

The Rhonde Collection

from

Elite Spirals

This Elite Installation was manufactured to customers' requirements using the Single Basket Balusters (B6363) as the main Baluster, incorporating the Double Scallop Baluster (B6264) as the infill. The Stair incorporates the Scalop Newell Post (PC630) complete with Cast Finial for the bottom fixing of the Handrail.

The Rhonde Collection

This SUPERB looking Stair 4'6" (1370mm) diameter incorporates the Single Scalop Baluster as the Main Baluster (B6164), enhanced by the Double Scalop Baluster (B6264) as the infill. The HARDWOOD Treads in the picture are IROKO, a medium Oak colour. Treads are available in Pine and several different types of HARDWOOD. Please contact our Technical Sales Department for details.

Lloyds of London Architects Comments

*"These are pieces of Furniture.
Why buy a Stair when you can buy a piece of furniture?"*

The Rhonde Collection

LANDINGS AND COMPONENTS

The picture above shows how Elite has installed a Standard 90 degree Landing Platform complete with HARDWOOD Timber Infill to complement the installation. Landings are available 60 degrees or 90 degrees, please contact our Technical Sales Department if you require FURTHER information.

LANDING BALUSTERS AND HANDRAILS

Picture shows how Elite has supplied Landing Balusters to form the guardrail around the Balcony opening. Newell Posts, Balusters, Top Handrails and Bottom Fixing Rails are available for ANY Landing situation. For your individual requirements forward Landing measurements to Elite's Technical Sales Department and they will advise you which components you require for your installation.

The Rhonde Collection

This close-up picture enhances the SUPERB QUALITY of the Balusters. The Stair incorporates the Scalop Newell Post (PC630) complete with Cast Finial for the Handrail fixing. Stairs are available with bottom Handrail SCROLLED as to the front cover of the TRADITION Brochure.

Stairs are available in several different diameters, please see price list for details.
