## The Modern

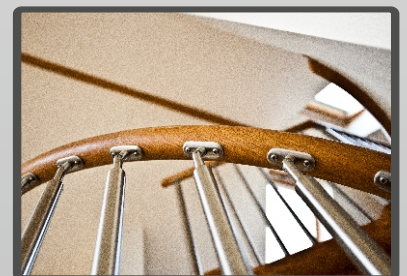

*The Elite Modern spiral stair delivers a stunning feature in both domestic or commercial property. The stair can be built to fully comply with BS 5395 and the most stringent building regulations.*

*This stair is available in sizes from 1020mm to 2500mm in diameter and is constructed from selected hardwoods, including Beech, Oak and Ash and the finest quality stainless steel.*

*Every stair is individually hand built to give a precise fit into every location. This means that no matter how simple or complex your requirements, we can build the stair to fit your needs*

*Because we use an open faced tread design, the stair allows plenty of light to pass through. Together with the stainless steel core and balusters, this gives a clean and bright appearance.*

*Landings can be built to fit into most situations, utilising round or square holes or by mounting the stair in free space to give a real open plan feel. We can manufacture guarding balustrade to match the stair to continue the look and feel throughout the property*

*The Beech and Stainless steel Spiral staircase adds a stunning central feature in this Modern home. As well as providing a practical space saving access to the upper floor*

*The modern range utilises matching hardwood handrail which is individually CNC machined for each stair to give a precise accurate fit and great finish to this stylish stair.*

*Why not give Elite a call to discuss your requirements. We are happy to provide technical advice and suggestions on how to make the most from your home or office utilising our spiral stairs, balustrades and balconies.*

*Elite supply spiral stairs to the UK and all over the world, including Australia, USA, Scandinavia and of course throughout Europe. We have over 30 years of specialist experience and yet we are small enough to ensure we have a one to one relationship with every one of our customers.*
