

Strange 'egg-like' objects appearing in public spaces all over the U.K.!

These objects are nothing to worry about. They are from the **ZEN** family designed and manufactured by **Mago Urban** of Barcelona and exclusively available from **Public Spaces**. Is it a seat, a bench or even a piece of art. Well, they are what you want them to be ! They are a much more interesting prospect than simply a bollard to stop cars parking and may be used as a spontaneous form of seating, on a piece of grass where people gather.

For the full range look at the web page www.publicspaces.eu

Product & Design news from the **Arlo Green Design & Marketing** Spring 2012

Concepturbain have not been hiding away during the winter .They have offered us this stylish new suite of furniture that can be adapted for every location. Public Squares, parks, shopping precincts . The suite contains benches , seats and circular seating. As if that's not enough we also have litter bins bollards and barriers to finish the collection.

The NEW collection is called the **SOHA** . Notice the see through frame showing the contents of the bin easily . The rubbish is contained in a tough plastic bag and is the method adopted in France for security reasons. An explosive package is not easily hidden in this bin.

Nice robust furniture at an economic price to suit the times in which we live.

PUBLIC SPACES is a trading name of **ARLO GREEN Design & Marketing Ltd**
