*From our factory in Warwickshire in the Midlands we have been manufacturing our exclusive range of affordable, high quality spiral stairs since 1987. We supply direct to both to private and commercial customers throughout the UK and the rest of the world.*

*Our spiral stairs are individually handmade from a range of materials such as cast iron, steel, hard wood and stainless steel to your specific requirements and our technical department can advise you on any spiral stairs required to meet Building regulations BS5395.*

This combination stair uses a steel pole, landing frame and tread supports to provide great strength and stability. The hardwood treads, balusters and handrail give the stair that traditional hand crafted quality appearance.

This stair does not look out of place in any home whether traditional or modern

Landings can be supplied in all sizes to fit round or square holes.

Alternatively we can supply with a collar fixing that will allow connection direct to the upper floor as illustrated in the photographs in the brochure.

Please ask about the height of stair risers. Elite can produce lower rise steps, making walking up and down them easier for the old & very young.

Our technical team will be happy to provide advice on your specific design of your stairs

This practical spiral staircase is ideal for Barn conversions or serving a Mezzanine or balcony. This image shows the solid wood beech treads with the balusters attached. This stair has been fitted with a metal riser bar to adhere to the 100mm gap rule and is generally used when small children are using the staircase

## The Eden

*The Eden is a strong solid stair that combines the beauty of natural hardwood and the strength of a steel core to give a robust, chunky appearance*

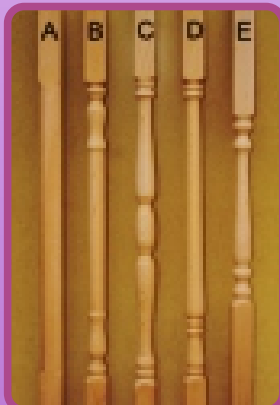

Available in sizes from 1020mm to 1830mm diameter. With larger sizes available to meet specific requirements on request. This image shows how the stair not only provides a practical solution with a small footprint, but is also aesthetically pleasing and a great feature for any home.

Eden stairs are available in Beech, Ash and Oak. Other hardwoods can be supplied if required.

All wood is sourced from reputable and sustainable sources.

A range of different styles of balusters are available (see panel opposite). Combinations of baluster styles can also be used to create a completely bespoke design.
