**5 VISITOR ACCESS MANAGEMENT SYSTEMS (VAMS)**

**VISITOR ACCESS MANAGEMENT SYSTEM**

These systems are available in 2 pass sizes, 60 x 90mm and 80 x 100mm. The system logs and records visitor movements using badge inserts. Each pad consists of 500 inserts with a 5 pad minimum order amount.

It is a 3 sheet system and works as follows:

Visitors 'Sign In' completing one of the perforated inserts on the top sheet. The insert is then removed from the pad and placed in a badge to wear.

Confidentiality of visitor is obtained by the inclusion of a security sheet as a 2nd sheet to restrict viewing of previous visitors.

A duplicate copy of this information is on the 3rd sheet acting as a file copy.

It is a bespoke system, enabling us to overprint your company name and logo in up to 4 colours and you can even change the Health and Safety conditions and front layout for a small origination charge.

**VAMSR500** 60 x 90mm inserts, 10 per page

**VAMSR800** 80 x 100mm inserts, 9 per page

We offer a free mock-up service. Simply send us your logo via email or post and we will provide you with a no obligation design for you to consider.

The plastic security badges are shown on page 1.

**7 LEATHER BINDERS**

We have a choice of 3 colours for our leather binders: dark blue, black or maroon.

Each binder houses 1 pad of passes and a Time Out Pad (provided with the passes).

Visitors sign out on the Time Out Pad against their pass number rather than having to refer to the original record.

Illustrations 6 & 7 show our **VAMS500** (60 x 90mm pass) binder and

## PLASTIC I.D. CARDS

Our new credit card sized printed plastic I.D. cards are now available.

We can print your company name, logo and staff photograph in full colour front and back and even in gold and silver inks or on coloured cards.

We can print as few as 1 and we can offer bulk prices on larger orders.

To make your card system even more secure we can offer you the following safety features:

- sequential numbering
- Bar coding
- Magnetic strips
- Contact and Proximity Smart Card encoding

Being credit card sized they can be used with any of our swipe card holders (see page 3).

Alternatively, we can slot punch them so they can be used directly with lanyards, straps, clips and badge reels (all items shown on pages 4 & 5).

We offer a free mock-up service on this item, simply email or post us your logo and the information you would like printed and we will provide you with various designs for you to consider.

1 Illustrating our 4 colour printing on a white card with staff photo and bar coding

2 Illustrating our 4 colour printing on a coloured card with staff photo and bar coding

3 Illustrating use as a business card printed in 4 colours

4 Illustrating full height photo on a plastic card

5 Illustrating use as a business card printed in 1 colour on a white card

7 Card shown with slot punched into the card and used with a badge reel (see page 4 for our slot punch and accessories)

### SELF-LAMINATING CARDS (SAMS)

### STAFF ACCESS MANAGEMENT SYSTEM

Identibadge produce self-laminating cards for Staff Identification printed with your company name, logo and wording specifications.

They can be printed front and back and because you place the photo on the card after it has been printed you have complete in-house control of your passes for a 'high staff turn-over' company.

No laminating machine is required, simply:

- write in your staff details
- place their photograph in the indicated area
- Peel off the self-laminating backing and smooth over the pass.

They are then ready for immediate use and after a matter of minutes they become tamper-proof.

We can print the cards in up to 4 colours and offer our free, no obligation design service so you can see how your staff passes look.

CAN BE USED WITH STRAPS, CHAINS, LANYARDS, BADGE REELS AND CROCODILE CLIPS

### PHOTO CUTTER & SLOT PUNCH

**PHOCUT** is a sturdy hand punch for easy cutting of passport sized photos (25 x 32mm)

**SLOTP/A** is a robust piece of machinery for punching slot holes in credit/swipe ID cards. Slot size is 3 x 14mm
