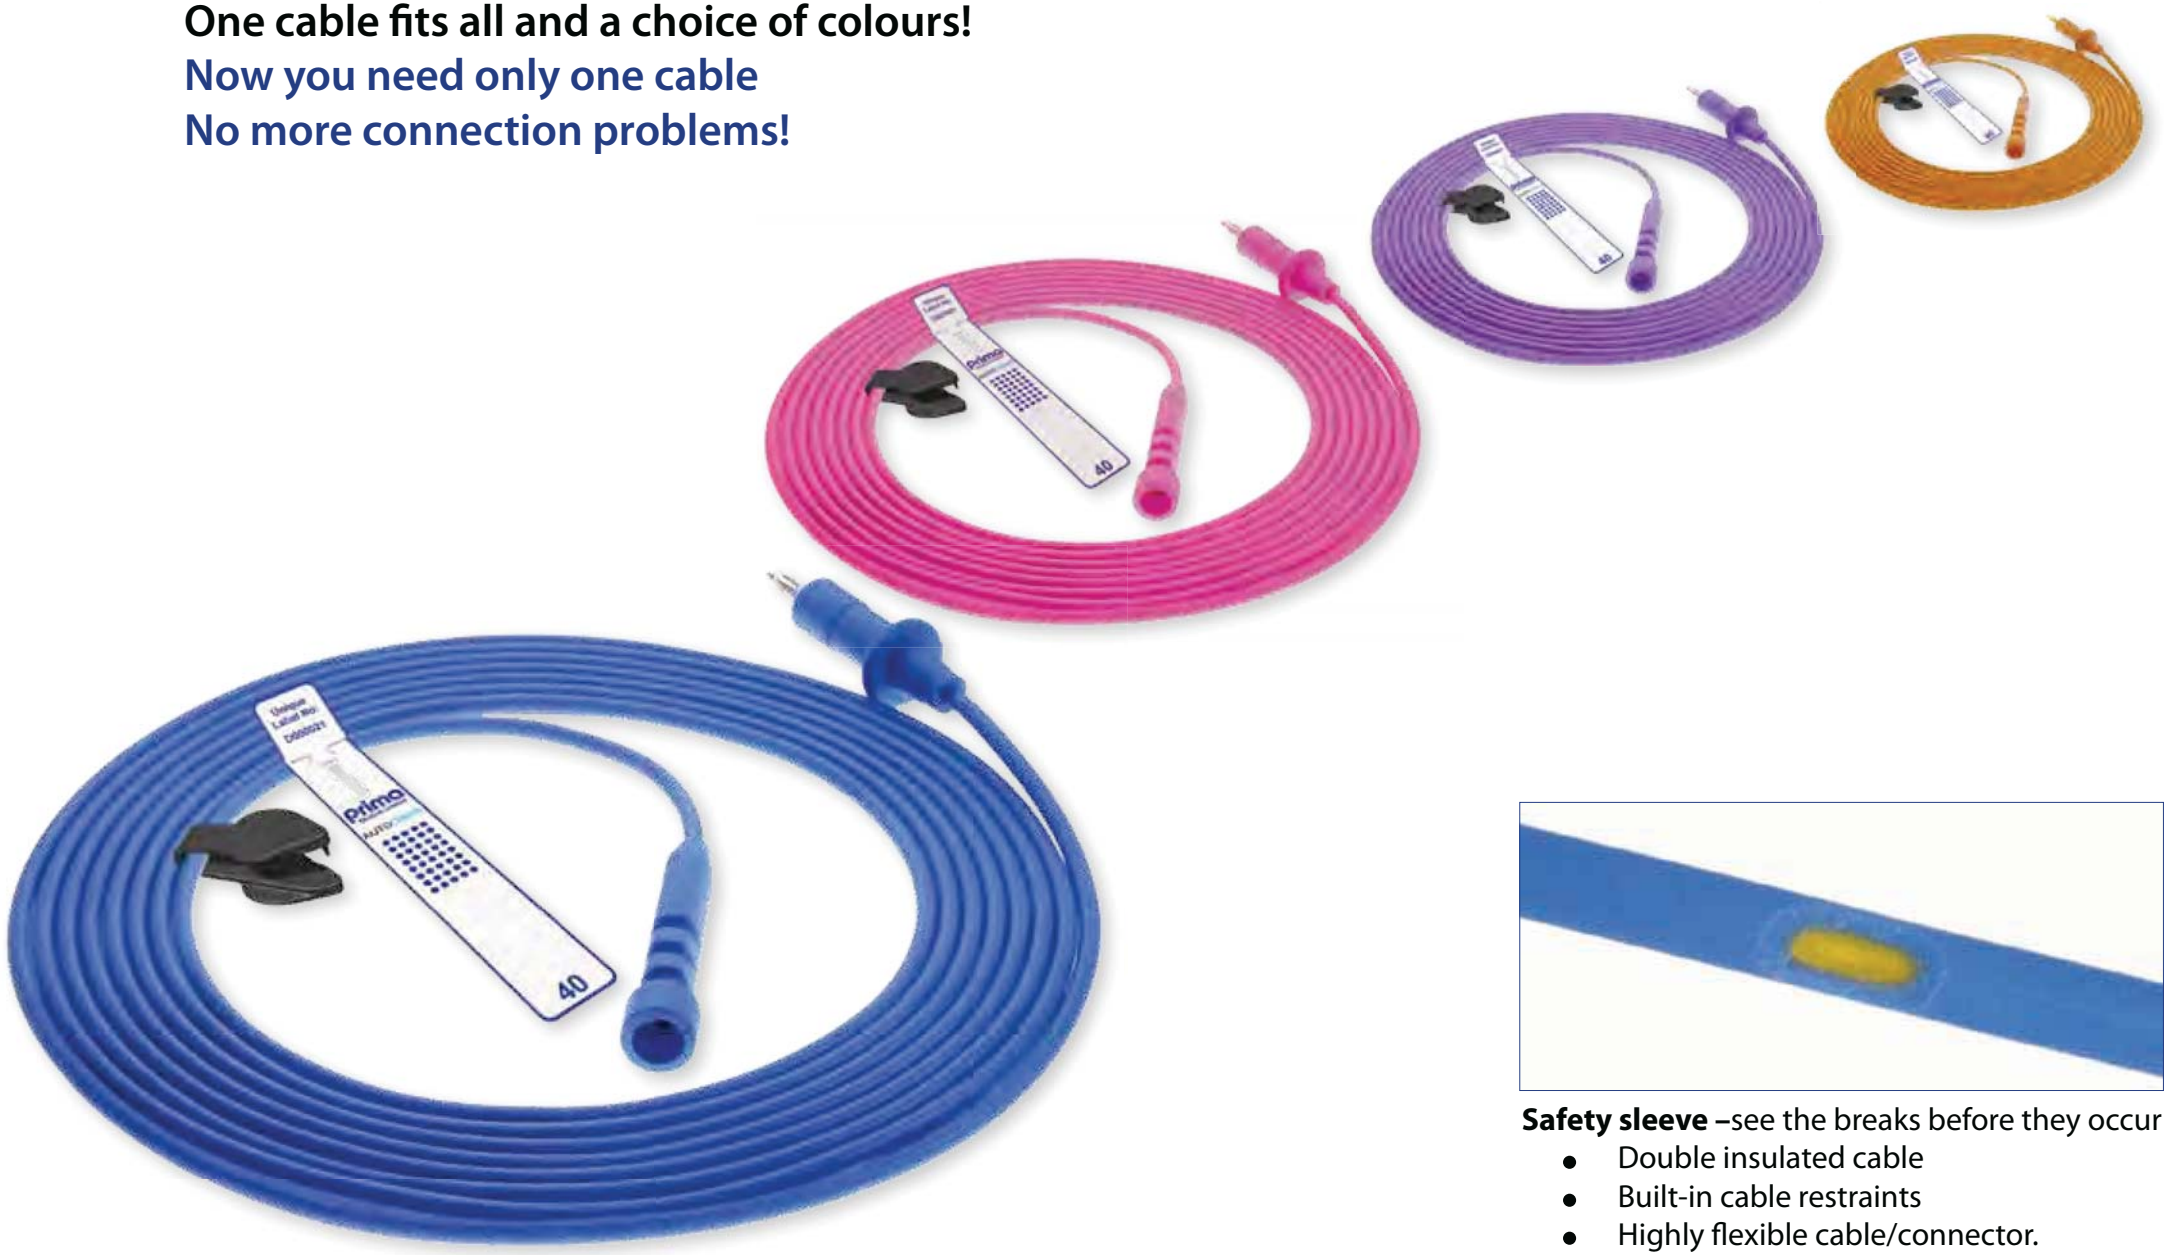
Pop a hole in the AUTOClabel every time the product is autoclaved with the permanently attached AUTOClabel punch.

