## Catering

**Stainless steel has become of the most popular choice for today's kitchens. As well as being attractive and durable, stainless steel also happens to be very practical and makes an ideal surface for preparing and cooking food as well as cladding walls.**

T.A.B. Sheet Fabrications also specialises in the design, manufacture and installation of top quality custom-built stainless steel kitchen items including: worktops, sink units, splash backs and extract canopies as well as designing and installing ducting, fans, carbon units, electro-static filters and heat recovery systems. Our mission is to ensure that the customer's requirements are integrated at the design stage enabling a practical cost-effective solution to be provided.

T.A.B. is an active member of the H.V.C.A. This allows us to manufacture and install with confidence to current regulations.

With over 25 years trading within the catering industry, we have built up a solid relationship with suppliers and sub-contractors. This allows us to source, supply or recommend trades so that T.A.B. is able to give the customer a complete package.

**Call us now on 01621 858 848 to discuss your requirements.**