Universal monopolar cables

One cable fits all and a choice of colours!

Now you need only one cable

No more connection problems!



Safety sleeve –see the breaks before they occur

- Double insulated cable
- Built-in cable restraints
- Highly flexible cable/connector.

Generator connectors	4mm B	8mm C
Instrument connectors		
Orange 	B-50/O 4m cable	C-50/O 4m cable
Fuchsia 	B-50/F 4m cable	C-50/F 4m cable
Purple 	B-50/P 4m cable	C-50/P 4m cable
Blue 	B-50/B 4m cable	C-50/B 4m cable

Fits most male forcep ends

4.8mm Monopolar handles (foot controlled)

4.0mm Endoscopic

4.5 to 5.0mm Monopolar forceps

4.0mm Monopolar handle UK

AUTOClabels

Pop a hole in the AUTOClabels every time the product is autoclaved with the permanently attached AUTOClabels punch.

AUTOClabels - autoclave tracking system

AUTOClabels

Ideal for tracking all :-

- Re-usable cables
- Larger instruments
- Electrosurgery devices

- Each label has its own unique consecutive number
- Ideal for quick identification

AUTOClabels - autoclave tracking system

Simple!

It is easy to see and monitor product usage

- Pop a hole in the AUTOClabel every time the product is autoclaved with the permanently attached AUTOClabel punch or
- Track your product's autoclave history by using the unique label number printed at the top of each AUTOClabel tag or
- Use the blank AUTOClabel to apply your own barcode.

The AUTOClabel punch & label are easy to attach to the product, no tools needed, just clip on

No tie needed - Just push and lock the punch on the cable and the label just feeds back into itself – takes seconds!

NonStick bipolar forceps

- Significant reduction of tissue adhesion to tips
- Reduced tissue trauma
- Easy to clean during use

The **NonStick** range of bipolar forceps offers significant advantages over standard forceps when used in soft tissue surgery.
The adhesion of "coagulated" tissue to the tips is substantially reduced due to the heat dispersion properties of the silver metal tipped forceps; silver is the best heat conducting material available and is the only material which is bio-compatble.

How the NonStick forceps eliminate adhesion:-

Standard forceps	Non-stick forceps
 "Hot Spots" occur during coagulation	 "Hot Spots" start to occur during coagulation
 The "Hot Spots" cause localised sticking	 Heat is conducted away rapidly to prevent adhesion
 Tissue seared to the forceps tips 'breaks' off	 The forceps can be removed without tissue adhesion

NonStick

Prima Medical Limited

Terms and conditions

All orders for the sale of goods are accepted by Prima Medical Limited on these terms and conditions, which supersede any previously published terms in a catalogue or elsewhere.

Offers and acceptance

No obligation shall arise as a result of a catalogue entry, quotation or any other offer, until the company accepts the order from a customer, company or other organisation seeking to make a purchase.

Orders

Where possible, please place orders by mail or fax. If obliged to order by phone, please ensure you have all the relevant details to hand in order to speed up this process. All orders will be processed only if made with full payment, except for such organisations and companies that have established account facilities with Prima Medical Limited. Orders will be processed for account holders only on provision of an Official Purchase Order, which has been duly signed.

Prices

Prima Medical Limited reserves the right to alter prices at any time without prior notice. Prices charged will be as quoted when the order is received and accepted. If any prices have risen when an order is received, you will be contacted and invited to consider the new price, prior to processing your order. If the price has dropped, we will automatically process the sale at the new price.

Satisfaction guarantee

It is our policy that if you are not totally satisfied with a product within 7 days of receipt, you may return the goods. We only ask that the goods must be unused, in an 'as new' condition. They must be in their original packaging and any included literature should be enclosed.

We reserve the right to apply a restocking charge of up to 25%. The guarantee does not apply to the sterile products, 'specials' or cut lengths of cable. No goods may be returned without a returns authorisation number, issued by our customer services helpline (+44 (0) 1453 752 626). Claims for goods damaged in transit must be made within 3 days of delivery. In the case of damaged items, always retain them for our representative or courier. None of these conditions affect your statutory rights.

Back Orders

We reserve the right to ship part orders, or to hold orders until all items are available as required. We shall only levy one delivery charge. We reserve the right to cancel any part of an outstanding order should securing supply become untenable.

Cancelling an Order

Orders can only be cancelled by prior agreement of Prima Medical Ltd. Where possible, and shipment from vendor or ourselves has not been made, we shall agree. Should a customer default on an order outside these terms we reserve the right to deduct the relevant costs of shipment and administration incurred by Prima Medical Ltd.

Returns

No goods can be returned to the company without its express consent. In the event of faulty or damaged goods being received by the purchaser, please contact and advise us of the problem, whereupon arrangements to rectify the situation will be made. Claims for products shipped faulty or damaged must be made within 3 working days.

Warranty

Prima Medical Ltd will, at its discretion, repair, replace or refund a product that develops a fault/s within the given guarantee period that is a result of faulty workmanship or design. In the unfortunate event of a fault arising, you should return the product to your nearest distributor for examination by the distributors' staff, or telephone the Order Line for advice. The warranty is void if any modification or attempted repair has been made to a product, or the product as been subjected to accidental damage. This warranty excludes any liability for consequential loss arising from defective products.

Law

Any business transacted by Prima Medical Ltd is governed solely by English Law and none of the conditions stated affect your statutory rights.
